to the Province of Oudh, subject to the following exceptions and provisoes:—

1. *Section III.* shall be subject to the following proviso:—

Provided that the Judicial Commissioner or any other Court exercising any appellate jurisdiction within the Province of Oudh may at any time within one year from the time of the passing or execution of any judgment or order by any Court subordinate to the said Appellate Court, call for such judgment or proceedings without any regular appeal or application for review having been preferred against the same, and may, if he, or it, shall see sufficient grounds, revise and alter or reverse or confirm the same. But that in such case, before revising, altering, or reversing any one judgment, or order, the said Judicial Commissioner, or it, shall cause the same notice to be given to the party in whose favor the said judgment, or order, was pronounced; and the same opportunity to such party to be heard in support thereof, and the same proceedings to be taken as if a Memorandum of appeal had been filed by the party aggrieved thereby.

2. *Section XVII.* is excepted, and the term recognized Agent is defined as follows, *viz.*, a permanent servant, partner, relation or friend, whom the Court may admit as a fit person to represent a party, and especially persons holding Pow... Attorney from absent parties, person... business on behalf of Bankers... ing Agents of Landhol... of women, and ... for Gov...

day appointed for the hearing of the case, and to attach his property.

4. *Section CLXXII.*—So much of this Section as requires that the whole of the evidence shall be taken down in writing in the language in ordinary use is excepted, and the record made by the hand of the Judge under the following Rule, being the Rule now in force in Oudh, shall be taken as a record of the evidence:—

*Rule.*—An intelligible note of the essential points of the evidence of each witness is to be taken at the time and in the course of oral examination by the Officer, who tries the case, in his own language. The notes must be legible, complete, and properly arranged, must attest the presence of the witness at the time, and mark every postponement and change of time and scene, so that their *bonâ fide* character may be apparent. Every essential point must be noted, but mere surplusage may be omitted. These notes shall be filed and shall form part of the record of the case. Provided that in cases tried by a European Officer, who has not passed the examination in the Native languages prescribed for Assistant Commissioners exercising special powers, the evidence of witnesses shall also be recorded, at length, in their own language.

5. *Section CCV.*—So much of this Section as renders land liable to sale in execution of a decree will be subject to the restrictions on the sale of land prescribed by the following Rule, being the local Rule now in force in Oudh:—

*Rule.* No Ancestral property in land shall be sold in satisfaction of a decree without the sanction of the Judicial Commissioner, and, before acquired property in land shall be so sold, the permission of the Divisional Commissioner shall be obtained.

## FINANCIAL DEPARTMENT.

No. 13981.

From the Secretary to the Govt. of India,
Financial Department,

To the President, Military Finance Dept.,
Fort William.

Sir,—I am directed to acknowledge the receipt [illegible] letter No. 1234A., dated the 8th instant, [illegible] consideration of His Excellency [illegible] Council, how far changes [illegible] Estimates of Depart- [illegible] without pre- [illegible] ion.

"the sanction of the constituted Controlling Authorities, and in case of changes having been sanctioned since the preparation of the previous year's Estimate the authority under which sanctioned should be referred to in that which includes them for the first time."

"16. No definite Rule can at present be suggested as to the extent of investigating that each projected alteration should undergo, which must depend on the importance of the measure; but whilst considering that facilities should be given for making improvements, it appears to us obvious that all prominent changes such as those affecting the pay, pension or rations of Soldiers, or the creation of new staff appointments, should previously receive the definite sanction of the Government of India and sometimes that of the Home Government. On the other hand changes of minor importance connected with Departmental Establishments may be safely left to the decision of the Local Governments, and by them in some instances delegated to Heads of Departments, but all such changes whether improvement or otherwise, as also the reasons for making them, should invariably be placed on record at the precise time when made, in order to admit of a judgment being hereafter formed as to how far the anticipated effects have been realized."

2. In reply, I am to state that His Excellency in Council approves of the Rule proposed by you, and is pleased to sanction its adoption, with the exception of the word "*organic*" used therein, which conveys no distinct meaning, and should therefore be omitted.

3. I am to add that Heads of Departments are already charged on their Official responsibility not to make any changes in the Budget Estimates without the sanction of the Local Governments. The correspondence authorizing all changes should be quoted (copies accompanying the Estimates), and all changes of any description specially brought to notice and fully explained.

4. With reference to your remark that "it is of great importance to know what is intended to be the scale of the year,* and that you would therefore urge that the Establishments which are expected to be maintained be those of the last month of the ensuing year, and all savings or increases be shown separately, so that the exact payment in each month may be clearly seen," I am to observe that His Excellency in Council considers the course proposed as likely to lead to confusion, and tend to make the Estimates [illegible] trustworthy than under the Rules now in force.

* 1862-63.

5. The Budget and Audit Committee, in paragraph 49 of their Report, No. 6, dated 27th October 1860, observe that "with respect to the manner in which the sums to be entered should be calculated, the object is to secure as correct a Return as possible of the *scale of Receipts and Expenditure of the year.* Every head of receipt must be examined with reference to the known expectations of Government, the sums given in the Rent Rolls and the average receipts on account of former years must be looked to, the circumstances likely to lead to an increase or decrease of these receipts must be carefully weighed, and as accurate a calculation as possible of the eventual out-turn must then be made. In estimating the expenditure again, the sum [illegible] which sanction has actually been [illegible] Government should, in the first in[illegible] ascertained; the probable amount [illegible] saved by temporary vacancies in [illegible] absence or other causes [illegible] the total amo[illegible]

these calculations the sums are added, which, though not already sanctioned by Government, it is certain must be sanctioned in the course of the year, the *scale of the year* will, in the opinion of His Excellency the Governor General in Council, be as accurately estimated as it is possible to be.

6. These Rules are accordingly prescribed for the guidance of the Military Department.

I have, &c.,

No. 3851A.

*Camp Kylar, the* 18*th December* 1861.

With a view to facilitate the operation of the *Banking System* lately introduced into the Public Works Department in these Provinces, and to ensure uniformity, the following Rules are published for observance by Officers of the Public Works Department.

2. These Rules which have been modified from those in force in the Commissariat Department, as published at pages 1337-1341 of the *Allahabad Gazette* of 1861, will have effect from the 1st May next :—

*Rules.*

1. Cheques will be drawn as required by Executive Officers upon the Officer in charge of the Civil Treasury against the amount of credit assigned to them, respectively, by the Chief Engineer in each month. The Rules hitherto existing in regard to not exceeding, without special sanction, the amount of the letter of credit issued in any one month will continue to hold good.

2. No cheques shall be issued after the hour fixed by the Rules of the several Treasuries for closing payments. The daily letters of advice duly filled up should accompany the last cheque drawn, or be despatched to the Treasury before the hour for closing.

3. The accompanying forms of cheque and daily letters of advice are circulated, in order that Executive Officers may have a sufficient number

of each lithographed or printed for use. No deviation from these forms is to be permitted without the sanction of the Chief Engineer.

4. All payments requiring to be made by an Executive Officer in excess of Rupees 25 shall be made by cheques.

5. Large sums, which it is necessary for the Executive Officer to disburse under his immediate supervision, such as the Pay of Establishments, shall be drawn daily, as required, by cheques.

6. With the exception of the small sum that may be necessary to meet petty demands on an Executive Officer, no Cash shall be drawn beyond the amount to be paid away on each day.

7. If an Executive Officer finds it necessary to retain cash in hand for petty demands under Rupees 25 he can do so, but must make his own arrangements for the safe custody of such cash. It is not advisable, however, that a larger sum than Rupees 500 should be thus retained in hand at any one time.

8. Each Executive Officer shall transmit daily to the Treasury on which he draws, a letter of advice showing all the cheques issued during the day.

9. Executive Officers will furnish Treasury Officers with a consolidated receipt in duplicate at the close of the month for the aggregate amount of cheques drawn during the month, whether paid or not, against each letter of credit. The original receipts should be forwarded by Treasury Officers with their Cash Accounts as vouchers, the duplicate receipts and the cheques being retained for record.

10. It is not intended that these Rules shall affect arrangements already made by any Executive Officers with Banks, nor that at Stations where there are no Civil Treasuries they shall take effect until Branch Treasuries may be established.

## Notice.

Pleadership Examination.

In answer to numerous enquiries on the subject, the Sudder Court notify for general information—

*1st.*—That the Entrance fees payable by Candidates at the Pleadership Examination to be held at the Town Hall, Calcutta, on Monday, the 27th January 1862, *must be paid by the Candidates on presenting themselves for Examination.*

*2nd.*—That no separate papers of questions will be prepared for the lower grade Examination on this occasion, but Candidates, who obtain three-fifths out of the full number of marks, for their answers, will be entitled to diplomas of the second grade. Candidates for the second grade will only have to pay the Entrance fee of that grade, *viz.*, Rupees 10.

*3rd.*—That the Text Books have *not* yet been translated into any vernacular language, and there will consequently be very little use in Candidates who are not *good* English Scholars attempting even the lower standard Examination.

By Order of the Sudder Court,

H. Ulick Browne,
*Register.*

Calcutta,
*The 16th December* 1861.

Under the Orders of Government, Tenders will be received at this Office, until sunset on the 28th of February 1862, for the translation of the following Works into Hindoostanee and Bengalee, respectively, on the conditions specified below:—

1. Mayne's *Commentaries on the Penal Code.
2. Norton on Evidence.
3. Macpherson on Mortgages.
4. A New Work on Contracts by the same Author.
5. Elberling on Inheritance.
6. Second and Third Books of Broome.
7. Kent's Commentaries, Chapters 39, 40, 41, 43, and 44.

The Translator must make his own arrangements with the Authors of the Works as regards copyright or right of translation if any such arrangements are in any case necessary, and the responsibility on this point must entirely rest with the Translator.

As there is reason to believe that good translations of the abovementioned Works will meet with an extensive sale among Candidates for Pleaderships and Moonsiffships, the Sudder Court will not engage to take any copies of the translations, but are prepared to give a reasonable sum of money in order to secure the translations being made by the dates hereinafter specified. The Tenders must therefore simply state the sum for which the applicant is willing to translate, *print*, and have ready for sale at least 300 copies. The Tenders must be drawn out in the form given in the margin.

I (name) of residence do hereby tender for the translations of the undermentioned Works on the terms specified below, and on the conditions advertised by the Register of the Sudder Court under date the

The Works shall be translated, printed, and ready for sale by the 1st September 1862, otherwise, I agree to forfeit the remuneration specified below:—

| Name of Work. | | Language | Amount of remuneration required for translation. |
|---|---|---|---|
| | | | Rs. As. P. |
| (Examples of the manner in which the form should be filled up.) | Norton on Evidence. | Hindoostanee | 0 0 0 |
| | Ditto .. | Bengalee | 0 0 0 |

Signature of Applicant.

A Translator may Tender either for one language or for both, and for one Work or more, as he pleases.

The right of rejecting any Tender, whether it be the lowest or not, is reserved, and none need apply who cannot give satisfactory proof of their competency to undertake the work.

*Of the abovementioned Works,*

1. Mayne on Criminal Law,
2. Norton on Evidence, are most needed at present, and Tenders for their translation are most likely to be first accepted

H. Ulick Browne,
*Register.*

* The translation of *all* the Commentaries is not necessary, particulars can be ascertained at the Register's Office.

No. 29.

## Commissariat Notice.

THE undersigned invites sealed Tenders to be received at his Office, No. 6, Park Street, up to 2 o'clock P M of the 11th January 1862, and opened at noon, on the day following, in the presence of attending parties for the supply of Coal (equal in quality to that known as the best Burdwan Coal) at the undermentioned Stations, for Government River Steamers, for one year, from the 1st February next.

Separate Tenders may be submitted for all the Coal required in one or two Divisions, or all may be included in one Tender, the undersigned being at liberty to accept offers in part only, provided such acceptance comprises the total supply for any one or more Divisions.

Security, to the extent of 10 per cent., upon the Contract value of the Coals offered, should accompany each Tender, which will be returned when the Tenders are opened to all but successful competitors.

Form of Tender, comprising all stipulations and particulars, is obtainable at the Office of the undersigned, and none other will be received.

The under-written Schedule is an estimate of the Coal required, but the undersigned does not bind himself to take the exact quantities noted therein.

FORT WILLIAM, THE 3RD JANUARY 1862.

WHEREAS it is declared by the Ordinance passed by the Governor General of India on the 27th of December 1861, that until the Governor General in Council shall otherwise order, it shall not be lawful for any person to export Saltpetre from any part of Her Majesty's Territories in India, except in a British Vessel bound either to the Port of London or to the Port of Liverpool, and whereas it appears from the instructions since received from Her Majesty's Government that the prohibition to export Saltpetre from India so far as regards British Vessels is to apply only to such Vessels when bound to Ports not within the United Kingdom, the Governor General in Council is pleased to order accordingly that it shall be lawful to export Saltpetre on British Vessels bound to any Port of the United Kingdom anything in the said Ordinance notwithstanding.

By Order of the Governor General in Council,

W. GREY,
*Secretary to the Government of India.*

## LEGISLATIVE.

THE 3RD JANUARY 1862.

THE following Ordinance, passed by the Governor General of India on this date, is promulgated for general information :—

AN ORDINANCE *to prohibit the exportation of Saltpetre, except in British Vessels bound to the United Kingdom, passed by the Governor General of India, under the provisions of* 24 *and* 25 *Vic., cap.* 67, *on the 3rd of January* 1862.

WHEREAS in a Despatch from the Secretary of State for India, dated the 3rd of December 1861, the instructions of Her Majesty's Government have been received by the Governor General in Council to take immediate measures for preventing the exportation of Saltpetre from India, except

in British Vessels bound for the Ports of the United Kingdom, and to cause any Saltpetre which previously to the receipt and contrary to the conditions of the said instructions may have been placed on board Vessels still in Port to be re-landed; and whereas in consequence of the said instructions the Governor General in Council has this day ordered that it shall be lawful to export Saltpetre on British Vessels bound to any Port of the United Kingdom, anything in the Ordinance of the Governor General of the 27th of December 1861 notwithstanding; and whereas it is expedient to make further provision for giving effect to the instructions now received from Her Majesty's Government; It is therefore ordered as follows:—

I. Until the Governor General in Council shall otherwise order, it shall not be lawful to export Saltpetre from any part of Her Majesty's Territories in India, except in a British Vessel bound Port of the United Kingdom.

II All Saltpetre which previously to the promulgation of this Ordinance may have been p for exportation on any Vessel still being within a Port of Her Majesty's Territories in India, and being a British Vessel bound for a Port of the United Kingdom, shall be re-landed.

III. No Collector of Customs or other Officer shall grant a port clearance to any Vessel ing on board Saltpetre, other than a British Vessel bound for the United Kingdom.

IV. If any person shall attempt to export Saltpetre contrary to the provisions of this Ordir the same shall be seized and confiscated.

V. Any Custom House Officer may without warrant seize Saltpetre liable to confiscation this Ordinance.

## FINANCIAL DEPARTMENT.

No. 1.

*Fort William, the 3rd January* 1862.

*Notification.*—Notice is hereby given, that the Treasury of the Secretary of State for India in Council, and of Her Majesty's Indian Government at Calcutta, shall, from and after the first day of March 1862, be established at the Bank of Bengal. All payments to be made by or to the Secretary of State in Council, or to the Government of India, or the Government of Bengal at the Treasury of the East India Company, or of the Secretary of State in Council, or of the Government at Fort William, shall and may from and after the abovementioned date be made at the said Bank of Bengal.

The issue of Government Promissory Notes provided for by Act XIX. of 1861, shall take effect from and after the aforesaid date.

The terms on which the business of the General Treasury and the Government Paper Currency shall be conducted by the Bank of Bengal, are contained in the following:—

### AGREEMENT WITH THE BANK OF BENGAL.

Memorandum of Agreement made and entered into this twenty-sixth day of September in the year of our Lord one thousand eight hundred and sixty-one, between the Secretary of State in Council for India of the one part and the Bank of Bengal of the other part.

Whereas the Governor General of India in Council, under and by virtue of the provisions of Act VI. of 1839 of the Legislative Council of India, on the eleventh of February one thousand eight hundred and sixty-one, gave notice, in writing, to the Bank of Bengal, that from and after the expiration of twelve calendar months from the date of the said notice, the Bank of Bengal and its then powers and authorities would be modified, and by Act XIX. of 1861 the powers and authorities of the said Bank have been accordingly modified, as by that Act appears: And whereas at the time when the said notice was so given negotiations and arrangements were pending between the Governor General of India in Council (acting in the premises on behalf of the said Secretary of State) and the Directors of the Bank of Bengal, having for their object the transfer to the said Bank of the business of the Government Treasuries at Fort William and elsewhere in the Presidency of Fort William and the Provinces annexed thereto, and the superintendence and management by the said Bank, for the Government of India, of the issue of the then proposed Government Paper Currency: And whereas the general terms of the said proposed arrangement have now been finally settled and agreed upon between the Governor General in Council and the Directors of the said Bank, and by the said Act of 1861 the said Bank have been empowered to enter into an Agreement in that behalf with the said Secretary of State in Council: And whereas by Act XIX. of 1861 of the Legislative Council of India provision has been made for the issue by the Government of India of Promissory Notes payable to bearer, on demand. Now this Indenture witnesseth, that for the purpose of carrying out the said arrangement, and in consideration of the payments and covenants hereinafter respectively mentioned and contained, and by, and on the part of, the said parties to these Presents, respectively, to be paid and performed, each of them, the said Secretary of State in Council and the said Bank of Bengal doth and do hereby for himself and themselves, and his and their respective successors, covenant and agree with the other of them and their and his respective successors in manner following (that is to say):—

*First.*—From and after the day to be appointed by the notification mentioned in the 20th paragraph of these Presents, the business of receiving

and paying money on behalf of the Supreme Government of India and the Government of Bengal, heretofore transacted at the General Treasury at Fort William, shall be carried on and transacted by the Bank of Bengal, subject to the provisions of this Agreement, and to such orders and directions with regard to receipts and payments as may, from time to time, be given to the said Bank by the Governor General in Council or any of the Officers of the Government of India authorized in that behalf, and for the purpose aforesaid, such account or accounts shall be opened in their books by the said Bank with the Government of India and Government of Bengal, as the said Government of India shall, from time to time, direct.

*Second.*—The Cash Balance now in the General Treasury shall, from and after the day appointed by the notification aforesaid, be deposited with the Bank of Bengal, who shall also hereafter receive and hold for the said Government of India and Government of Bengal, respectively, all moneys and balances which, but for these presents, would have been received or held by the said General Treasury, and the Bank shall transact, at their principal Office in Calcutta, all such business for the Government of India and Government of Bengal, respectively, regarding the receipt, collection, payment, and remittance of money and securities and other matters, as is usually transacted by bankers for their customers.

*Third.*—That from and after the day appointed by the notification aforesaid, the said Secretary of State in Council shall pay to the Bank the actual costs and expenses of packing and shipping specie remitted under the preceding clause, and for which costs and expenses Contingent Bills shall, from time to time, be submitted to the Civil Pay-Master, Fort William, for the time being, and be passed by him, on approval, and the said Secretary of State in Council shall, from and after the last-mentioned day, further pay or cause to be paid to the said Bank the yearly sum of Rupees forty-three thousand, six hundred and six in full of all costs and expenses attendant on the maintenance by the said Bank of the establishment of clerks and servants necessary for the carrying on of the said Government Banking account and business, and the Bank shall not charge any interest or commission on the said account, except under such arrangement as in the next following clause mentioned.

*Fourth.*—That so long as the average cash balance for any month in the hands of the said Bank on the said Government Banking account shall not exceed seventy lacs of Rupees, the said Bank shall be at liberty to use and employ such balance, subject to the provisions of their present Charter Act, or any future Act relating to the said Bank and to appropriate the profits arising from such employment, without being charged with any interest in account: And that when and so often as the monthly average of such cash balance shall exceed seventy lacs of Rupees, the Directors of the said Bank, for the time being, shall forthwith either set aside such excess or surplus in cash to be kept in reserve in a separate cash room or place of deposit on account of the said Government of India, or shall at the option of the Directors of the Bank invest such excess or surplus on account of the Government of India, either in the purchase of Government Securities, or Railway Debentures guaranteed by Government, in the name of the Accountant-General, or of such other Officers as the Government of India shall, from time to time, direct, or in the discount of Government acceptances or other claims against the Government, and so that such surplus shall be withdrawn from employment as part of the general funds of the Bank, and so on from time to time as often as an uninvested surplus cash balance above Rupees seventy lacs shall, on the taking of the monthly average, appear to be in the hands of the Bank. And the said Bank shall at all times be answerable and accountable to the Government of India for the surplus cash balance for the time being so set apart or invested, but shall be entitled to draw and apply the interest or dividends arising from such investment, from time to time, to their own use. But when and so often as the cash balance in the hands of the said Bank shall, on the taking of the monthly average, appear to have been less than Rupees fifty lacs, then, in addition to the profit which the said Bank may acquire by the employment of such balance, free from interest as aforesaid, an additional allowance or remuneration by way of compensation shall be made to the Bank by the payment by Government of interest on the difference between the amount of the actual balance of Government and the sum of fifty lacs, the interest being calculated at the average rate of interest paid by the public on fixed loans during the month.

*Fifth.*—That the books of account, and minutes of proceedings of the Bank relating as well to the said Government banking account and business as to the general accounts and business of the Bank, shall, from time to time, and not less than once, and not exceeding four times, in any one year, be submitted to the examination and audit of an Officer or Officers to be, from time to time, appointed or authorized by the Governor General in Council for that purpose, and the report of such Officer or Officers as to the state of the banking account between the Government of India and the Bank, or as to the cash balances invested or uninvested for the time being in the hands of the Bank, or as to any proceeding relating to the said banking account or business shall first be laid before the Directors of the Bank to enable them to furnish any explanation or further information touching any of the matters referred to in the report, and such report, together with the explanation, shall then be submitted to the Governor General in Council whose order, decision, or finding on such report shall be binding and conclusive on the Bank.

*Sixth.*—That from and after the day appointed in the notification aforesaid, an agency of Issue shall be established at the principal Office of the Bank of Bengal as the Agency for the Circle of Issue (of Calcutta) under Act XIX. of 1861, and that the said Bank shall and will act as Agents for the said Secretary of State in Council and the Government of India, in and for the issue to the public at Fort William, and the circulation of the Government Currency Notes established by the said Act, and in the payment and cashing of such Notes, and in all things required to be done by such Agents or at such Agency, under or by virtue of the said Act.

*Seventh.*—That all demands for the issue of Government Currency Notes that shall be made in the Circle of Issue of Calcutta, under the 9th Section of the said Act XIX. of 1861, may be

made at the said Agency at the principal Office of the Bank of Bengal at Calcutta: and that the said Bank shall and will, from time to time, issue and deliver from and at such Agency, such amount of the said Government Currency Notes as may be duly demanded or applied for at the said Agency, by any person or persons, or body or bodies corporate, desiring and entitled to have the same issued under the provisions of the said Act; and shall and will for that purpose, from time to time, apply to the Head Commissioner of the Department of Issue, established under the said Act, for such Government Currency Notes of such denominations as shall be necessary to enable the said Bank to make such issue and delivery.

*Eighth.*—That whenever the said Bank shall issue and deliver at and from such Agency any Government Currency Notes under the 2nd Clause of the said 9th Section of the said Act, in exchange for standard silver bullion, or foreign silver coin, or under the proviso in the said Section, in exchange for foreign gold coin or gold bullion, the said Bank shall and will, before such issue and delivery, require the production by the person tendering such coin or bullion of a certificate signed by the Master of the Calcutta Mint that such coin or bullion has been weighed and assayed and has been deposited in the Mint to the full amount in value of the Notes so to be issued, or shall otherwise satisfy themselves that such bullion or coin to the amount in value of the Notes so to be issued at the rates authorized in the said clause and proviso, respectively, has been deposited with the said Department of Issue to the satisfaction of the said Head Commissioner, according to such mode as shall, from time to time, be directed, with the sanction of the Government of India, by the said Head Commissioner.

*Ninth.*—That whenever the said Bank shall issue and deliver at and from such Agency any Government Currency Notes under the 1st or 3rd Clause of the 9th Section of the said Act XIX. of 1861, in exchange for current silver coin of the Government of India, or for other Currency Notes of the Government of India, payable to bearer on demand, of other amounts issued within the said Circle, or under the proviso in the said Section, in exchange for gold coin of full weight of the Government of India, the said Bank shall carry the amount of the said current silver coin or notes, or gold coin of the Government of India, received by it in exchange for the notes so issued, to the credit of the Issue Department of the said Government in such account as the said Head Commissioner, with the sanction of the Government of India, shall, from time to time, direct for that purpose.

*Tenth.*—That the said Bank shall not issue or deliver any of the Government Currency Notes provided and supplied to it by the said Head Commissioner for the purpose of being issued under the said Act, except to such person or persons, or body or bodies corporate as shall be entitled to demand the same according to the provisions of the said Act and shall have complied with the conditions of the 9th Section thereof, or otherwise than according to the provisions of the said Act.

*Eleventh.*—That the said Bank shall and will, during the continuance of these Presents, pay and satisfy on demand to the holders, the amount of all Government Currency Notes duly issued according to the provisions of the said Act XIX. of 1861, either in Calcutta, or in any other Circle of Issue within the Presidency of Fort William in Bengal, which shall be presented for payment or conversion into cash at the principal Office of the Bank in Calcutta.

*Twelfth.*—That a settlement shall take place at least twice in every week, and if required by the Bank or by the Head Commissioner of the Issue Department, daily at the Office of the Bank in Calcutta, between the Bank and the said Department of Issue, in respect of the notes issued, the bullion or coin, and notes in exchange for which the same have been issued, and the notes cashed or converted, under these Presents or the said Act by the Bank, and the difference in Government Currency Notes or in cash and bullion (as the case may be) shall on such settlement be adjusted, transferred, and paid.

*Thirteenth.*—That so much of the business of the said Issue Department as shall, from time to time, be carried on at the Bank's Office, shall be under the direct control and inspection of the Head Commissioner of the said Department of Issue.

*Fourteenth.*—That the Bank shall, if required by the Officer in charge of the Government Issue Department so to do, provide and keep a separate strong room or strong box for the reception and safe keeping of all Currency Notes, coin, and bullion belonging to the said Issue Department, and such room or box shall be under the separate control of the said Issue Department, and its contents shall always be kept separate from the Bank funds and property, and shall be at the exclusive risk of the Government of India, except in case of loss through the neglect, default, or misconduct of the Bank or any of its Officers or servants.

*Fifteenth.*—That the Bank shall at any time during the continuance of this Agreement, when, and if, required by the Governor General in Council, but not otherwise, provide a sufficient and convenient office for the Department of Issue at Calcutta, and for the Head Commissioner of the said office, upon the permises of the said Bank in Calcutta, at which office the said Head Commissioner shall and may conduct the whole, or any such part, of the business of issue of the said Department of Issue as the Governor General of India in Council may, from time to time, direct, and that the Bank shall and will provide the necessary accommodation and establishment of clerks and servants for carrying out the current duties of the said Office.

*Sixteenth.*—That the whole reponsibility for loss or damage that may be occasioned by, or arise in respect of, the theft or loss of any Government Currency Notes made under the said Act XIX. of 1861, from and after the time of the said Currency Notes being delivered from the said Department of Issue, to and at the said Bank for issue, or to any servant or Agent of the said Bank for delivery to the said Bank for issue, and the whole responsibility for any loss or damage that may be occasioned in respect of the wrongful payment, exchange, or satisfaction, through mistake, or otherwise, at or by the said Bank of any Government Currency Notes, which ought not to be paid, exchanged or satisfied, or of any forged or spurious Notes purporting to be Government Currency Notes, or in respect of the forgery or alteration of any Government Currency Notes, or in respect of

any error or mistake committed by the said Bank or by any of its Officers or Agents in conducting the Agency aforesaid, although the same shall have been conducted under the control and inspection of the said Head Commissioner of the Issue Department, shall, as between the said Secretary of State for India in Council and the said Bank, rest solely and entirely with, and shall be borne by, the said Bank, who shall have no claim upon the said Secretary of State in Council for compensation or indemnity for and in respect of any such loss.

*Seventeenth.*—That as and by way of remuneration to the Bank for their conducting as aforesaid, the said Agency for the issue of the Government Paper Currency and for cashing and converting such Notes after issue, the Bank shall be entitled to charge the said Secretary of State in Council with a commission, calculated at the rate of three-fourths per cent. per annum on the daily average amount of Government Currency Notes outstanding and in circulation through the said Agency of the Bank at Calcutta, and which commission may be debited to the said Secretary of State in Council in the said Banking account between the Government of India and the Bank, the amount of such cost to be established (if required) to the satisfaction of the Officer for the time being in charge of the said Issue Department.

*Eighteenth.*—That in case a separate office shall be provided by the said Bank for the said Head Commissioner of Issue, upon the requisition of the Governor General in Council, under the 14th Clause of these Presents, the Bank shall also be paid by the said Secretary of State in Council the cost of providing such separate office and of any especial establishment that may be provided for, and any special expense incurred by the Bank in respect of the same.

*Nineteenth.*—That if at any time during the continuance of this Agreement, the said Bank shall establish a Branch Office at any town or place other than Calcutta, and the Governor General of India in Council shall offer to the Directors of the said Bank for the time being, and the said Directors shall on behalf of the Bank accept the business of Bankers to the Government of India for the District or locality within which such Branch shall be established, or the business of issuing and circulating the Government Paper Currency within such District or locality, then, and in every such case, the business so arranged to be taken up and performed by the said Bank shall be carried on under and subject to the provisions of this Agreement and on the basis of the clauses cited in the margin, being the 3rd and 5th paragraphs of the Government Memorandum of the 20th of March 1861, relating to the establishment of such Branch Bank, except in so far as the provision of this Agreement or of the said clauses may be modified or altered by any special Agreement which the said Secretary of State in Council, through the Governor General of India in Council, may, from time to time, enter into with the said Bank in reference to the business so to be carried on at the particular Branch Bank.

3. As regards the establishment of Branch Banks, the Government will in each Presidency prefer dealing with the Presidency Banks when the ground is unoccupied. But when other Banks have been established before the Presidency Bank thinks fit to establish a Branch, the Government considers that they will have a preferable claim on equal terms, and finding proper security.

5. If it be clear that the interest on the average cash balance at such place is not enough to make a fair contribution towards the expenses of the Branch Bank, the Government will give such fixed annual payment as may be agreed upon in each case, not exceeding the saving of cost to the Government at such place by the Bank taking its business.

*Twentieth.*—That this Agreement and the powers and authorities herein contained, and the covenants hereby entered into, shall come into operation from and after a day to be fixed by the Governor General in Council by notification, in that behalf, which shall be published in the *Calcutta Government Gazette* within six calendar months from the date hereof and continue for the term of five years from this date, at the expiration of which time the same shall and may, by notice in writing from the Governor General in Council to the Directors of the said Bank for the time being, be renewed, with or without any modifications, as may be agreed on between the Governor General in Council and the said Directors.

The Mint Master at Calcutta, or the person officiating in that capacity for the time being, shall be the Head Commissioner of the Department of Issue.

The Calcutta Circle of Issue within which the Government Notes will become a legal tender, shall embrace all the Districts subject to the control of the Government of Bengal, (except the Districts noted in the margin), and shall include also the Districts of Ghazeepore, Mirzapore, and Benares, belonging to the North-Western Provinces.

Balasore, Cuttack, Pooree, and Sumbulpore, in the *Cuttack Division*.
Cossyah and Jynteah Hills, Durrung, Goalpara, Kamroop, Lukimpore, Nowgong, and Seebsaugor, in the *Assam Division*.
Tipperah, Bullooah, and Chittagong, in the *Chittagong Division*.
Akyab, Ramree, and Sandoway, in the *Arracan Division*.
Hazareebaugh, Lohardugga, Manbhoom, and Singhbhoom, in the *Chota Nagpore Division*.
Darjeeling.
Cachar.
Sylhet.
Southal Pergunnahs.

The Bank of Bengal is prepared at once to establish Branches at *Benares*, *Mirzapore*, *Patna*, and *Dacca*.

Any persons who prefer applying at the Mint for Notes in exchange for coin or bullion may apply there instead of at the Office or Agency at the Bank, provided they apply for not less than Rupees 2,000 at a time. They will in such case receive the Notes at the Office of the Head Commissioner at the Bank one clear working day after their applications.

The Notes will be taken and paid at all the Treasuries comprised in the Circle of Issue mentioned above.

By Order of His Excellency the Governor General in Council,

C. HUGH LUSHINGTON,
*Secy. to the Govt. of India.*

5. Lieutenant A. M'Neill, of the Engineers, has been permitted to resign the Service from the 30th September 1861.

6. Lieutenant C. S. Lane, 56th Native Infantry, has been permitted to pass the remainder of his leave of absence in New Zealand, and to return direct from that country to India.

7. Captain M. C. Sankey, of the Artillery, has brought to my notice that the time he passed at Addiscombe, which is allowed to count as service for retirement (as published in Bengal General Order of 27th May 1848), has been erroneously calculated. It appears, on reference to the records, that Captain Sankey is entitled to count one year, ten months, and two days, instead of one year, one month, and five days, which he is allowed in the abovenamed General Order.

## Notice.

Pleadership Examination.

In answer to numerous enquiries on the subject, the Sudder Court notify for general information—

*1st.*—That the Entrance fees payable by Candidates at the Pleadership Examination to be held at the Town Hall, Calcutta, on Monday, the 27th January 1862, *must be paid by the Candidates on presenting themselves for Examination.*

*2nd.*—That no separate papers of questions will be prepared for the lower grade Examination on this occasion, but Candidates, who obtain three-fifths out of the full number of marks, for their answers, will be entitled to diplomas of the second grade. Candidates for the second grade will only have to pay the Entrance fee of that grade, *viz.*, Rupees 10.

*3rd.*—That the Text Books have *not* yet been translated into any vernacular language, and there will consequently be very little use in Candidates who are not *good* English Scholars attempting even the lower standard Examination.

By Order of the Sudder Court,

H. Ulick Browne,
*Register.*

Calcutta,
*The 16th December* 1861.

Under the Orders of Government, Tenders will be received at this Office, until sunset on the 28th of February 1862, for the translation of the following Works into Hindoostanee and Bengalee, respectively, on the conditions specified below:—

1. Mayne's *Commentaries on the Penal Code.
2. Norton on Evidence.
3. Macpherson on Mortgages.
4. A New Work on Contracts by the same Author.
5. Elberling on Inheritance.
6. Second and Third Books of Broome.
7. Kent's Commentaries, Chapters 39, 40, 41, 43, and 44.

The Translator must make his own arrangements with the Authors of the Works as regards copyright or right of translation if any such arrangements are in any case necessary, and the responsibility on this point must entirely rest with the Translator.

As there is reason to believe that good translations of the abovementioned Works will meet with an extensive sale among Candidates for Pleaderships and Moonsiffships, the Sudder Court will not engage to take any copies of the translations, but are prepared to give a reasonable sum of money in order to secure the translations being made by the dates hereinafter specified. The Tenders must therefore simply state the sum for which the applicant is willing to translate, *print*, and have ready for sale at least 300 copies. The Tenders must be drawn out in the form given in the margin.

I (name) of residence do hereby tender for the translations of the undermentioned Works on the terms specified below, and on the conditions advertised by the Register of the Sudder Court under date the

The Works shall be translated, printed, and ready for sale by the 1st September 1862, otherwise, I agree to forfeit the remuneration specified below:—

| Name of Work. | | Language | Amount of remuneration required for translation. | | |
|---|---|---|---|---|---|
| | | | Rs. | As. | P. |
| (Examples of the manner in which the form should be filled up) | Norton on Evidence | Hindoostanee | 0 | 0 | 0 |
| | Ditto .. | Bengalee | 0 | 0 | 0 |

Dated

Signature of Applicant.

A Translator may tender either for one language or for both, and for one Work or more, as he pleases.

The right of rejecting any Tender, whether it be the lowest or not, is reserved, and none need apply who cannot give satisfactory proof of their competency to undertake the work.

*Of the abovementioned Works,*

1. Mayne on Criminal Law,
2. Norton on Evidence, are most needed at present, and Tenders for their translation are most likely to be first accepted.

H. Ulick Browne,
*Register.*

* The translation of *all* the Commentaries is not necessary, particulars can be ascertained at the Register's Office.

## Agricultural and Horticultural Society of India.

PRIZE

FOR ESSAY ON COTTON CULTURE.

## Notification, No. 25.

Mr. H. Davies, Uncovenanted Deputy Collector, Monghyr, has been authorized to draw Bills on other Treasuries.

Moung Shooay Doh, Third Class Assistant Commissioner, received charge of the Martaban Treasury on the 9th ultimo.

W. Waterfield,
*Offg. Dy. Audr. and Accts.-Genl., Bengal.*

Fort William,
*The 7th January* 1862.

## Notification.

Whereas it has come to the knowledge of the Government that the fees now prescribed by Section 59 and Schedule B. of Act XI of 1859 for the registration of Talooks, under-tenures, and Farms, under Sections 40, 43, and 44 of that Act, are so high as to deter the proprietors of small tenures from registering them, it is hereby notified that the rate will be reduced. Hitherto the fee for registering all under-tenures and farms of which the jumma does not exceed Rupees 500 has been Rupees 25, but from this date persons applying for registry of such tenures and farms will only have to pay a fee calculated at 5 per cent on the jumma of the under-tenure or farm.

2. By paying this fee, Talookdars and Farmers can have their under-tenures and farms registered so as to secure them in case of the Estate being sold for arrears of revenue; those who wish for registry should make applications to the Collector under Sections 40, 41, and 44 of the Act.

3. The same Act, Sections 10 and 11, gives to the Joint Shareholders in an Estate an opportunity of having a separate account opened by the Collector for the Sudder Jumma of their Estates. Any person for whose share such a separate account has been opened will no longer be in danger of having his share sold by auction in consequence of the default of any of his co-parcener, unless the sale proceeds of the share in arrears be insufficient to cover the amount of the balance due to Government.

H. L. Dampier,
*Secretary.*

Board of Revenue, L. P.;

## Notice.

Pleadership Examination.

In answer to numerous enquiries on the subject, the Sudder Court notify for general information—

1*st*.—That the Entrance fees payable by Candidates at the Pleadership Examination to be held at the Town Hall, Calcutta, on Monday, the 27th January 1862, *must be paid by the Candidates on presenting themselves for Examination*.

2*nd*.—That no separate papers of questions will be prepared for the lower grade Examination on this occasion, but Candidates, who obtain three-fifths out of the full number of marks, for their answers, will be entitled to diplomas of the second grade. Candidates for the second grade will only have to pay the Entrance fee of that grade, *viz*., Rupees 10.

3*rd*.—That the Text Books have *not* yet been translated into any vernacular language, and there will consequently be very little use in Candidates who are not *good* English Scholars attempting even the lower standard Examination.

By Order of the Sudder Court,

H. Ulick Browne,
*Register.*

Calcutta,
*The 16th December* 1861.

Under the Orders of Government, Tenders will be received at this Office, until sunset on the 28th of February 1862, for the translation of the following Works into Hindoostanee and Bengalee, respectively, on the conditions specified below :—

1. Mayne's *Commentaries on the Penal Code.
2. Norton on Evidence.
3. Macpherson on Mortgages.
4. A New Work on Contracts by the same Author.
5. Elberling on Inheritance.
6. Second and Third Books of Broome.
7. Kent's Commentaries, Chapters 39, 40, 41, 43, and 44.

The Translator must make his own arrangements with the Authors of the Works as regards copyright or right of translation if any such arrangements are in any case necessary, and the responsibility on this point must entirely rest with the Translator.

As there is reason to believe that good translations of the abovementioned Works will meet with an extensive sale among Candidates for Pleaderships and Moonsiffships, the Sudder Court will not engage to take any copies of the translations, but are prepared to give a reasonable sum of money in order to secure the translations being made by the dates hereinafter specified. The Tenders must therefore simply state the sum for which the applicant is willing to translate, *print*, and have ready for sale at least 300 copies. The Tenders must be drawn out in the form given in the margin.

I (name) of residence do hereby tender for the translations of the undermentioned Works on the terms specified below, and on the conditions advertised by the Register of the Sudder Court under date the

The Works shall be translated, printed, and ready for sale by the 1st September 1862, otherwise, I agree to forfeit the remuneration specified below :—

| Name of Work. | | Language. | Amount of remuneration required for translation. |
|---|---|---|---|
| (Examples of the manner in which the form should be filled up.) | Norton on Evidence ... | Hindoostanee ... | Rs. As. P.<br>0 0 0 |
| | Ditto ... | Bengalee ... | 0 0 0 |

Signature of Applicant.

A Translator may tender either for one language or for both, and for one Work or more, as he pleases.

The right of rejecting any Tender, whether it be the lowest or not, is reserved, and none need apply who cannot give satisfactory proof of their competency to undertake the work.

*Of the abovementioned Works,*

1. Mayne on Criminal Law,
2. Norton on Evidence, are most needed at present, and Tenders for their translation are most likely to be first accepted.

H. Ulick Browne,
*Register.*

* The translation of *all* the Commentaries is not necessary, particulars can be ascertained at the Register's Office.

# REPORT BY THE DIRECTORS

OF

# THE BANK OF BENGAL.

The Directors have the pleasure of laying before the Shareholders the result of the Bank's operations for the half year ending 31st December.

At the date of last Report the aggregate amount of advances to the Public stood at Rupees 1,84,70,698, and the leading rates of interest at 7 and 6 per cent respectively. As the Loans continued steadily to decline throughout July, the Directors early in the following month, reduced the rates one per cent all round, but owing to the continued dulness in trade, conjoined with an active competition by other Banking Establishments, as well as by Mercantile Houses who found it difficult to employ their Capital in the ordinary channels of business, the reduction had no marked effect in arresting the downward tendency of the advances. In the absence of a legitimate demand for accommodation the Directors deemed it expedient and more advantageous for the interests of the Bank to delay making any further reduction in the rates, until towards the end of October, when several important modifications in the classification of advances, and in the incidence of discount and loan charges were adopted. The rates were then further reduced to 3½ and 4 per cent for loans, and to 4½ and 5 per cent for short dated Bills. The Directors entertained the hope that the low scale of rates would stimulate the healthy action of trade which usually developes itself towards the close of the year. So great, however, was the continued prostration of business, and so sluggish the general tone of commercial enterprise, that these unusually low rates of interest had very little effect beyond putting a stop to the diminution in the amount of the advances. The slight accession of business which accrued did not compensate for the large reduction in rates.

The year closes with a cash balance of Rupees 2,21,85,058, and of advances to the Public amounting to Rupees 1,47,28,243.

The rates of interest imposed in October remain unaltered.

Although the Directors were well aware of the risk attending the investment of the Bank's unemployed funds to a large extent in Government Securities and of the difficulty of realization in a limited market like Calcutta, in the event of being obliged to meet the sudden and heavy demands which in former years were generally the characteristics of a stringent money market, still, entertaining the belief that the improved position of Indian Finance would impart stability to all descriptions of Government Loans, and in the near prospect of the contemplated arrangements between Government and the Bank being brought to a satisfactory termination, the Directors deemed it prudent to take advantage of the comparatively low prices which prevailed in the earlier months of the past half year, and gradually to increase the Bank's holding in the public debt. In this manner the amount of direct investments in Government Loans has been raised to fifty-six lacs.

Nor were the Directors disappointed in their expectations regarding the steady improvement and the growing confidence of the Public in the soundness of Government Securities. The various Stocks steadily rose in value until the 5 per cents touched par and the 5½ per cents 6¾ premium. The intelligence received a few days ago of the threatened rupture with America has however unsettled the market and had a depressing effect on the value of Securities. The Directors are not aware of sales to any appreciable amount having since been effected by *bonâ fide* holders of the 5 and 5½ per cent. They have, however, resolved to follow the course hitherto adopted by the Bank, and have valued the Bank's investments, which are almost wholly held in the 5½ per cents, at the reduced market quotations of the day. The increased value over the average purchase price arising in this manner they have carried to the credit of the Reserved Fund and have transferred from it to the credit of Profit and Loss, a sum sufficient, with the ordinary earnings of the half-year, to enable the Directors to declare a Dividend of Rupees 9-1-0 per cent per annum, free of Income Tax.

For full particulars connected with the Receipts and Disbursements, the Directors beg to refer the Shareholders to the appended Statements.

The Directors have the satisfaction of adding that no bad debts have been incurred during the six months just ended.

Adverting to the negotiations with Government which were incomplete at the date of last Report, the Directors have the pleasure of informing the Shareholders that they have been finally closed, and the terms embodied in a Deed of Agreement which has been duly ratified. On the adjustment of some preliminary details connected with the transfer of the General Treasury, the provisions of the Agreement will be put into practical operation.

The Directors will issue a special Report explanatory of the Deed of Agreement soon after the New Charter shall have passed the Legislative Council.

Meanwhile, the Directors have the pleasure of acquainting the Shareholders, that the Branch which was opened on the 2nd December at Rangoon progresses very satisfactorily. Arrangements otherwise are in such a state of forwardness as to admit of the Directors opening Branches simultaneously in the Cities of Mirzapore, Benares, Patna, and Dacca. The several Treasuries in those Cities as well as that at Rangoon will be handed over to the Bank on or before 1st March next under separate Deeds of Agreement with Government adapted to the requirements of each City, and so framed as to meet the convenience of Government.

*Fort William, the* 10*th January* 1862.

*No.* 28 *of* 1862.—The following paragraphs of a Military Letter from the Right Hon'ble the Secretary of State for India, No. 461, dated 30th November 1861, are published for general information :—

1. "I have received and considered in Council your letter No. 148, dated 31st July 1861, in which you enquire whether, in case of the death of an Officer of the Staff Corps, who originally belonged to the British Service, any provision will be made for his family.

2. I have to inform you in answer that to the widows and families of such Officers, pensions will be granted not less than those to which they would be entitled under the provisions of the Royal Warrant of June 15th, 1855.

3. It remains to be decided from what funds these pensions will be provided."

*No.* 29 *of* 1862.—The following paragraphs of a Military Letter from the Right Hon'ble the Secretary of State for India, No. 462, dated 30th November 1861, and the Royal Warrant therein referred to are published in General Orders :—

1. "I forward with this Despatch copies of a Royal Warrant, dated the 30th October 1861, modifying the conditions under which, according to the Warant of 1st July 1848, a discharged Limited Service Soldier shall be permitted, on re-enlistment, to reckon his former service.

2. The present Warrant has been made applicable to India, and you are authorized, therefore, to publish it in General Orders and to give effect to its provisions."

Gen. No.
1281

WHEREAS, it has been represented to Us that it is expedient to cancel that part of the 27th Clause of the Pension Regulations in Our Royal Warrant of the 1st July 1848, which prescribes the conditions under which a discharged Limited Service Soldier shall be permitted, on re-enlistment, to reckon his former service : Our will and pleasure is that, instead of the before-mentioned conditions which are hereby cancelled, any Soldier who has been, or shall hereafter be, enlisted for Limited Service, and has been or shall hereafter be discharged before or after the expiration of the first period of service, and shall be permitted to re-engage or again enlist within twelve months from the date of his discharge, shall be allowed, under Clauses 4 and 5 of the regulations and restrictions hereunto annexed, or such others as shall from time to time be established by Our Secretary of State for War, and the General Commanding-in-Chief of Our Army, to reckon half the period of his former service toward his future claim to Pension.

Given at our Court at St. James', this thirtieth day of October 1861, in the twenty-fifth year of Our reign.

By Her Majesty's Command,
G. C. LEWIS.

To be annexed to the Royal Warrant of 30th October 1861.

27
Gen. No.
1297

1. WITH a view to give full effect to the provisions of the Limited Enlistment Act, and at the same time to hold out every encouragement to time-expired Soldiers of good character to continue in the Service, it is hereby notified that, in addition to the privilege of being permitted, on re-engagement, to count the

full period of their first term of service towards increase of Good-Conduct Pay, and to Pension on discharge, and of receiving a fresh Bounty, as well as the regulated allowance in lieu of a free Kit, and twenty days' Pay of their rank, men who re-engage at the Head-Quarters of their Regiment for a second term of service, will be granted a Furlough, if serving at Home, for a period of two months, commencing from the date of re-engagement; and if serving at either of the Stations named in the margin, will be provided with a free passage to this Country at a convenient opportunity, at the discretion of the Commanding Officer, and a Furlough for two months, commencing from the date of their arrival in the United Kingdom. They will also be provided with a free passage back to their Regiments, unless directed to join the Depôts thereof at the termination of their Furloughs.

Gibraltar.
Malta.
Ionian Islands.

2. Soldiers, who at the time of their re-engagement may be serving in India, China, Ceylon, the Mauritius, Australia, or New Zealand, will be allowed £5, and those serving in Canada, at the Cape of Good Hope, at St. Helena, and in the West Indies £3, in addition to the usual Bounty, as an equivalent for the Furlough granted to re-engaged men serving at our Foreign Stations and at Home.

3. The Secretary of State also deems it expedient to point out that, although the re-enlistment of Limited Service Soldiers at any period within two years from date of discharge has been specially permitted under Clause 27 of the Pension Regulations in the Royal Warrant of the 1st July 1848, the Limited Enlistment Act does not contemplate such a proceeding; it is, therefore, to be understood that the system which has hitherto prevailed will be discontinued, and in lieu thereof the following will be adopted, *viz*:—

4. Soldiers who have been, or may hereafter be, discharged after the completion of the first term of Limited Service will, if of good character and in possession at the time of their discharge of a Good-Conduct Badge or Badges, be permitted as an indulgence to re-engage within twelve months from the date of their discharge, provided those who had previously served in the Infantry are not above thirty-two years of age, and those in the Cavalry, Artillery, and Engineers not above thirty-four years of age at the time of their re-engagement; but men re-engaging under this arrangement will only be allowed to count half the period of their former service towards claims to Pensions; they will, however, be allowed to reckon the whole of their previous service towards Good-Conduct Pay, but will be required to serve for one year with uninterrupted good conduct from date of re-engagement before they can be permitted to resume their previous Good-Conduct Badges, when they will be entitled to receive Good-Conduct Pay from the date of their re-engagement.

5. Soldiers of good character who have been discharged, or may hereafter be discharged, during the first term of Limited Service, and who may again enlist within twelve months from the date of discharge, will be allowed the benefit of the preceding provision for reckoning former service, and resuming former Good-Conduct Pay.

*No.* 30 *of* 1862.—Under the authority of the Right Hon'ble the Secretary of State for India, His Excellency the Governor General in Council is pleased to confer the Honorary Rank of Assistant Surgeon, from the 3rd instant,* on Pensioned Apothecary James Watson, attached to the Calcutta Police Hospital.

*No.* 35 *of* 1862.—Bombardier Denis Long, of the 1st Artillery Company of the European Invalid Battalion, who was admitted to Pension in Government General Order No. 1034 of the 12th November 1861, is permitted to reside and draw his stipend in India, instead of in Australia as previously authorized.

*No. 36 of 1862.*—The following paragraphs of a Military Letter from the Right Hon'ble the Secretary of State for India, No. 467, dated 3rd December 1861, are published for general information :—

8. "As regards the succession to Colonel's Allowance, I entirely agree with you that it is most desirable to make some definite announcement to the Officers of the Army.

9. In my Despatch No. 27 of 18th January 1861, paragraph 30, I stated that the number of Staff Corps Officers in receipt of Colonel's Allowance "can only be filled up as the establishment of Colonels on the old footing diminishes, so that the aggregate number of Officers receiving Colonel's Allowance at one time shall never exceed the regulated number of Colonel's Allowance for each Presidency."

10. It has been since provided, in connexion with the retiring scheme detailed in my Despatch No. 320 of 10th August last, that the names of Lieutenant-Colonels accepting that scheme shall remain in italics on the general lists of "Field Officers regimentally," to regulate the succession to Colonel's Allowance of those who do not accept the increased pension, so that one Colonel's Allowance will eventually be struck off for each retired Lieutenant-Colonel who would have attained it had he remained on the Effective List, the number of Colonels in the receipt of that allowance being, however, never brought below the proportion they now bear to the number of Officers remaining on the entire list, general and regimental.

11. It may safely be calculated that, under the operation of this measure, there will be a reserve of Colonel's Allowances in the Cavalry and Infantry Arms of each Presidency, available for the Senior Officers of the Staff Corps, and probably to a much greater extent than will be required for that purpose.

12. Her Majesty's Government have therefore decided that Colonel's Allowances shall at once be assigned to the several Staff Corps in the proportion of one Colonel's Allowance to every thirty Officers who have actually joined the Staff Corps.

13. To these allowances, Officers who have attained the rank of Colonel in the Army, and have served not less than twelve years in the substantive rank of Lieutenant-Colonel, will succeed according to seniority as Lieutenant-Colonels, until the proposed establishment is completed to the relative strength of one in thirty Officers of all ranks.

14. The necessity for a qualifying term of service will then cease, and Officers will succeed by seniority as vacancies occur.

15. Her Majesty's Government have further resolved that, upon succession to Colonel's Allowance, Officers of the Staff Corps shall vacate the appointment they then hold, being, however, eligible for re-appointment or employment in any other position at the discretion of their respective Governments, and with the sanction of Her Majesty's Secretary of State for India in Council.

16. Officers holding appointments, the tenure of which is limited to five years, will not be required to vacate, on attaining to the Colonel's Allowance, before the expiration of that period.

18. The fourth subject is the position and pay of a Captain in the Staff Corps, being a Major-General in the Army.

19. The expressions in the Staff Corps Warrant may not be sufficiently definite, and I have, therefore, to explain to you that, in order to entitle an Officer of the rank of Major-General to the unemployed pay specified in the Warrant for that rank, he must have actually served not less than six years in the substantive rank of Field Officers, the above six years being inclusive of any time he shall have been obliged to pass upon half-pay in consequence of ill-health contracted in the service (as established by a Board of Medical Officers), or in consequence of wounds received in action.

20. Other Officers (of the Staff Corps) holding substantive rank in that Corps as Lieutenant-Colonel (whether he have the Brevet-rank of Colonel or not), Major, Captain, or Lieutenant, will draw only the pay of their respective ranks.

21. The last subject mentioned in your Despatch has reference to the request of certain Officers to be allowed the 50lb. extra pension, in anticipation of retirement in completing the required term of service.

22. Among the questions and replies lately published by you (No. 70), inquiry was made with reference to Officers who might still have a few months to serve, but without reference to such service being required in India or allowable in Europe. You decided in the negative, and your reply has had my approval. You now recommend that it be allowed in the case of Officers who are so situated as to be in a position to complete their time in England.

23. I cannot observe that this one class of Officers have more claim to a relaxation of the rule in their favor than the other. Under the regulation of the service, Officers are required to serve a given number of years for a given pension, such period of service being inclusive of a stated amount of leave. It has suited the convenience of one Officer to take that leave, and he may have two years more to serve in India.

24. Another has chosen not yet to take his leave; he may have two years more to serve in England, if he pleases. As far as the interest of Government are concerned, it may be more expedient to relax the rule in question in favor of the latter; but in point of equity, I do not consider that he has more claim to the indulgence than the former.

25. I must, therefore, reluctantly decline to accede to your recommendation, that the rule should be relaxed in the manner and to the extent proposed."

## Notification.

Whereas it has come to the knowledge of the Government that the fees now prescribed by Section 59 and Schedule B. of Act XI of 1859 for the registration of Talooks, Under-tenures, and Farms, under Sections 40, 43, and 44 of that Act, are so high as to deter the proprietors of small tenures from registering them, it is hereby notified that the rate will be reduced. Hitherto the fee for registering all under-tenures and farms of which the jumma does not exceed Rupees 500 has been Rupees 25, but from this date persons applying for registry of such tenures and farms will only have to pay a fee calculated at 5 per cent on the jumma of the under-tenure or farm.

2. By paying this fee, Talookdars and Farmers can have their under-tenures and farms registered so as to secure them in case of the Estate being sold for arrears of revenue; those who wish for registry should make applications to the Collector under Sections 40, 41, and 44 of the Act.

3. The same Act, Sections 10 and 11, gives to the Joint Shareholders in an Estate an opportunity of having a separate account opened by the Collector for the Sudder Jumma of their Estates. Any person for whose share such a separate account has been opened will no longer be in danger of having his share sold by auction in consequence of the default of any of his co-parcener, unless the sale proceeds of the share in arrears be insufficient to cover the amount of the balance due to Government.

### Supply of Indian Cotton to England.

From H. L. DAMPIER, ESQ., Secretary to the Board of Revenue,—(dated the 18th December 1861.)

COPY of letter from the Commissioner of Patna and the Collector's Report, together with the samples of Cotton Seed, forwarded to the Secretary to the Government of Bengal. Apparently the District of Behar is a good field for the growth of New Orleans Cotton.

From H. D. H. FERGUSSON, ESQ., Commissioner of the Patna Division, to the Secretary to the Board of Revenue,—(dated the 23rd November 1861.)

SIR,—I HAVE the honor to forward, in original, a letter No. 193, dated 19th instant, from the Officiating Collector of Patna, on the subject of Cotton cultivation.

2. Mr. Lautour relates the result of actual experiment made by himself in the Gyah District.

3. The samples alluded to in the 18th paragraph of Mr. Lautour's letter are enclosed.

From E. F. LAUTOUR, ESQ., Officiating Collector of Patna, to H. D. H. FERGUSON, ESQ., Commissioner of the Patna Division,—(dated the 19th November 1861.)

SIR,—I OBSERVE in the Supplement *Government Gazette*, dated the 16th of November, at Page 604, that Mr. Furrell has sent in a Report with reference to the cultivation of Cotton at Gyah.

2. I quite agree with him on one point, namely, that the seed distributed by the Collector in 1860 was bad. I tried it, and found it would not germinate. I obtained some New Orleans Cotton from a friend, who was supplied with it by Messrs. Atkinson and Co. I sent the Cotton to Calcutta, the produce of this seed, and it was valued at *5d.* to *6d.* per pound. The season was against the crop, as we had only half the usual fall of rain. I believe the soil of Behar to be well adapted for the growth of Cotton, otherwise it would not have flourished so well in my garden, or in that of my neighbour (Mr. Hollings.)

3. The Manchester trade has for many years gradually shut out the weavers from the market, who have either emigrated or turned their labor to more profitable employment as agriculturists.

4. As the District of Behar has increased in prosperity and population, the cultivation of Cereals has largely increased, and waste lands have been brought under cultivation; but the cultivation of Cotton has been gradually neglected by the Ryots, the value of Cereals being greater in the market than Cotton. Cotton is cultivated along with other crops, but its yield is insignificant. The seed is used to feed cattle, and is to be bought in the Bazar. The cultivation of country Cotton might be improved; and I have no doubt the produce would be finer and more valuable in the market.

5. The proper time to sow New Orleans Cotton Seed is the end of May or immediately after the first fall of rain. It should not be sown later than the end of July. It has then the benefit of the rainy season, and if we have the usual fall of rain, the moisture is retained in the ground until the end of February or beginning of March, and by that time the first and second pickings are over The Cotton picked in March and April is coarse, bad coloured, and not fit for the English market. I therefore, from experience in its cultivation, disagree with Mr. Furrell as to the necessity of constructing reservoirs and other means of irrigation, as I have found New Orleans Cotton not dependant on irrigation.

6. I tried the acclimated New Orleans Seed this year, and sowed it in July as an experiment. The plant throve well, although the rainy monsoon was excessive; I commenced gathering in September, but leaving Gyah, was unable to secure the entire crop. I only gathered a few bolls, which were not perfect, owing to the excessive rain which fell in September.

7. Cotton prefers shade from the fierce sun of July, August, and September, and should be protected by sowing Indian-corn in every alternate row.

8. I am of opinion that New Orleans Cotton may be grown in any quantity in the Gyah District, and that its cultivation will be profitable to the Ryot, coming to that conclusion from experiments made by me on the poorest soil selected purposely. But the crop depends entirely on sowing the seed in June and July, and the seed should on no account be sown later than July, otherwise the plants become stunted, and the crop is not worth picking that season. It is a fair crop the second season, but nothing particular, and the produce is coarse, dirty, and not fit for the English market.

9. It is quite a fallacy to suppose much labor is required in cultivating this crop. The lands should be kept clean and free from weeds. It requires no more labor than that used in growing Cereals, and not one quarter the labor used in growing the Poppy.

10. Sea Island Cotton is perfectly useless ; it grows into a fine shrub, but the bolls produce no Cotton.

11. Cotton is largely imported into the Gyah District from Mirzapore by water to Patna, and thence across country on pack-bullocks and country carts. It is also sent from Mirzapore down the Grand Trunk Road on country carts.

12 The Ryots of Behar are indifferent to cultivate New Orleans Cotton, as they do not know its value. In fact, the cultivation is new to them, and they are prejudiced against it on that account. But that the cultivation of New Orleans Cotton can be profitably cultivated, I have no doubt, coming to that conclusion from certain experiments made by me in 1860 and 1861.

13. I have the honor now to submit, for the inspection of the Board of Revenue, two samples of Cotton grown by me at Gyah in 1860 and 1861.

14. First is that grown from imported New Orleans Seed and gathered in March and April. The first pickings were sent by me to Calcutta, and were favorably reported on by Mr. Stewart of Gillanders, Arbuthnot and Co., grown in 1860.

15. Second sample is Cotton picked in September, grown from acclimated Cotton Seed sown in July 1861.

## HOME DEPARTMENT.

No. 240.

*Fort William, the 14th January 1862.*

*Notification.*—Messrs. Frederick Wyer and John Boxwell, appointed by the Secretary of State for India Members of Her Majesty's Civil Service on the Bengal Establishment, reported their arrival at the Presidency on the 31st ultimo.

No. 241.

REVENUE.

*Notification.*—The following orders passed by the Right Hon'ble the Secretary of State in Council on the subject of the possession of landed property in India by public servants are published for general information :—

1. *Extract from the Secretary of State's Despatch, No. 22, dated the 10th August* 1861.

1.—I HAVE had under my consideration in Council your Excellency's letters dated the 25th, 26th, and 31st October 1860, (Nos. 37, 38, and 39), and 8th March (No. 5) 1861, on the subject of the possession of landed property in India by the public servants of the State.

* * * * * * *

4.—I have carefully considered in Council the entire subject, and I am now prepared on the part of Her Majesty's Government to lay down the following Rules for your future guidance. I should premise that these Rules refer only to the acquisition or possession of lands intended to be applied to agricultural purposes, and are not to be construed to include lands occupied merely by buildings for residence and their usual appurtenances.

5.—Officers of the Covenanted Civil Service are at liberty to acquire and possess lands anywhere out of the Presidency to which they are attached, but are absolutely precluded from holding lands within their own Presidency. Thus, an Officer of the Bengal Civil Service may hold lands in Madras or Bombay, but cannot be permitted to hold lands in any part of the Bengal Presidency, notwithstanding that, at the time of their acquisition, he may himself be actually employed in a different Lieutenant-Governorship from that in which the lands may happen to be situated.

6.—Regimental Military Officers may hold lands in any part of India, with the distinct understanding, however, that a Military Officer possessing land will be disqualified for temporary employment in any Civil capacity in the District within which his land is situated; but Military Officers who are placed in permanent employment in the Civil administration must, like the Officers of the Covenanted Service, be prevented from holding land in the Presidency to any part of which they may be sent.

7.—No restrictions are to be placed on the possession or acquisition of lands by Uncovenanted Officers of any description, whether of European, Indo-British, or Native descent, beyond those now in force.

8.—Officers of all classes (including candidates for office) must, however, be required to make a declaration of the fact of their being in possession of, or of their having acquired landed property, stating the District within which it is situated, with such other particulars as you may consider necessary, of which registers should be kept at the seat of Government of each Presidency or Lieutenant-Governorship. Although Uncovenanted Officers are not to be precluded from holding land, it may, nevertheless, be inexpedient that appointments which necessarily confer a considerable amount of power and influence on their occupants, such as those of Sudder Ameen, Deputy Collector, and Tehsildar, should be filled by persons holding landed property within their jurisdictions; and it is right that the several

Governments should always have at hand the information necessary to guide their judgment in selecting individuals for such offices.

9.—It will, moreover, be incumbent on the several Local Governments to take care that no Officer who may be in possession of landed property in India or elsewhere, to whatever class of the Service he may belong, shall apply any portion of the time and attention which ought to be devoted to his public duties, whether Civil or Military, to the management of that property, and that longer or more frequent leaves of absence are not to be permitted on that account.

* * * * * * *

2. *Secretary of State's Despatch, No. 29, dated 30th November* 1861.

With reference to the letter from your Excellency in Council, dated the 1st October last, (No. 16), which has been considered by me in Council, I have resolved to accede to your recommendation for a modification of the terms of my Despatch of the 10th August last, (No. 22), so far as to permit Officers of the Bengal Civil Service, attached to the Lower Provinces, to acquire and hold land in Upper Provinces, including the Punjab and Oude. Similarly, Officers attached to the Upper Provinces may be permitted to acquire and hold lands in the Lower Provinces of Bengal. It will of course be understood that such Officers possessing lands in either Division are absolutely precluded from employment under the Local Governments of the Division in which their lands are situated.

Judicial (Civil) Department.

No. 392A

*Camp Lullutpore, the 27th December* 1861.

The following Circular, proposed to be issued by the Court of Sudder Dewanny Adawlut, having received the approval of His Honor the Lieutenant Governor, is published for the information of all Magisterial and Police Officers in these Provinces:—

Circular.

S. D. A., N. W. P.
Present.
M. R. Gubbins, Jan. C. Ty, E. Wyllie, Esqrs. } Judges
Alex. Ross and W. Wynyard, Esqrs. } Offg. Extra Judges.

The Court are pleased, with the sanction of Government, to modify so much of their Circular Order, No. 49, dated the 23rd April 1844, as directs the subordinate Judicial Officers to forward their records of monthly decisions to the Sudder Station, *through the Officers of Police.*

2. In future, such records or official papers should be transmitted to the Zillah Judge by a carrier in charge of one or more Muzkooree Peons, whom the subordinate Judicial Officers are authorized to entertain for this purpose, and the hire and pay of the carrier and these Muzkoorees, at the usual rate of daily Tuhulana, will be charged in the Judges monthly Contingent Bill.

3. All the items of expense incurred in the transit of these official papers will be thus entered in the Contingent Bill of the Judge.

This supersedes the last clause of paragraph 3 of the Circular Order above referred to, which prescribed the charging of such items "in the monthly Contingent bills of the Magistrate's Office."

*Fort William, the 16th January* 1862.

THE following Resolution, passed by the Governor General in Council on this date, is published for general information :—

RESOLUTION.—The Governor General in Council, under the authority vested in him by the Act 24 and 25 Victoria, Cap. 67, Section 16, is pleased to appoint Saturday, the 18th of January 1862, at 11 A. M., as the Time, and the Council Chamber in the Government House at Calcutta as the Place, for the first Meeting of the Council of the Governor General for the purpose of making Laws and Regulations under the provisions of the said Act, and to summon the several Members of the said Council to attend the said Meeting at the time and place appointed.

The Clerk of the present Legislative Council will make over to the Secretary to the Government of India, in the Home Department, all Bills and other business pending before the said Council accompanied by a List of the same, together with all records, books, and papers now in his charge.

The Secretary to the Government of India, in the Home Department, will transfer to the Governments of Fort St. George and Bombay respectively any pending Bills relating to each of those Presidencies alone, together with all papers connected therewith, and will in like manner transfer to the Government of Bengal any pending Bills relating to the Lieutenant-Governorship of Bengal alone, together with all papers connected therewith.

The Council of the Governor General of India for making Laws and Regulations will not sit permanently, and it is not intended that the Session of the said Council in each year shall be for a longer period than is found necessary to enable it to dispose of the business which may be brought before it.

MY LORD,—I TRANSMIT herewith, for the information of your Excellency's Government, a printed copy of Her Majesty's Proclamation of the 4th December, prohibiting all Arms, Ammunition, and Military Stores, (including Percussion Caps and Tubes), and also Lead, from being exported from the United Kingdom or from being carried coastwise, and of an order in Council of the same date, prohibiting the exportation of the like Articles from the Channel Islands and the Isle of Man.

I have, &c,
(Sd) C. WOOD.

BY THE QUEEN.

A PROCLAMATION.

VICTORIA, R.

WHEREAS in and by a certain Statute, made and passed in the Parliament held in the sixteenth and seventeenth years of Our reign, and intituled "The Customs Consolidation Act, 1853," it is, amongst other things, declared and enacted as follows; that is to say:

"The following Goods may, by Proclamation or "Order in Council, be prohibited either to be "exported or carried coastwise: Arms, Ammu- "nition and Gunpowder, Military and Naval "Stores, and any Articles which Her Majesty "shall judge capable of being converted into or "made useful in increasing the quantity of Mili- "tary or Naval Stores, Provisions, or any sort of "Victual which may be used as food by man, and "if any Goods so prohibited shall be exported "from the United Kingdom or carried coastwise, "or be water-borne to be so exported or carried, "they shall be forfeited."

And whereas We have thought fit, by and with the advice of Our Privy Council, to prohibit either to be exported or carried coastwise, the Articles hereinafter mentioned; that is to say: Arms, Ammunition, and Military Stores, (including Percussion Caps and Tubes), and also Lead, (being an article which We judge capable of being converted into or made useful in increasing the quantity of Military or Naval Stores), We, therefore, by and with the advice of Our Privy Council and by this Our Royal Proclamation, do order and direct that, from and after the date hereof, all Arms, Ammunition, and Military Stores, (including Percussion Caps and Tubes), and also Lead, shall be, and the same are, hereby prohibited either to be exported from the United Kingdom, or carried coastwise.

Given at our Court at *Windsor*, this fourth day of *December*, in the year of our Lord one thousand eight hundred and sixty-one, and in the twenty-fifth year of Our reign.

GOD SAVE THE QUEEN.

AT the Court at *Windsor*, the 4th day of *December* 1861—

PRESENT:

THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS it has appeared expedient and necessary to Her Majesty, by and with the advice of Her Privy Council, to prohibit the Articles hereinafter mentioned to be exported or carried coastwise from the Islands of Jersey, Guernsey, Alderney, and Sark, and the Isle of Man respectively, except as hereinafter provided. Her Majesty is therefore pleased, by and with the advice of Her Privy Council, to order, and it is hereby ordered, that from and after the publication of this Order in the said Islands respectively, the following Articles, namely,

Arms, Ammunition, and Military Stores (including Percussion Caps and Tubes), and also Lead,

shall be, and the same are, hereby prohibited to be exported or carried coastwise from the said Islands of Jersey, Guernsey, Alderney, and Sark, and the Isle of Man respectively, except with the license of the Lieutenant-Governor or other Officer administering the Government of such Islands respectively for that purpose first had and obtained.

And the Lieutenant-Governors of Her Majesty's Islands of Jersey, Guernsey, Alderney, and Sark, and the Isle of Man respectively, for the time being, are to give the necessary directions herein as to them may appertain.

GENERAL,—PUBLIC WORKS.

No. 16.

### Notification.

It is hereby notified to the Public, that Government is desirous of seeing the ordinary works of the Department carried out by Contract, and that Superintending Engineers have been requested to take steps for having the Contract system fairly established, by calling for Tenders for the execution, at Schedule rates, of works at and in a small circle round the principal Stations of the Districts, where it is probable, that with fair encouragement, Contractors for Public Works would settle themselves as residents.

The Contracts would be at Schedule rates for all ordinary works required, and would run for a fixed term, so that builders, who have a small capital and a practical knowledge of work, shall be able, as residents of the Sudder Stations, to take up all ordinary works at the Stations, and a certain class of works in the Districts.

| | |
|---|---|
| Colonel L. L. Ommanney, Superintending Engineer, Presidency Circle | Calcutta, No. 1, Camac Street. |
| H. Leonard, Esq. Superintending Engineer, South-Eastern Circle | Calcutta, No. 34, Park Street. |

## ORDERS by the LIEUTENANT-GOVERNOR, N. W. Provinces.

GENERAL DEPARTMENT.

No. 36.

*Allahabad, the 9th January* 1862.

THE following Rules, for the guidance of Honorary Magistrates, are published for general information:—

### RULES.

1. Honorary Magistrates appointed in the North-Western Provinces will possess no control over the Police, and will have no authority to issue orders to them, except in respect of cases actually pending before them, as *e. g.* calling witnesses, summoning or arresting defendants, and the like.

2. Accordingly Honorary Magistrates are not competent to entertain complaints, or charges preferred on the report of a Police Officer, (Section 273, Act XXV. of 1861.)

3. All charges of the commission of any of the offences specified in the Schedule annexed to Act XIII. of 1861, *viz.*,—

| | |
|---|---|
| Murder, | Wounding, |
| Thuggee, | Burglary, |
| Dacoitee, | Theft, |
| Highway Robbery, | Receiving Stolen Property, |
| Culpable Homicide, | &c, &c., &c., |

being made by that Act cognizable by the Police without special order or warrant, Honorary Magistrates will not entertain complaints of these offences, but refer any parties preferring such to the Officers of Police.

4. Complaints of all other offences which such Honorary Magistrates are, by any Law for the time being in force, competent to try (for a detail of these see Schedule annexed to Act XXV. of 1861), may be entertained directly by Honorary Magistrates, who will thereupon proceed to investigate and decide the cases thence arising, and shall be guided as to their procedure by the Rules prescribed for the guidance of the Magistrate of the District in similar cases, as set forth in Chapters XIV. and XV. of the Criminal Procedure Code, and shall, in the disposal of such cases, exercise the powers defined in Section 22 of the Criminal Procedure Act, (Sections 273 and 275, Act XXV. of 1861).

5. But the entertainment of such complaints is limited to cases alleged to have occurred within such local limits, as may be assigned, by orders of Government, as the local jurisdiction of such Honorary Magistrates, and shall not extend to cases alleged to have occurred beyond the limits of such jurisdiction, (Section 273, Act XXV. of 1861.)

6. The Magistrate of a District, or a Magistrate in charge of a Division of a District, is empowered to refer criminal cases brought before him, either on complaint preferred directly to such Magistrate, or on the report of a Police Officer, to any Honorary Magistrate subordinate to him, either for enquiry, or for trial, if the case be within the competence of the Honorary Magistrate to decide. Honorary Magistrates will, accordingly, receive and place such referred cases upon their files; and either return them to the referring Magistrate, after completing the enquiry for his decision, or pass orders themselves on trial, if within their competence, according to the instructions furnished to them in each case, (Section 273.)

7. Honorary Magistrates empowered by the Local Government, under Section 38 of the Criminal Procedure Act, to hold preliminary inquiry into cases triable by the Court of Sessions, or by any Supreme Court of Judicature, and to commit or hold to bail persons to take their trial before such Court of Sessions, or Supreme Court, may, in addition to the power set forth in the preceding Rule, and where authorized to do so by the referring order of the Magistrate of the District, or of a Division, dispose of referred cases in the manner abovementioned, *viz.*, by committing, or holding to bail, the accused person to take his trial before the Court of Sessions or Supreme Court, (Sections 38 and 273, Act XXV. of 1861).

8. If in the course of a trial before a subordinate Magistrate the evidence shall appear to him to warrant a presumption that the accused person has been guilty of an offence which such Magistrate is not competent to try, or for which he is not competent to commit the accused person for trial before the Court of Session, he shall stay proceedings, and shall submit the case to the Magistrate to whom he is subordinate, (Section 276).

9. If, in any case tried by a subordinate Magistrate, having jurisdiction in which the accused person is found guilty, such Magistrate shall consider the offence established against the accused person to call for a more severe punishment than he is competent to adjudge, he shall record the finding, and submit his proceedings to the Magistrate to whom he is subordinate; and such Magistrate shall pass such sentence or order in the case as he may deem proper, and as shall be according to Law, (Section 277.)

10. Nothing in the last Rule shall be held to prevent the Honorary Magistrate, in any such case therein described, if such Magistrate is empowered (under Section 38 of the Criminal Procedure Code) to hold the preliminary enquiry into cases triable by the Court of Sessions, and to commit persons to take their trial before such Court, from committing the accused person for trial before the Court of Sessions instead of finding him guilty. If the Honorary Magistrate shall be of opinion that the accused person should be committed for trial before the Court of Sessions, he shall proceed, in accordance with Chapter XII. of the Criminal Procedure Code, for conducting enquiry in cases triable by the Court of Sessions, (Section 278.)

11. It is competent to the Magistrate of the District, or to a Magistrate in charge of a Division of a District, to withdraw any criminal case from any Court subordinate to such Magistrate within his District or Division, and to try the case himself, or to refer it for trial to any other such Court competent to try the same, (Section 36.)

12. Honorary Magistrates appointed to be subordinate Magistrates under Section 22, Act XXV. of 1861, are authorized to exercise the following powers in cases within their competence to decide, *viz.*—*Subordinate Magistrates of the First Class.*—Imprisonment, either rigorous, that is, with hard labor or simple (Section 53, Indian Penal Code), not exceeding six months, or fine not exceeding two hundred Rupees, or both imprisonment and fine, in all cases in which both

punishments are authorized by the Indian Penal Code, (Section 22.)

13. *Subordinate Magistrates of the Second Class.*—Imprisonment, either rigorous or simple, not exceeding one month, or fine not exceeding fifty Rupees, or both imprisonment and fine, in all cases in which both punishments are authorized by the Indian Penal Code, (Section 22.)

14. Whenever a complaint is made before an Honorary Magistrate having jurisdiction in the case, that any person has committed, or is suspected to have committed any offence triable by the Court of Sessions, or of any offence which is triable by such Magistrate and punishable under the Indian Penal Code with imprisonment for a term exceeding six months, it shall be lawful for such Magistrate to issue his warrant to apprehend such person, provided that in any such case the Magistrate to whom such complaint shall be made may, for sufficient reason, instead of issuing his warrant in the first instance, issue his summons requiring the person complained against to appear to answer such complaint, (Sections 179 and 248)

15. In all cases described in the foregoing Rule, Honorary Magistrates will be guided in all matters relating to the issuing of process for causing the attendance of the accused person, the taking of bail, the summoning and enforcing the attendance of witnesses, the mode of recording evidence, correction, attestation, and interpretation thereof, and the adjournment of a case by the provisions of Chapter XII. of the Criminal Procedure Code. On completing the examination of a witness in cases of the above description which are triable by the Honorary Magistrate in addition to the memorandum required by Chapter XII., shall record such remarks as he may think material respecting the demeanor of any witness while under examination, (Section 249.)

16. In preparing the charge against the accused person, in calling for his defence, in summoning and examining evidence on behalf of the accused person, and in recording judgment, Honorary Magistrates shall be guided by the provisions of Sections 250 to 256 (Chapter XIV.) of the Criminal Procedure Code.

17. Whenever a complaint is made before an Honorary Magistrate having jurisdiction in the case, that a person has committed, or is suspected to have committed any offence triable by such Magistrate and punishable under the Indian Penal Code with imprisonment for a period not exceeding six months, it shall be lawful for such Honorary Magistrate to issue his *summons* directed to such person, stating shortly the matter of such complaint, and requiring him to appear at a certain time and place before such Magistrate to answer to the complaint, provided; that if the Magistrate has reason to believe that the accused person is about to abscond he may instead of issuing a summons issue his warrant in the first instance for the arrest of such accused person.

18. The Rules for the admission of the accused person to bail when brought before the Honorary Magistrate, or allowing him to be at large upon his personal recognizance at the Magistrate's discretion, and for his committal to custody if he cannot give bail when required to do so, and for the issue of a warrant to apprehend the accused person if he fails to appear before the Magistrate at the time mentioned in the summons, the rule whereby a Magistrate may dispense with the personal attendance of the person complained against and permit him to appear by agent, the Rules for summoning and compelling the attendance of witnesses, the mode of procedure on trial towards the accused party, the manner of recording evidence, and the Rule for adjournment contained in Sections 258 to 269 of the Criminal Procedure Code, are made applicable to Honorary Magistrates in disposing of all cases punishable under the Indian Penal Code with imprisonment for a period not exceeding six months.

19. When any person is required by any Criminal Court to give bail, it shall be lawful to such Court to permit such person to deposit a sum of money, or Government Promissory Notes to such amount, as such Court may fix in lieu of such bail, (Section 437.)

20. Every sentence or final order of a Criminal Court, together with the reason for making or passing the same, shall be written in the Vernacular language of the presiding Officer, and shall be dated and signed by such Officer at the time of his making or passing the same, and the original shall be filed with the record or proceedings; and a translation thereof, when the original is recorded in a different language from that in ordinary use in proceedings before such Officer, shall be incorporated in the record of the sentence or order, (Section 429)

21. If the Vernacular language of the presiding Officer be not English, and the Officer be sufficiently conversant with the English language to be able to write the sentence or final order in a clear and intelligible manner in that language, and prefer to write the same in that language, the sentence or final order may be written in English, (Section 430.)

22. Complainants and witnesses shall be examined upon affirmation as provided by Act V. of 1840, the form of which is the following:—

"I solemnly affirm in the presence of Almighty God that what I shall state shall be the truth, the whole truth, and nothing but the truth," (Section 43, Code Criminal Procedure.)

23. No oath or affirmation shall be administered to the accused person.

24 In cases in which, by the sentence of the Honorary Magistrate, a fine is imposed upon a conviction for any offence made punishable by fine, whether the offence be punishable by fine only or otherwise, the Honorary Magistrate may order that the fine, or any part thereof not exceeding the loss of the injured party, as well as any special damage of a pecuniary nature that may have resulted to such person by such offence, and any expenses incurred by the complainant in the prosecution, as the Honorary Magistrate may think proper, be paid to the injured party. But the amount so awarded shall not be paid to the injured party until a period of two months shall have elapsed from the date of such award, (Section 44, Code Criminal Procedure.)

25. Every person charged before any Criminal Court with an offence may of right be defended by Counsel or authorized Agent, (Section 432.)

26. When any person under the age of sixteen years shall be sentenced by any Honorary

Magistrate to imprisonment for any offence, it shall be lawful for such Magistrate to direct that such offender, instead of being imprisoned in the Criminal Jail, shall be confined in any Reformatory, which may be recognized by the Local Government as a fit place for confinement in which there may be means of suitable discipline and training in some branch of useful industry, and which shall be kept by a person willing to obey such Rules as the Government shall direct with regard to the discipline and training of persons confined there. (Section 133.)

27. Any person convicted on a trial held by an Officer exercising power less than those of a Magistrate, may appeal to the Magistrate of the District, or other Officer exercising the power of a Magistrate, who shall have been empowered by Government to hear such appeals, (Section 412.)

28. Petitions of appeal must be presented within thirty days immediately following, and exclusive of the day on which the sentence or order appealed against is passed (Section 415), and every petition of appeal shall be accompanied by a copy of the sentence or order appealed against, (Section 416.)

29. It is at all times lawful for a Magistrate to call for and examine the record of any Court immediately subordinate to him for the purpose of satisfying himself of the legality of any sentence or order passed, and as to the regularity of the proceedings of such subordinate Court. If the Magistrate shall be of opinion that the sentence or order is contrary to Law, he shall refer the proceedings for the orders of the Sudder Court, (Section 434.)

### The Cultivation of Cotton in Mysore.

From C. B. SAUNDERS, Esq., Officiating Commissioner for the Government of the Territories of His Highness, the Maha Rajah of Mysore, to the Secretary to the Government of India, Foreign Department, Fort William,—(No. 275, dated Camp at Anuntpoor, 14th December 1861.)

SIR,—I HAVE the honor to submit, for the information of His Excellency the Right Hon'ble the Viceroy and Governor General in Council, the following remarks on the subject of Mysore Cotton, and to solicit at the same time for the arrangement I have already made, as well as for the measures which I am desirous of adopting, the sanction and approval of His Excellency in Council.

2. When the subject of an increased supply of Cotton became one of more than usual importance, I made many enquiries regarding the cultivation of Cotton in Mysore, and learnt not only that several of the Talooks in the Northern parts of Mysore still continue to produce considerable quantities of indeginous Cotton, but that the New Orleans plant, when tried on a former occasion, by order of the late Commissioner, had produced a very superior staple, specially commended by the Jury of the Great Exhibition of 1851, and that the experiment of cultivating it had been abandoned solely because when the Native Gin was ascertained to be unequal to the task of cleaning New Orleans Cotton, Sir M. Cubbon found that it would not pay Government to maintain an Establishment for purchasing and cleaning the quantity then produced, for, it would appear, that on the occasion referred to the Mysore Government monopolized the Crop obtained from the New Orleans seed at a fixed rate, and itself became the Exporter or sole Agent.

3. Bearing in mind the necessity for holding out every fair inducement to the Ryots to cultivate more extensively the superior plant without deviating from the instructions of Government, which prohibit all direct interference with the cultivation or sale of Cotton, I felt that the practice formerly pursued was inadmissible; but, having ascertained beyond a doubt that certain large belts of land in the Northern and Central Talooks were highly favorable to the Cotton plant, I decided upon at once initiating indirect means of assistance which, I have every hope, will encourage the cultivators of Mysore, and will, by stimulating them to increased exertions, lead to the production, in 1862-63, of a Cotton crop of superior quality in many parts of the Province.—

1*stly*.—I have made arrangements for obtaining from Dharwar a large supply of the best seed of the New Orleans plant, which will be sold to the Ryots at cost price.

2*ndly*.—I have, through the Superintendents of Districts, notified to the Ryots of Cotton growing Talooks, that any waste land taken up for the cultivation of New Orleans or Egyptian plants will be given on half assesment for five years, and that Gins will be provided for cleaning the same at a fixed rate per Candy in one or more of the principal places in each Talook.

3*rdly*.—As it has been found that the great drawback to the cultivation in Mysore of the New Orleans or other foreign plant is the difficulty of cleaning it with the rough Native Machinery of this country, I have secured, as a temporary measure, for the construction of Saw Gins, the services of a Mr. W. Davis, who was, for many years, employed by a Bombay House as an Agent for purchasing Cotton, &c., in the Dharwar Country, and who is intimately and practically acquainted with the culture and preparation of Cotton for the home market, and is thoroughly conversant with the principal native languages of southern India, *viz*., Teloogoo, Canarese, and

Hindustani. The Saws have been written for to England, but the other articles required being obtainable on the spot, Mr. Davis has been instructed to establish a Workshop at Sheemooga for the preparation of the other parts of the Gins, so that, immediately on the arrival of the Saws from England, he may have every thing ready to at once set up a number of Gins and forward them to the Cotton growing Talooks; and it is anticipated that in this way each important locality will be furnished with a good Gin before the next crop is ready to be gathered. A man, on the part of Government, will have charge of each Gin, and the Cotton will be cleaned at a fixed rate per Candy to be settled hereafter, this will render the Gins self-supporting. A number of extra Gins will also be got ready to be sold at cost price to any enterprising Ryots who may wish to be in exclusive possession of Gins of their own.

4. On the part of the Mysore Government I have granted to Mr. Davis Rupees 300 monthly from the 28th of October 1861, and Rupees 2 per diem travelling batta so long as his services are required for constructing and setting up the Gins, &c., &c., and to this arrangement I would beg to solicit the sanction of His Excellency the Viceroy.

5. I have every hope that these measures will ensure a highly satisfactory result, and that the outturn of Cotton and increased prosperity of the Province will justify any small outlay on the part of the Mysore State which the indirect assistance above adverted to may, in the first instance, cause to be incurred.

6. There is, in addition to the foregoing, one suggestion which I am desirous of making, and which will, I trust, meet with the approval of His Excellency the Viceroy.

7. It is not probable that either the Madras or Bombay Government will allow the Mysore cultivators to compete for the prize of Rupees 10 000, which has been offered for the best sample of Cotton brought forward in those Presidencies. I am anxious, therefore, that the Ryots of this Province should not be left without some stimulus such as their fellow cultivators have had held out to them in the surrounding Districts, and this induces me to propose that the Mysore Government should be permitted to offer rewards amounting in the aggregate to Rupees 5,000. The Prizes to range as marginally shewn. Each Cotton growing Talook to have three or four small Prizes allotted to it according to the extent under cultivation in the Talook. The seven large Prizes to be open to Cotton cultivators of any Talook of the Mysore Territory. The rewards will, of course, only be awarded in the event of the successful competitors fulfilling the conditions as to extent of area cultivated and description of crop, &c., which may be previously advertized. I look upon this plan as advisable in the case of Mysore, because in this Territory as yet no great stretch of Cotton cultivation is to be found in any locality, though numerous small and medium sized patches of the indeginous plant are to be seen in all parts of the Northern Talook.

| | | | | |
|---|---|---|---|---|
| 2 | Prizes of | Rs | 500 | 1,000 |
| 5 | ,, ,, | ,, | 200 | 1,000 |
| 20 | ,, ,, | ,, | 100 | 2,000 |
| 20 | ,, ,, | ,, | 50 | 1 000 |
| | Total, | Rs | | 5,000 |

8. I have only, in conclusion, to solicit for this proposition, and for my arrangements generally, the sanction and approval of His Excellency in Council.

---

From Colonel H. M Durand, c. b, Officiating Secretary to the Government of India, Foreign Department, to the Officiating Commissioner for the Government of the Territories of His Highness the Rajah of Mysore,—(No. 21, dated Fort William, 17th January 1862)

Sir,—In reply to your letter No. 275, dated 11th ultimo, I am directed to inform you that the Governor General in Council sanctions all the arrangements which have been made by you and the arrangements which you propose to make for the extension and improvement of the cultivation of Cotton in Mysore.

Letter from the Solicitor to Government, No. 592, dated 26th October 1861.

Letter from the Honorary Secretary, Bengal Civil Fund, dated 1st November 1861.

Financial Resolution, No. 13779, dated 8th November 1861.

Read also letter from the Administrator General of Bengal, dated 9th December 1861.

RESOLUTION.—The Governor General in Council observes that the twelve months' notice given to the Bank of Bengal, under the provisions of Act VI. of 1830, will expire on the 10th February 1862, and that it has been declared by Section I. of Act XIX. of 1861, that Section XXXI. of Act VI. of 1830, so far as it authorizes the Bank to issue Promissory Notes payable on demand, is repealed from and after the first day of March 1862.

It becomes necessary, therefore, to determine without delay what steps shall be taken for the introduction of the Government Paper Currency in Bengal.

It also has to be considered:—

1*st*.—On what date the transfer of the business at present performed in the General Treasury shall be made to the Bank of Bengal, under the provisions of Clauses 1 and 2 of the Agreement with the said Bank, in order that the Notification provided for in Clause 20 of the Agreement may be issued.

2*ndly*.—When and in what manner the Cash Balances shall be made over to the Bank, and

3*rdly*.—What steps are necessary for carrying out the orders contained in the Resolution passed in this Department on the 22nd August last, in respect to the conduct of the business of the Sub-Treasurer's Office generally by the Bank, and the accounts to be rendered by the Bank.

With respect to the introduction of the Government Paper Currency, His Excellency in Council directs that a set of Rules for the conduct of business, in conformity with Clauses 6 to 18 of the Agreement with the Bank, be drawn up in consultation with the Officiating Mint Master and the Secretary and Treasurer of the Bank, and that a suitable Establishment be provided for the purpose of assisting the Officiating Mint Master in the management of the Paper Currency.

As regards the transfer of the Treasury business to the Bank, His Excellency in Council observes, with reference to the first point mentioned above, that it is provided by Clause 20 of the Agreement with the Bank that the provisions of the Agreement shall come into operation from and after a day to be fixed by the Governor General in Council by Notification in that behalf, which shall be published in the *Calcutta Government Gazette* within six calendar months from the date of the Agreement, *viz.*, the 26th September 1861), and His Excellency in Council resolves that from and after the 1st day of March 1862, the business referred to in paragraphs 1 to 5 of the Resolution of the 22nd August last, shall be conducted by the Bank in the manner stated therein.

In regard to the several Departments of the Sub-Treasurer's Office, His Excellency in Council is pleased to pass the following orders:—

*No.* 1. *Government Savings Bank.*

This Department will be made over by the Sub-Treasurer to the Accountant General to the Government of India.

*No.* 2. *Securities deposited by and belonging to Officers of Government on which the Sub-Treasurer draws and remits interest.*

These Securities will be transferred to the Bank, leaving the Directors of the Bank to submit for consideration the question mooted in paragraphs 9 and 10 of the Resolution of the 22nd August last relative to an extra remuneration to the Bank on account of the said Securities.

*No* 3 *The Custody in Deposit and Credit of the Assets of Deserters, deceased Officers and Soldiers, (both in Cash and Articles deposited) and the preparation of the Accounts and periodical Statements connected therewith.*

This duty will be transferred to the Presidency Pay Master in the manner set forth in paragraph 11 of the Resolution of the 22nd August, on the understanding that the action of the Presidency Pay Master will commence from the date of transfer, the previous accounts being made over to the Accountant General to the Government of India, to whom all references regarding past transactions will be made by the Presidency Pay Master.

*No. 4. The Counter-stamp Department.*

This Department will, as provided in the Resolution, be made over to the Civil Pay Master.

*No. 5. The Deposits of the Supreme Court.*

The Judges of the Supreme Court having agreed to the transfer of these Deposits to the Bank, provided the Security of the State is not withdrawn, and no additional expense is occasioned, the Governor General in Council directs that the Directors of the Bank be requested, with respect to this and all the other *quasi* Governmental accounts transferred to the Bank with the Treasury business, to waive its usual Commission on sale or purchase of Capital Stock, and only retain the ¼ per cent Commission on drawing interest of Securities lodged with the Bank.

*No. 6 The Deposits and Accounts of the different Service Funds.*

The subject of these deposits and accounts will be separately disposed of.

*No. 7. Records, Accounts, and Vouchers of the General Treasury.*

These will be made over to the Accountant General to the Government of India.

*No. 8. The acceptance of Bills not payable at sight, and payment of sight Bills without acceptance, issue of supply Bills, and of Land Revenue, Public Service and Privilege Remittance Transfer Receipts.*

These duties will be distributed between the Bank of Bengal and the Civil Pay Master, in the manner laid down in the Resolution of 22nd August last.

*No. 9. The Deposits of Educational, Nizamut and other Funds on which the Sub-Treasurer draws and remits interest and invests accumulations of assets in Government Securities under orders of the respective authorities.*

The orders passed in regard to deposits of the Supreme Court (No. 5,) apply to the deposits of Educational, Nizamut and other Funds.

*No. 10. The Deposits of the Administrator General and Official Trustee and the receipt of his remittances to England.*

These deposits, &c., His Excellency in Council observes, are some of those *quasi* Governmental accounts to which the orders relative to the deposits of the Supreme Court (No. 5,) apply.

*No. 11. The custody of State Jewels and of Copper Coins remitted by the Secretary of State.*

The custody of State Jewels will rest with the Mint Master, and that of Copper Coins remitted by the Secretary of State with the Bank. The Copper Coins are at present unsorted in their original packages arranged cargo by cargo. The packages will be taken over by the Bank, but may remain at the Treasury vault for the present, unless the Directors of the Bank desire to remove them and examine their contents. Practically, they will remain where they are, and the Bank will credit the Government of India with the invoice value of the Copper Coins, but if on opening any package to send Copper Coins to any District Treasuries any mistake be discovered in the Invoice, as the package will never have been, though nominally, out of the custody of Government, His Excellency in Council will be prepared to sanction the Bank's being credited with any proved deficiency.

*No. 12. The Deposits of the General Post Office.*

The Bank having declined to cash the halves of Bank Notes which constitute these deposits, in order that the value may be held in deposit, the halves of the Bank Notes in question will be transferred to the Bank for the purpose of being disposed of in any way the Directors of the Bank may determine.

*No. 13. The remittance and despatch of Bullion.*

This business will be performed by the Bank under orders of the Civil Pay Master, the cost being charged against the Government in contingent bills to be passed by the Civil Pay Master.

*No. 14. Custody and Credit of remittances from the District Treasuries.*

The orders passed above in regard to Department No. 13, will apply to this Department also.

*No. 15. The Account and Correspondence Department of the General Treasury* will be transferred to the Accountant General to the Government of India.

*No. 16. Bonds of Indemnity, Emigration Bonds, and Guarantees, Title Deeds of Government Properties, Fort Marlbro' Bonds, Servants' deposits, and Emigrants' deposits and Soldiers' Treasury Notes* will also be transferred to the Accountant General.

*No. 17. The Cash Balance of the General Treasury* will be made over to the Bank. But so much of the actual specie as may require to be lodged with the Issue Department of the Mint in exchange for Currency Notes will remain for the present at the Treasury, the rest of the Cash Balance being removed to the Bank. The Treasury vault will then be transferred to the custody of the Mint Master.

With respect to the third point, nothing more appears to be necessary than to direct the Accountant General in communication with the Bank to carry out the views expressed in the Resolution of the 22nd August.

Adverting to paragraph 43 of the Resolution of the 22nd August, His Excellency in Council observes that two questions were referred to the Advocate-General for opinion, *viz* :—

1*st*.—How far the literal construction of the Contracts with Railway Companies may be affected by the abolition of the General Treasury.

2*nd*.—The necessity for some provision for the substitution of the Officers of the Bank of Bengal in the place of the Sub-Treasurer as Special Assessors and Collectors of Income Tax duty upon all sums liable thereto which may be paid from the Bank.

As regards the first question, His Excellency in Council agrees with the Advocate-General in thinking that the operation of the Railway Company will not be at all affected by the substitution of the Bank of Bengal for the present General Treasury of Calcutta. His Excellency in Council thinks it will be sufficient for the purpose of meeting the provisions of the Contracts according to their true legal construction, that an order be passed and published to the effect that the Treasury of the Secretary of State for India in Council and of Her Majesty's Government shall, from and after the 1st of March 1862, be established at the Bank of Bengal, and that all payments to be made by or to the Secretary of State in Council

or the Government of India, or the Government of Bengal, at the Treasury of the East India Company, or of the Secretary of State in Council, or of the Government at Fort William, shall and may be henceforth made at the said Bank of Bengal.

As the payments of interest on Government Securities are to be extended to the Bank of Bengal, and as such interest is expressed to be payable at the General Treasury at Fort William, and as it may be questioned whether that expression does not imply a separate Government Establishment called the General Treasury, and whether it would be legally satisfied by the appointment of an Agency at a Bank for the purposes of a Treasury, His Excellency in Council thinks it will be preferable to provide by a Legislative Act for such payments being made at the Bank of Bengal as long as its Agreement with the Government should remain in force.

With respect to the Second question the Governor General in Council observes that under the Income Tax Act, the Officers of the Bank of Bengal by whom payments are made on account of the Government under the new arrangement, can scarcely be deemed "Authorities in charge of a Public Treasury" within the meaning of Section XXVI., although "authorized to pay the interest on any Security of the Government of India, &c.," and that consequently they will not become Ex-officio Assessors under that Section, nor can they be appointed by the Local Government, Special Assessors under Section XXXI. of the Act, as that Section only applies where no provision has been made for the appointment of Assessor by the Act itself. But His Excellency in Council thinks that, in the new Act for regulating the Bank, a Clause may properly be inserted, providing that the Secretary and Treasurer of the Bank of Bengal should have vested in him the same authority and power as an Assessor, in regard to any interest on any Security of the Government of India, or any other sums or profits specified in Section XXVI. of the Act, and which the Bank of Bengal may be authorized to pay on account of the Government, as by Sections XXVI. and XXXII. are vested in the Sub-Treasurer of the Government.

Measures have been taken already in this Department, with a view to the order as to general payments, and the provisions regarding payments of interest on Government Securities, and appointment of the Secretary and Treasurer of the Bank, being embodied in the new Act above referred to, and His Excellency in Council desires, that the necessity of passing the new Act may be taken into early consideration at a meeting of the Council for the purpose of making Laws and Regulations.

In publishing the order regarding general payments, and the Notification above alluded to, His Excellency in Council desires that the Agreement with the Bank be published, in order that the Public may be apprised of the terms on which the business of the General Treasury and the Government Paper Currency shall, from the date fixed, be conducted by the Bank of Bengal.

It will also be intimated that the Head Commissioner of the Department of Issue shall be the Master of the Mint at Calcutta or the person officiating in that capacity for the time being, and that the Calcutta Circle of Issue within which the Notes will become a legal tender, shall for the present embrace all the Districts subject to the control of the Government of Bengal (except the Districts noted in the margin,) and the Districts of Ghazeepore, Mirzapore, and Benares, belonging to the North-Western Provinces, that the Bank of Bengal is prepared at once to establish Branches at *Benares*, *Mirzapore*, *Patna* and *Dacca*; that any persons who might prefer applying at the Mint for Notes in exchange for Coin or Bullion might apply there instead of at the Office or Agency at the Bank, provided they apply for not less than 2,000 Rupees at a time, and that in doing so that they will receive Notes duly issued by the Head Commissioner, one day after their applications, but that the actual place of issue of Notes so applied for will be the Office of the Head Commissioner at the Bank, and finally, that the Notes will be taken and paid at all the Treasuries comprised in the Circle of Issue mentioned above.

Balasore, Cuttack, Pooree, and Sumbulpore, in the *Cuttack Division*.
Cossyah and Jynteah Hills, Durrung, Gowalpara, Kamroop, Lukhimpore, Nowgong and Seebsangor, in the *Assam Division*.
Tipperah, Bullooah, and Chittagong, in the *Chittagong Division*.
Akyab, Ramree, and Sandoway, in the *Arracan Division*.
Hazareebaugh, Lohardugga, Manbhoom, and Singbhoom, in the *Chota Nagpore Division*.
Darjeeling.
Cachar.
Sylhet.
Sonthal Pergunnahs.

With regard to the arrangements to be entered into with the Banks at Madras and Bombay, the Governor General in Council directs that copies of the Resolution of the 22nd of August last, of the Agreement with the Bank of Bengal and of this Resolution, be forwarded to the Governments of those Presidencies, with a request that this Government may be furnished, as soon as possible, with the detailed arrangements which those Governments propose with their respective Banks, together with a statement of the extent of the respective Presidency Circles, date of commencement of the transfer of their Treasury business and introduction of the Paper Currency, and other particulars, if any, as Charter Act Amendments, which those Governments would recommend, with a view to carry out the arrangements in general accordance with those now sanctioned for Calcutta.

---

Ordered, that a copy of the foregoing Resolution be forwarded to the undermentioned Department, Governments, and Officers, with a request that the orders contained therein respecting them be attended to:—

Military Department.
Governments of Bengal, North-Western Provinces, Madras* and Bombay*.
Mint Committee, Calcutta.
Officiating Master, Calcutta Mint.
Accountant General to the Government of India.
Deputy Auditor and Accountant General, Bengal.
Sub-Treasurer, Fort William.
Civil Pay Master, ditto.
Directors of the Bank of Bengal
Clerk of the Legislative Council.

* With copy of Resolution, dated 22nd August 1861, and of Agreement with the Bank of Bengal.

BANK OF BENGAL,
*Calcutta, 13th January* 1862.

To C. H. LUSHINGTON, ESQ.,
*Secy. to the Govt. of India,*
*Financial Department.*

SIR,—WITH reference to your Despatch No. 1491, bearing date 11th February 1861, and intimating that from and after the expiration of twelve Calendar months *from the receipt of notice*, the Bank of Bengal and the powers and authorities would, in conformity with Act VI. of 1839, be modified "by "withdrawing the power to issue Promissory Notes "conferred on the Bank by Act VI. of 1839, "which power will thenceforth be determined."

2. Such notice was received by the Bank on the day following, *viz.*, 12th February 1861.

3. Adverting further to your Despatch No. 51, with Extract from the Proceedings of Government, dated 3rd instant, containing in the Narrative of the Resolution passed by His Excellency the Governor General in Council, that the twelve months' notice given to the Bank expires on the 10th February 1862, and that it has been declared by Section 1. of Act XIX. of 1861, that Section XXXI. of Act VI. of 1839, so far as it authorizes the Bank to issue Promissory Notes payable on demand, is repealed from and after the 1st day of March 1862; I am instructed to point out that by the Official Notice of 11th February, the Bank's right of issue will apparently cease on 12th February, whereas by Act XIX. of 1861 it will not expire until 1st March following. Lest any question should arise regarding the power of the Bank to continue their issues in the period intervening between those two dates, I have been instructed to request the favor of your taking such steps as you may consider necessary for authoritatively disposing of the point now raised

4. With regard to Securities deposited with Sub-Treasurer by and belonging to Officers of Government under Section marked No. 2 of Extract Proceedings of Government of date the 3rd instant, I have to acquaint you that the Directors have resolved to receive the same for safe custody, and to forego all charges connected with the management of the Securities usually exacted in the Agency Department.

5. Relative to Sections marked 5, 9, and 10, I have also to inform you that the Directors have agreed to waive the usual Commission on sale and purchase of Capital Stock, and to retain the ¼ per cent Commission on drawing interest of the various Securities proposed to be lodged with the Bank and enumerated in the above Sections.

I have, &c.,

*No.* 333.

FROM THE SECRETARY TO THE GOVT. OF INDIA,
*Financial Department,*

TO THE SECRETARY AND TREASURER OF THE BANK OF BENGAL.

SIR,

I AM directed to acknowledge the receipt of your letter dated the 13th instant, and to inform you in reply that His Excellency the Governor-General in Council is pleased to authorize the Bank of Bengal to continue to exercise the power to issue Promissory Notes conferred on the Bank by Act VI. of 1839, until the 28th of February 1862, (inclusive) after which date such power ceases under Section I., Act XIX. of 1861.

2. The consent of the Directors to receive the Securities referred to in the 4th paragraph of your letter, and to forego all charges connected with the management of the Securities, and their resolution regarding the deposits alluded to in the 5th paragraph of your letter, will be duly communicated to the authorities concerned.

I have, &c.,

## PUBLIC WORKS DEPARTMENT.

*Circular No.* 5 *of* 1862.

Extract from the Proceedings of the Right Hon'ble the Governor General of India in Council.

*Fort William, 18th January* 1862.

Read Extract of Proceedings in the Financial Department, No. 14694, dated 26th December 1861.

Observations.—This Resolution of the Financial Department shows that the total amount of the 1 per cent Income Tax, including that levied on the interest of Government Debt and on Military Salaries, and assessed (it is presumed) between 1st August 1860 and 31st July 1861, does not exceed 32½ lakhs of Rupees in round numbers.

2. But the Resolution also intimates the decision of Government to add 100 lakhs, inclusive of past supplemental grants,* to the amount assigned to Civil Public Works in the Financial Statement at the commencement of the present official year; and the proportion of this additional grant assumed on account of the 1 per cent fund amounts to 38 lakhs, or 4½ lakhs in excess of the actual estimate of collections.

* Thus:

| | |
|---|---|
| Making up for the deficit of Local Taxation deferred ... ... ... | 50 lakhs. |
| Former Supplemental Budget grant. | 12 „ |
| Present additional grant ... ... | 38 „ |
| Total | 100 lakhs. |

This sum the Resolution directs to be allotted in the following proportions:—

| | | |
|---|---|---|
| To Bengal | ... | 11 lakhs. |
| „ N. W. Provinces | ... | 6 „ |
| „ Punjab | ... | 1 „ |
| „ Madras | ... | 4 „ |
| „ Bombay | ... | 8 „ |
| „ Hyderabad, East and West Berar, Mysore, Coorg, Rewa, Straits, Pegu, Tenasserim, Oudh, Central India, and Nagpoor | ... | 8 „ |

to be distributed in the manner that may appear to be most desirable to the Public Works Department.

3. It is also ordered that the works proposed for execution from the Fund shall be considered and approved in this Department; and that on the communication of such approval, the amount will be available for expenditure.

4. Some further orders appear to the Governor General in Council to be necessary in this Department, in sequence to the Resolution of the Financial Department.

5. The order of the Financial Department quoted above in paragraph 2 would appear, strictly interpreted, to imply that some kind of Budget of the expenditure proposed by each Government from this Fund is to be submitted, and approved by the Government of India, before the amount shall become available.

6. No Government, however, has yet submitted such a Budget or list of works, except the Government of the North-Western Provinces. And as the assignment is made for the present official year, though the credit for the amount assigned will not expire with the year, as in the case of the ordinary Imperial assignment, great delay would occur if the sanction of such lists of works were to be awaited.

7. The Governor General in Council therefore desires that the various Governments may be informed that they are at liberty to assign money for this Fund at once to works of the description to which it is applicable by law, provided that those works have been approved in the regular manner, and by competent authority in each case. But lists of the assignments actually made should be submitted as soon as possible for the information of the Government of India in this Department.

8. It is to be understood that all the rules regarding sanction upon proper Estimates, &c., are just as applicable to the works to be executed from this Fund as to any other.

9. The Governor General in Council desires earnestly to impress upon the various Governments that the more the Fund is directed towards augmenting the grant already made to works in progress, the better it will be for economy in execution, and the earlier will be the fruit of our expenditure.

10. As the Governor General in Council understands that there is an impression with some of the Governments that no works that have been

sanctioned for construction from the Imperial assignments are to be aided from this Fund, His Excellency in Council thinks it necessary to point out very explicitly that this is quite a misapprehension, whilst it is one that if acted on will stand much in the way of the beneficial and economical use of the allotment, by tending to increase that diffusion of expenditure over too many works, which is a great and general evil.

11. It is true that under Clause CXCIV of the Act, it is laid down that the proceeds of the 1 per cent tax shall be expended by the Local Governments in the various districts under them *as nearly as may be* in proportion to the respective contributions of the districts thereto. But to make this proportion the actual measure of expenditure within each Revenue District or Collectorate would, at least in the Bengal Presidency, render the allotment a most wasteful one. And the Governor General in Council, after mature consideration, is of opinion that the spirit of the Act will be best carried out by making the distribution in the Provinces of that Presidency according to the proportions contributed by Revenue *Divisions* rather than Collectorates. The good ensured to every district by the concentrated expenditure of a considerable sum on the *completion* of main lines of communication, through the Division to which the District belongs, will be far greater than that resulting from the diffusion of expenditure in beginning many works in separate Collectorates, and leaving those main lines insufficiently supplied with funds.

12. It remains for the Governor General in Council in this Department to distribute the sum of eight lakhs of which the final assignment has not been made in the Financial Department.

13. This amount will have to be augmented by a sum of Rs. 37,000, to be deducted from the six lakhs assigned to the North-Western Provinces,* on account of the transfer of the Jubbulpore Division to the new administration of the Central Provinces. The whole amount to be distributed is therefore Rs. 8,37,000.

* According to N. W. P. letter, No. 2083A of 14th September, addressed to this Department, the amount of collections from the Jubbulpore Division is Rs. 36,976-10-4.

14. Each Province entitled under the Income Tax Act to participate in the one per cent fund will receive a larger amount than it would be entitled to if the 1 per cent fund alone were distributed without any increase from Imperial Funds Such being the case, this amount of Rs. 8,37,000 cannot be distributed with much regard to the proportions of contribution from the different minor administrations named in the Financial Resolution. The whole amount of the Returns from those minor administrations, as they are stated in the Financial Resolution, is little more than a lakh and a half of Rupees, and, after adding Rs. 37,000 for Jubbulpore Division, is still less than 2 lakhs, whilst considerable doubt appears to attach to several of the items. The additional sum contributed by Government from the general resources towards this distribution is consequently more than four and a half lakhs. And the Governor General in Council therefore orders the following allotment on general considerations, and on his judgment of what will be the most useful application of the whole amount.

| | | |
|---|---|---|
| To the Central Provinces | ... Rs. | 2,50,000 |
| To Oudh | ... „ | 2,25,000 |
| To Pegu (including Tenasserim) | ... „ | 1,50,000 |
| To Hyderabad (Berar) | ... „ | 1,00,000 |
| To the Reserve at the disposal of this Department | ... „ | 1,12,000 |
| Total Rs. | ... | 8,37,000 |

15. The last allotment is necessary, the Reserve having already been overdrawn by grants in aid of works under different local Governments, of which a much larger amount than this allotment has been for works within the scope of the operations of the one per cent fund.

16. His Excellency in Council makes no allotment to Mysore or the Straits Settlements in this distribution. He considers that it is not in accordance with either the spirit or the letter of the Act that where, as in Mysore and the Straits, the tax is levied only from the salaries of our Officers and not from the people or from property, the 1 per cent should go to the benefit of the Territory.

---

ORDERED, that the foregoing observations and orders be communicated to the Financial, Foreign, and Home Departments, and to all the Local Governments for guidance.

ORDERED also, that they be published in the *Calcutta Gazette*.

The following Rules for the guidance of Honorary Magistrates are published for general information :—

## RULES.

1. Honorary Magistrates appointed in the North-Western Provinces will possess no control over the Police, and will have no authority to issue orders to them, except in respect of cases actually pending before them, as *e. g.* calling witnesses, summoning or arresting defendants, and the like.

2. Accordingly, Honorary Magistrates are not competent to entertain complaints, or charges preferred on the report of a Police Officer, (Section 273, Act XXV. of 1861.)

3. All charges of the commission of any of the offences specified in the Schedule annexed to Act XIII. of 1861, *viz.* :—

| | |
|---|---|
| Murder, | Wounding, |
| Thuggee, | Burglary, |
| Dacoitee, | Theft, |
| Highway Robbery, | Receiving Stolen Property, |
| Culpable Homicide, | &c, &c., &c., |

being made by that Act cognizable by the Police without special order or warrant, Honorary Magistrates will not entertain complaints of these offences, but refer any parties preferring such to the Officers of Police.

4. Complaints of all other offences which such Honorary Magistrates are, by any Law for the time being in force, competent to try (for a detail of these see Schedule annexed to Act XXV. of 1861), may be entertained directly by Honorary Magistrates, who will thereupon proceed to investigate and decide the cases thence arising, and shall be guided as to their procedure by the Rules prescribed for the guidance of the Magistrate of the District in similar cases, as set forth in Chapters XIV. and XV. of the Criminal Procedure Code, and shall, in the disposal of such cases, exercise the powers defined in Section 22 of the Criminal Procedure Act, (Sections 273 and 275, Act XXV. of 1861.)

5. But the entertainment of such complaints is limited to cases alleged to have occurred within such local limits, as may be assigned, by orders of Government, as the local jurisdiction of such Honorary Magistrates, and shall not extend to cases alleged to have occurred beyond the limits of such jurisdiction, (Section 273, Act XXV. of 1861.)

6. The Magistrate of a District, or a Magistrate in charge of a Division of a District, is empowered to refer criminal cases brought before him, either on complaint preferred directly to such Magistrate, or, on the report of a Police Officer, to any Honorary Magistrate subordinate to him, either for enquiry, or for trial, if the case be within the competence of the Honorary Magistrate to decide. Honorary Magistrates will accordingly receive and place such referred cases upon their files; and either return them to the referring Magistrate, after completing the enquiry for his decision, or pass orders themselves on trial, if within their competence, according to the instructions furnished to them in each case, (Section 273.)

7. Honorary Magistrates empowered by the Local Government, under Section 38 of the Criminal Procedure Act, to hold preliminary inquiry into cases triable by the Court of Sessions, or by any Supreme Court of Judicature, and to commit or hold to bail persons to take their trial before such Court of Sessions, or Supreme Court, may, in addition to the power set forth in the preceding Rule, and where authorized to do so by the referring order of the Magistrate of the District, or of a Division, dispose of referred cases in the manner abovementioned, *viz.*, by committing, or holding to bail, the accused person to take his trial before the Court of Sessions or Supreme Court, (Sections 38 and 273, Act XXV. of 1861).

8. If in the course of a trial before a subordinate Magistrate the evidence shall appear to him to warrant a presumption that the accused person has been guilty of an offence which such Magistrate is not competent to try, or for which he is not competent to commit the accused person for trial before the Court of Session, he shall stay proceedings, and shall submit the case to the Magistrate to whom he is subordinate, (Section 276).

9. If, in any case tried by a subordinate Magistrate, having jurisdiction in which the accused person is found guilty, such Magistrate shall consider the offence established against the accused person to call for a more severe punishment than he is competent to adjudge, he shall record the finding, and submit his proceedings to the Magistrate to whom he is subordinate; and such Magistrate shall pass such sentence or order in the case as he may deem proper and as shall be according to Law, (Section 277.)

10. Nothing in the last Rule shall be held to prevent the Honorary Magistrate, in any such case therein described, if such Magistrate is empowered (under Section 38 of the Criminal Procedure Code) to hold the preliminary enquiry into cases triable by the Court of Sessions, and to commit persons to take their trial before such Court, from committing the accused person for trial before the Court of Sessions instead of finding him guilty. If the Honorary Magistrate shall be of opinion that the accused person should be committed for trial before the Court of Sessions, he shall proceed, in accordance with Chapter XII of the Criminal Procedure Code, for conducting enquiry in cases triable by the Court of Sessions, (Section 278.)

11. It is competent to the Magistrate of the District, or to a Magistrate in charge of a Division of a District, to withdraw any criminal case from any Court subordinate to such Magistrate within his District or Division, and to try the case himself, or to refer it for trial to any other such Court competent to try the same, (Section 36.)

12. Honorary Magistrates appointed to be subordinate Magistrates under Section 22, Act XXV. of 1861, are authorized to exercise the following powers in cases within their competence to decide, *viz.*,—*Subordinate Magistrates of the First Class.*—Imprisonment, either rigorous, that is with hard labor or simple (Section 53, Indian Penal Code), not exceeding six months, or fine not exceeding two hundred Rupees, or both imprisonment and fine, in all cases in which both

punishments are authorized by the Indian Penal Code, (Section 22.)

13. *Subordinate Magistrates of the Second Class.* —Imprisonment, either rigorous or simple, not exceeding one month, or fine not exceeding fifty Rupees, or both imprisonment and fine, in all cases in which both punishments are authorized by the Indian Penal Code, (Section 22.)

14. Whenever a complaint is made before an Honorary Magistrate having jurisdiction in the case, that any person has committed, or is suspected to have committed any offence triable by the Court of Sessions, or of any offence which is triable by such Magistrate and punishable under the Indian Penal Code with imprisonment for a term exceeding six months, it shall be lawful for such Magistrate to issue his warrant to apprehend such person, provided that in any such case the Magistrate to whom such complaint shall be made may, for sufficient reason, instead of issuing his warrant in the first instance, issue his summons requiring the person complained against to appear to answer such complaint, (Sections 179 and 248)

15. In all cases described in the foregoing Rule, Honorary Magistrates will be guided in all matters relating to the issuing of process for causing the attendance of the accused person, the taking of bail, the summoning and enforcing the attendance of witnesses, the mode of recording evidence, correction, attestation, and interpretation thereof, and the adjournment of a case by the provisions of Chapter XII. of the Criminal Procedure Code. On completing the examination of a witness in cases of the above description which are triable by the Honorary Magistrate in addition to the memorandum required by Chapter XII., shall record such remarks as he may think material respecting the demeanor of any witness while under examination, (Section 249.)

16. In preparing the charge against the accused person, in calling for his defence, in summoning and examining evidence on behalf of the accused person, and in recording judgment, Honorary Magistrates shall be guided by the provisions of Sections 250 to 256 (Chapter XIV.) of the Criminal Procedure Code.

17. Whenever a complaint is made before an Honorary Magistrate having jurisdiction in the case, that a person has committed, or is suspected to have committed any offence triable by such Magistrate and punishable under the Indian Penal Code with imprisonment for a period not exceeding six months, it shall be lawful for such Honorary Magistrate to issue his *summons* directed to such person, stating shortly the matter of such complaint, and requiring him to appear at a certain time and place before such Magistrate to answer to the complaint; provided that if the Magistrate has reason to believe that the accused person is about to abscond he may instead of issuing a summons issue his warrant in the first instance for the arrest of such accused person.

18. The Rules for the admission of the accused person to bail when brought before the Honorary Magistrate, or allowing him to be at large upon his personal recognizance at the Magistrate's discretion, and for his committal to custody if he cannot give bail when required to do so, and for the issue of a warrant to apprehend the accused person if he fails to appear before the Magistrate at the time mentioned in the summons, the rule whereby a Magistrate may dispense with the personal attendance of the person complained against and permit him to appear by agent, the Rules for summoning and compelling the attendance of witnesses, the mode of procedure on trial towards the accused party, the manner of recording evidence, and the Rule for adjournment contained in Sections 258 to 269 of the Criminal Procedure Code, are made applicable to Honorary Magistrates in disposing of all cases punishable under the Indian Penal Code with imprisonment for a period not exceeding six months.

19. When any person is required by any Criminal Court to give bail, it shall be lawful to such Court to permit such person to deposit a sum of money, or Government Promissory Notes to such amount, as such Court may fix in lieu of such bail, (Section 437.)

20. Every sentence or final order of a Criminal Court, together with the reason for making or passing the same, shall be written in the Vernacular language of the presiding Officer, and shall be dated and signed by such Officer at the time of his making or passing the same, and the original shall be filed with the record or proceedings; and a translation thereof, when the original is recorded in a different language from that in ordinary use in proceedings before such Officer, shall be incorporated in the record of the sentence or order, (Section 420.)

21. If the Vernacular language of the presiding Officer be not English, and the Officer be sufficiently conversant with the English language to be able to write the sentence or final order in a clear and intelligible manner in that language, and prefer to write the same in that language, the sentence or final order may be written in English, (Section 430.)

22. Complainants and witnesses shall be examined upon affirmation as provided by Act V. of 1840, the form of which is the following:—

"I solemnly affirm in the presence of Almighty God, that what I shall state shall be the truth, the whole truth, and nothing but the truth," (Section 43, Code Criminal Procedure.)

23. No oath or affirmation shall be administered to the accused person.

24. In cases in which by the sentence of the Honorary Magistrate a fine is imposed upon a conviction for any offence made punishable by fine, whether the offence be punishable by fine only or otherwise, the Honorary Magistrate may order that the fine, or any part thereof, not exceeding the loss of the injured party, as well as any special damage of a pecuniary nature that may have resulted to such person by such offence, and any expenses incurred by the complainant in the prosecution, as the Honorary Magistrate may think proper, be paid to the injured party. But the amount so awarded shall not be paid to the injured party until a period of two months shall have elapsed from the date of such award, (Section 44, Code Criminal Procedure.)

25. Every person charged before any Criminal Court with an offence may of right be defended by Counsel or authorized Agent, (Section 432.)

26. When any person under the age of sixteen years shall be sentenced by any Honorary Magistrate to imprisonment for any offence, it shall be lawful for such Magistrate to direct that such

offender, instead of being imprisoned in the Criminal Jail, shall be confined in any Reformatory, which may be recognized by the Local Government as a fit place for confinement in which there may be means of suitable discipline and training in some branch of useful industry, and which shall be kept by a person willing to obey such Rules as the Government shall direct with regard to the discipline and training of persons confined there, (Section 433.)

27. Any person convicted on a trial held by an Officer exercising power less than those of a Magistrate, may appeal to the Magistrate of the District, or other Officer exercising the power of a Magistrate, who shall have been empowered by Government to hear such appeals, (Section 412.)

28. Petitions of appeal must be presented within thirty days immediately following, and exclusive of the day on which the sentence or order appealed against is passed (Section 415), and every petition of appeal shall be accompanied by a copy of the sentence or order appealed against, (Section 416.)

29. It is at all times lawful for a Magistrate to call for and examine the record of any Court immediately subordinate to him, for the purpose of satisfying himself of the legality of any sentence or order passed, and as to the regularity of the proceedings of such subordinate Court. If the Magistrate shall be of opinion that the sentence or order is contrary to Law, he shall refer the proceedings for the orders of the Sudder Court, (Section 434.)

*Extract from the Proceedings of the Government of India, in the Financial Department, dated 4th January* 1862.

From W. J. Raynor, Esq., Officiating Civil Pay Master, Madras, to C. H. Lushington, Esq., Financial Secretary to the Government of India.—No. 1178, dated Fort St. George, 27th November 1861.)

I have the honor to enquire whether the Rule contained in the Financial Notification of 30th March last, No. 65, applies equally to an Officer proceeding to re-join appointment after return from sick leave as to one proceeding to join a new appointment on transfer from one station to another while on duty, or whether the travelling time or four, six, or eight weeks is to be allowed in the former case, as provided in the Notification of 14th October 1857, No. 42.

2. Again, if the Rule of 30th March last, is to be held applicable to cases of *return* from sick leave, is the *preparatory* time allowed to an Officer on sick certificate to reach the port of embarkation, or a sanitarium, to be governed by the same Rule, or should it continue to be regulated according to the ruling of 14th October 1857 ?

3. As Officers returning from sick leave are entitled only to the usual absentee allowance until they join, it may not be intended perhaps to bring them under the operation of the Order of 30th March last, but it will be satisfactory to have this point settled by authority.

No. 14240, Financial Department, Fort William, the 13th December 1861.

Forwarded to the Civil Pay Master, Calcutta, for report, and the return of the paper requested therewith.

Civil Pay Master's Office, Fort William, the 20th December 1861.

*MEMORANDUM.*

If the distance is traversed by Rail or Steamer, the Orders of the 30th March last, No. 65, are applicable alike to Officers proceeding to re-join appointments after return from sick leave, as to Officers proceeding to join new appointments; but if the distance or any portion of it is not so traversed, then four, six, and eight weeks are allowed in the former case, and one, two, or three months in the latter.

The orders in question are, it is submitted, applicable to the case cited in Mr. Raynor's second paragraph, if the distance is traversed by Rail or Steamer; if not, then the Orders of the 14th October 1857 are to regulate the joining time.

Financial Department, Fort William, the 4th January 1862.

Resolution.—The Governor General in Council agrees in the view taken by Mr. Sandeman, and directs that the Orders of the 30th March last be so applied.

No. 14.

Ordered, that a copy of the above be sent to the Officiating Civil Pay Master, Madras, and that another copy be sent to the Printer of the *Calcutta Gazette* for publication in the *Gazette*.

C. Hugh Lushington,
*Secy to the Govt. of India.*

## MILITARY DEPARTMENT.

*Fort William, the 24th January* 1862.

*No. 82 of* 1862.—The departure from Bombay on Furlough to Europe of Major G. G. Denniss, 1st European Bengal Fusiliers, announced in Government General Order No. 888 of the 31st August 1860 is to be held to have effect from the 8th, instead of from the 7th August 1860 as previously notified.

*No. 83 of* 1862.—Mr. Angello D'Souza, Second Class Sub-Assistant, Great Trignometrical Survey, is promoted to the First Class, with effect from the 8th instant.

*No. 84 of* 1862.—*Erratum.*—In the preamble of Government General Order No. 1158 of the 20th December 1861, for "Monthly diets and travelling allowance or table money," read *Monthly emoluments and travelling allowance or table money.* Order Books to be corrected accordingly.

*No.* 85 *of* 1862.—The following Officers having applied for admission to the Staff Corps, constituted by the Royal Warrant of the 16th of January 1861, are appointed to the Bengal Staff Corps, subject to the approval of Her Majesty's Secretary of State for India :—

| Rank and Names. | Corps. | Staff Appointment. |
|---|---|---|
| Lieutenant William Playfair ... | Late 4th N. I... | Adjutant, 2nd Regiment of Infantry, Nagpore Irregular Force. |
| Lieutenant Henry Sullivan Jarrett... | Late 3rd European Regt. | Doing duty 3rd Punjab Cavalry. |

*No.* 86 *of* 1862.—His Excellency the Governor General in Council is pleased to direct the following Rules for the payment and adjustment of transport charges for the conveyance of Troops and Stores :—

1. All Departmental Officers authorized to incur charges for transport of Troops or Military Stores will have cash assignments on the Local Treasury periodically made to them by the Heads of their respective Departments from which they will at once pay, as directed below, for the transport which may be provided under their authority.

2. They will be held personally responsible for any expenditure in any period in excess of the cash assignment for that period, unless they previously obtain a Station Order directing the provision of the transport, and apply at once for a supplementary credit to meet the expense.

3. Any such Officer requiring transport will forward to the Officer or other person providing it a "Request Note" detailing the Troops, Stores, &c., requiring to be conveyed, and request its return with the cost of the transport endorsed on it (Form A.)

4. He will then furnish the person providing the transport with a "Forwarding Order," which shall set forth the numbers, description, and such particulars as may be considered necessary, of the despatch to be made, and show the amount of cost incurred (Form B.) He will also hand over, with the "Forwarding Order," a "Transfer Order" on the Local Treasury for the amount cost of the transport (Form C.) And this document (with the acknowledgment of the giver on the back that the transport has been duly provided) will be a sufficient Voucher to the Treasury for the payment of a Bill for the amount when the transport is furnished by private persons, and for the transfer of the amount to the credit of the Department providing it, when it is provided by an Officer of Government. In each case a receipt will be taken by the Officer granting the "Transfer Order," as his Voucher for the appropriation of the amount (Form D.)

5. These documents will wholly clear the person providing the transport and all retrenchments will be made, or explanation required from the Officer ordering it, with whom the Examiner, or Officer entrusted with the audit of such charges, should promptly communicate whenever information respecting them is found necessary.

6. The audit of all Military Transport Charges will be entrusted to one of the Examiners attached to the Office of the Controller of Military Finance, who will audit and pass them on account of the Departments to which they severally relate.

7. Detailed instructions relative to the mode of carrying into effect the above Rules will be prepared and communicated by the Military Finance Department, to the Departments and Officers concerned.

### The Electric Telegraph.

From W GREY, ESQ., Secretary to the Government of India, Home Department, to the Secretary to the Chamber of Commerce at Bengal,—(dated the 12th June 1861.)

I AM desired to request that the Calcutta Chamber of Commerce will favor the Governor General in Council with their general opinion as to the efficiency of the Electric Telegraph for commercial purposes, and that they will be good enough to furnish a Statement of the total number of Messages sent or received during a given period, say from a week to a month previous to this date, by any Firms or Establishments connected with the Chamber, showing what proportion of them were delivered with reasonable punctuality and correctness, and in what proportion any delay or error occurred so material as to detract from the commercial value of this means of communication.

2. His Excellency in Council desires me to add, that if the Chamber have any suggestions to offer for the improvement of the Telegraph Department, the Government will be glad to receive them.

(A similar letter was addressed to the Chambers of Commerce at Madras and Bombay.)

---

From H. BROOKE, ESQ., Secretary, Bombay Chamber of Commerce, to W. GREY, ESQ., Secretary to the Government of India, Home Department,—(dated Bombay, the 5th August 1861.)

By direction of the Committee of the Chamber of Commerce, I have the honor to acknowledge receipt of your letter No. 1176, dated 12th June 1861, requesting a Statement of the total number of Messages sent or received by the Members of the Chamber through the Electric Telegraph during a given period, and desiring suggestions for the improvement of the Establishment.

The Committee have circulated your letter to the Members, and have received Returns from twenty-five Firms giving the following results :—

| | Messages. |
|---|---|
| Received with reasonable punctuality and correctness ... ... ... | 274 |
| With important errors or delays... ... | 16 |
| Unintelligible or so delayed as to be rendered useless ... ... ... | 8 |
| Total received between 1st April and 31st May ... ... | 298 |

Since the above period the delays have been very considerable on most of the Lines, but more particularly on that between Bombay and Calcutta, where Messages have not unfrequently taken six to eight days in transmission, and in several instances nine or ten days.

It appears to the Committee that where the contents of the Messages are of no value to others than the addressee, and where the construction of the Message is simple and grammatical, there is but little ground for complaint; but it would seem that where the temptations to divulge the contents of important Messages were considerable, and had been systematically brought to bear on the employés, their integrity was found to give away.

The Committee feel it difficult to suggest to Government a remedy for this state of things; but as complaints of similar delinquencies are not frequent in England, they would venture to suggest that the Establishment of a Secret Committee under the guidance of an experienced Officer trained in England would probably have the effect of bringing to justice the real authors of these frauds. At the same time the Committee believe that an increased rate of salaries to the

lower officials, with the prospect of rewards for exemplary conduct, would raise the general character of the Establishment, and greatly promote its efficiency.

A copy of the Return by the Members is herewith forwarded for your information.

From W R Arbuthnot, Esq., Chairman of the Madras Chamber of Commerce, to W Grey, Esq., Secretary to the Government of India, Home Department,—(dated Madras, the 7th August 1861.)

I have the honor, on behalf of the Madras Chamber of Commerce, to acknowledge the receipt of your letter of the 12th June, in which you apply to the Chamber for its opinion as to the general efficiency of the Electric Telegraph for commercial purposes, and you request that it will furnish a Statement of the total number of Messages sent or received during a given period, say from a week to a month previous to the date of your letter, by any Firms or Establishments connected with the Chamber, showing what proportion of them was delivered with reasonable punctuality and correctness, and in what proportion any delay or error occurred so material as to detract from the commercial value of this means of communication. You further state, by desire of His Excellency the Governor General in Council, that if the Chamber have any suggestions to offer for the improvement of the Telegraph Department, the Government will be glad to receive them.

I regret that I have been unable to procure the statistics for which you apply, the Mercantile Firms at this place not having anticipated the enquiry that has been instituted and having kept therefore no separate record of the Messages received and despatched by them. In the hope, however, that the information may still be useful, I have requested the Members of the Chamber to record day by day their experience of the working of the Department for the current month of August, which I hope to do myself the honor of forwarding to you early in September.

The opinion of the Madras Chamber upon the general efficiency of the Electric Telegraph for commercial purposes is on the whole favorable.

Messages are occasionally delivered in language more or less mutilated, and for the deciphering of which the context would of itself be insufficient without a pre-acquaintance on the part of the recipient with the subject matter. Errors too, arising from evident inattention of the Signallers, but which might be productive of serious consequences, such as the substitution of the word "hundred" for "thousand," "four" for "five," and *vice versâ*, sometimes occur. Still, however, I have pleasure in repeating that, upon the whole, as far as I have been able to ascertain the views of the Madras Chamber, the Department has given satisfaction, and in this Presidency we have had no complaints of the Messages being tampered with. Of the irregularities that do occur, I may confidently state that a large preponderance would be found in the messages transmitted from Calcutta and Bombay, while the Southern and South-Western Lines have been comparatively free from them. I have also grounds for believing that the Messages sent from hence to Calcutta would be considerably more numerous than they are, were it not for a want of confidence which, to a certain extent, prevails in regard to the prompt receipt of the reply Telegrams.

The frequent interruption of the North Coast and Calcutta Line has been felt to be one very serious drawback to its satisfactory working. On a late occasion the interruption extended over a period of a week, if not ten days, and this of necessity occasioned very great inconvenience.

Whatever may have been the causes in times past of such long continued interruptions, it is hoped that a remedy prompt and effectual may be applied.

Believing that the expediency of Telegraph Stations being opened at every important Commercial Port along the Coast has been fully recognized, the Chamber would take this occasion to bring to the notice of the Government that Cuddalore, the chief Station of one of the most important Collectorates in this Presidency, and through which the Telegraph wires are already carried, is still deprived of the advantage referred to.

There are two other practical suggestions with which I will conclude. They are as follows:—

1*st*.—That the date and hour of despatch of a Telegraphic Message be included, if required, free of expense to the sender.

2*ndly*.—That in the case of Messages delivered in an unintelligible shape, a refund be allowed, even though the repeating charge may not have been paid. The Public at present has no redress unless the higher charge has been levied, and the tendency of this arrangement is to make the Signallers careless in the case of ordinary Messages.

---

From H. W. I. Wood, Esq., Secretary, Bengal Chamber of Commerce, to W Grey, Esq., Secretary to the Government of India, Home Department,—(dated the 14th August 1861.)

I have the honor to acknowledge the receipt of your letter No. 1168 of the 12th June, relative to the Telegraph Department, which has been circulated very generally among the Commercial Establishments of Calcutta; and I am directed by the Committee of the Chamber of Commerce to submit the following observations for the consideration of His Excellency the Governor General in Council:—

The Committee consider that the Electric Telegraph Service of India is deficient in the two great points which can alone render it valuable either to the Government or the Commerce of the country, namely, despatch and accuracy in transmission. The Committee can only speak practically as regards the latter, and in support of their opinion they append, for the information of His Excellency the Governor General in Council, the opinions of most of the leading Merchants of Calcutta upon this subject. It is not easy to understand why the working of this service should not have improved during the six or seven years which have passed since it was first opened to the Public; but with some exceptions the Committee, from every-day experience, believe such to be the case. They are well aware that the superior Officers in charge of the service are men of ability and zealous for its efficient execution; but in consequence of what the Committee believe to be the cause of the present unsatisfactory working of the system, namely, defective construction and bad organization, the exertions of these gentlemen are neutralized, and but of little value to the Public. The Committee are of opinion that if the construction of the line had been entrusted to persons thoroughly conversant with the European system, and not to men who, as far as this particular system was concerned, were mere theorists, the chief defects now evident would have been avoided. Can it be expected that the Telegraphic communication for all India can be maintained with any thing like correctness or despatch when the means of transmission is limited to the use of a single wire?—and when this wire is employed by Government for many hours, as it frequently is, private Messages must necessarily be detained, and their correctness endangered by the delay.

As regards the gross errors which so frequently occur in the Messages, the Committee believe they are to be attributed to the mistaken policy on the part of the Authorities who, for economical reasons, have thought proper to employ at low salaries, as Signallers and Copyists, persons, chiefly Natives and Eurasians, whose want of education and proper training renders them unfit for the appointments which they hold. The Committee are also informed that the Inspectors employed are not sufficiently numerous to keep up an efficient supervision of the several lines in work.

It is generally believed by men practically acquainted with the working of the European system, an opinion in which the Committee fully concur, that Telegraphic communication in India would be worked more satisfactorily and profitably to the Government and the Public if it was entrusted to private enterprise, for which capital could readily be found in England.

---

*Extracts from the Opinions of the several leading Merchants of Calcutta.*

In reply to your letter of the 18th instant, we beg to say that the first thing required, in our opinion, for the improvement of the Telegraph Department, is that the Superintendent should be ordered to be present in some part of the Establishment, whence he can superintend its working, and where he will be accessible to the Public. Major Douglas at present sits in a room at the top of a three-storied house—the whole working of the Telegraph is carried on below on the ground floor. It is manifest, therefore, that he cannot be the least aware of the manner in which the work is done. On your wishing to have access to Major Douglas on business, (*sic.*) is compelled to give a card to a Peon at the bottom of the stairs, who carries it up to Major Douglas, and in time returns with permission to climb to the top of the house: this time being generally from ten to fifteen minutes, during which the victim has to walk about a dark damp passage without even any thing to sit down upon.

It appears to us that the work of a Telegraph Office is, of all others, one which requires constant superintendence and appropriate accommodation, without which no good system can possibly be carried out. We should, before any other change, recommend that a convenient Telegraph Office be at once provided by Government without which the work can never be efficiently performed.

---

In reply to your Circular regarding the Electric Telegraph, we beg to record our opinion that the two leading faults of which the mercantile community have a right to complain, are frequent delays in the transmission of Messages, and an extraordinary want of intelligence on the part of those who reduce them to writing.

In a few Messages which we lately exchanged with a Firm at Madras, we find the following absurd blunders:—

Hydrabhay for hydraulic,
Containing for contain.
Publication for application,
Balt for bale,
Celling for calling,
And thirthieth for thirteenth,

These six errors occurred in four messages.

With regard to the efficiency of the Telegraph for commercial purposes, we think that, as it is at present managed, a Merchant incurs a grave responsibility who acts upon any Telegram the purport of which does not tally with his pre-conceived notions, or, in other words, that if a Message reports an unexpected high or low rate of prices, it is probably a blunder of the Telegraph, and cannot safely be acted upon.

---

With reference to your Circular dated 18th June, I beg to say I have no evidence to give of the working of the Telegraph Department for the time for which Government require it, *viz.*, from a week to a month previous to 12th June; but former experience warrants my joining in what I believe to be the general opinion, that the Telegraphic Department has been culpable of gross neglect.

That the system of Telegraphic communication in India has not improved as regards the correctness of the Messages and the time occupied in their delivery during the last five years, is a fact to which I believe the Public will generally bear testimony. The Merchants and Bankers certainly will.

The experience of one month in the year hardly conveys an adequate idea of the almost daily blunders which occur in the transmission of Messages on all the Lines, especially those received from Bombay and Madras, blunders which are liable to cause losses of great magnitude to the persons sending or receiving the Telegrams. The following is an instance of this, but other facts could be adduced in which the errors were more numerous I can only speak positively to the messages received, but there have been complaints from Bombay in regard to those despatched :—

*17th May to 17th June.*

Messages to and from Bombay and Galle—21 received and 17 despatched

On the 16th, from Galle, *hundreds* were quoted instead of *thousands* of ounces.

On the 29th, from Bombay, unintelligible on 11th June, 6 days en route, and quite incorrect.

On 15th June ditto ditto.

Four out of those received were not only useless, but in the instance of one Message we had a narrow escape of serious loss,—as though the Message received was found when compared with original received from Bombay incorrect, yet the sentence was so connected as to remove any doubt of its correctness when received ; luckily a later Message was received the same day which led me to doubt the accuracy of the first.

---

We shall be obliged by your submitting, for the information of the Chamber, the following case of imposition,—for we consider it nothing less on the part of the Electric Telegraph Office :—

We received this morning a Bill for Rupees 7-5 for a Message alleged to have been sent to our address from Bombay. The number of the Message not appearing on the face of the Bill as usual, we returned it with a memorandum requesting the information, and were informed in reply that " the message did not reach Calcutta." We then asked why we were called upon to pay for it, and were again informed in reply that " the Message was duly sent from Bombay, but appears to have been lost on the road !" Our only course was to pay the Bill, which we have done, and now enclose it and the memorandum for your inspection.

---

We make constant use of the wires in directions, and taking last month as a criterion, receive or send on the average sixty-four Messages monthly, each ranging in length from 16 to 100 words, in many of which errors to a greater or lesser extent occur ; but on the whole we are satisfied with their general accuracy.

We therefore confine our complaints to the following, received within the last few days, which we have brought to the notice of the Telegraph Officials *vide* out obtaining a satisfactory explanation of the cause of the blunders made in transmission :—

A Message by letter from Mauritius, and correctly given for transmission by our Agents in Galle, quoted a certain staple export *four* dollars per bag, but in the Telegraph Message it is given as *five* dollars per bag We are aware that a neighbouring Firm received a similar Message in which the same error occurred, and we cannot regard this error otherwise than a wilful one on the part of some in the employ of the Telegraph.

A Message transmitted from London by letter to Bombay gives us a limit of *two* thousand pounds, which is delivered to us as *one* thousand, and the only satisfaction we can obtain is the same as given in the former case.

Attention ought to be called to the state of the Lines between Calcutta, Akyab, and Rangoon, and to the alleged fact that between this and Jessore the wires are suspended on slim bamboo poles which give way in every storm. This Line has been virtually closed for months past through constant interruption.

---

Our experience of its operations has led us to the conclusion that, for commercial purposes, it is not of the least use as at present conducted. The two great essentials to render it valuable to commerce being wanting, *viz.*, certainty of transmission within a proper time, and the correct delivery of Messages. We have found that Messages by Telegraph have frequently reached their destination only a few hours before the copy of the same by Post, and sometimes not until after the copy by Post had been delivered. And frequently Messages are so distorted and rendered unintelligible that they are not of the least use when received.

For these reasons we have not of late made use of the Telegraph as a means of communication, trusting in preference to the slower but more certain delivery of Messages by the Post.

---

We *do* get a few Telegraph communications occasionally ; but we have *never yet received one* that was of any use to us, being either totally unintelligible, or utterly useless from being " too long on the road," generally *both together*.

---

Our Messages are very often too late and behind time. We had several Messages from Akyab when the cable was *in order*, which occupied from eight to nine days !

---

We have continual causes of complaint for mistakes and omissions in telegraphing our Steamers, and have recently on more than one occasion brought them officially to the notice of Major Douglas, but without effecting any reform. On a recent occasion also our Madras Agents telegraphed to us, prepaying for our reply. Our Clerk through inadvertence paid here for our reply, and on pointing out the double payment and demanding a refund, Major Douglas on the 11th June informed us he could make no refund here.

---

We have a very unsatisfactory account to give of our Telegrams. They are *often late*, sometimes missing, and rarely correct.

---

We have had frequent cause of complaint.

---

Our experience leads us to place little or no confidence in the Telegraph Office as a means of transmitting Messages.

---

The Messages we receive are frequently unintelligible, particularly those from Galle. We think that if the hour of despatch was stated in the Messages, it would be an improvement and a wholesome check to irregularities.

---

We do not think that the Electric Telegraph Department can be considered as " efficient for commercial purposes" as it ought to be, and as it might be made, and there is still a sufficient amount of *uncertainty* about the receipt and transmission of Messages as to prevent its being used as much as it otherwise could be, and to constitute a great drawback on its usefulness. It is not nearly so well conducted as in England or America, where mistakes and delays are rare indeed, and though in India it probably never will attain to the same degree of efficiency as in those countries, we think it is much more behindhand than it ought to be.

At the same time we are far from thinking it as inefficient as many may probably suppose it to be from the way in which it is abused in the Newspapers,

and from the cases there given (no doubt correctly) where it has failed; these cases of *failure* attract attention, but when all goes on well no notice is taken.

We have referred to our accounts, and find that in 1861 we have *sent* Telegrams to *Ceylon* 19, *Bombay* 7, *Madras* 5, *Mirzapore and other places in India* 9, *Melbourne vid Galle* 6, *London* 10=56 in all. These are Telegrams the *result* of which we know. We may have *received*, about half the above number, and the result is that the Telegrams have generally been sent and received pretty fairly in point of time, and that the *words* have come generally accurate enough to be intelligible, in most cases very nearly correct, and in a good many cases quite correct. Some Lines appear to be served much better than others; for instance, Calcutta to Colombo; we have sent nineteen Messages, and received twenty in reply, and they were mostly in good time, and nearly all correct; probably this may be partly owing to the fact that all were to the same house and all on the same subject. When delays and mistakes have occurred in this and former years, we have generally found them to be where we have parties telegraphed to for the first time, or upon new subjects. For two years we have been sending Messages to a house in London always on same subject, and they always reach regularly and correctly. Lately we sent to Bombay, for London, three Telegrams at same time, one to this house, and two to new houses. Anticipating difficulty, we had written in the beginning of the year to Superintendents at Bombay and Galle, and sent lists of all houses in England to whom we expected to telegraph, in order that there might be means of correcting mistakes in names. Notwithstanding this, our Telegram to the *old* correspondent arrived correctly, but those to the *new* ones only reached a fortnight later and were of no value. Recently we had a Message six days coming from Bombay, and one was sent from Mirzapore, and has never been received by us at all. With these three exceptions we have no special cases of complaint, but in all three it appears to us that there must have been great carelessness.

Where Messages are *incorrect*, it seems generally to arise from want of intelligence on the part of some of the employés of the Department. We make allowance for mistakes in case of new and difficult matters, but such *stupid* blunders are sometimes made as would seem to show that the parties making them can hardly understand the English language, such blunders as are never made in England, and which the possession of ordinary intelligence would avoid.

We have referred to our own private experience of the working of the Department, but we are all interested in Public news, and we think the Department is freely entitled to claim credit for the generally accurate despatch of Public news from England, China, &c, and of commercial advices to the Chamber of Commerce from England, Bombay, and China; in the *China* quotations, however, mistakes are made more frequently than they ought to do.

We do not use the Telegraph as much as we would do if it were more accurate, and we believe it might be made much more accurate by the employment of better men, and their better payment necessary to secure a better class. We believe the Department *pays* a *profit* at present, and if so, it would be only just to improve it: we believe it would pay well also to do it, as many more Messages would be sent. In cases of proved neglect, what is paid for Messages certainly ought to be refunded, and part or the whole of such refund should be deducted from the pay of the person in fault. Good men should be employed, they should have good pay, and be told that they would lose part if they committed serious fault. This is the system in the Bank of England in the Cashier's Department, or used to be. The Clerks were paid "risk money;" if they over-paid a Cheque or lost money in other ways, they were liable to make good the loss; if they made no mistakes, they kept the risk money. We think that if some such plan were tried here, it would be well,—the good men would like it. At present it takes some time and trouble to write in with particulars of complaint, and all that is ever got is an expression of regret, the announcement that no money can be returned, and an intimation that the culprit has been reprimanded. We have generally sent in complaint ourselves, but we know of others who do not, considering that it is only waste of time as well as of money.

---

In reply to your favor calling on us for an expression of our opinion as to the efficiency of the Electric Telegraph for commercial purposes, we regret to say that we have no great faith in the utility of the Department while under its present management, as through the frequent disappointments we have met with in consequence of the delay, or unintelligible state of our Messages, we have almost ceased to make use of this means of communication, of which we would gladly and frequently avail had we any assurance that we could do so with the certainty that our Messages would meet with even ordinary care in transmission. As it is, we are doubtful of the expediency of paying heavily for Messages with a great chance of their miscarrying, or which may be delivered at a time not only to be of no use, but possibly of harm, as the features of the matter of which they treated may have altered. We have suffered considerably ourselves by the length of time our Telegraphs to Akyab, Galle, and other places have been in transit, and we have been put to much inconvenience lately by a Message from Galle to our address not having reached us until five days after its date, and then in an unintelligible form. It ran thus:—"*Muster for Leeds, no shillings for Graham.*" The Superintendent refused to ask for a repetition, though the wording in its present form is meaningless, and has no reference to our business; and when we inquired if we must pay for this worthless affair, the reply was, that "if you do not pay, you will never receive another bearing Message." In answer to our complaints to the Superintendent here, we have generally been sent printed circulars, giving us no satisfaction or explanation whatever.

Not only in the working of the Telegraph itself, but in the commonest details of the Office, the greatest carelessness seems to exist, for so late as yesterday we received a letter addressed to us, enclosing a returned telegram intended for Messrs. Mackinnon, Mackenzie and Company, while that Firm were sent a message intended for us.

---

In answer to your Circular letter of date 25th instant, wishing our opinion with regard to the efficiency of the Electric Telegraph for commercial purposes, we have to state that our own experience of the irregularity and incorrectness with which very many of our Messages have been forwarded, has caused us to conclude that this Department of Government has been inefficiently wrought. Not a few of our intended telegrams never reached their destination; and the same applies to Messages intended for us from other Stations. Many were incorrectly forwarded, leaving the receivers only to guess at the meaning, and some were quite unintelligible.

---

Regarding the punctuality and correctness in the transmission of Messages by the Electric Telegraph, we have to bring to the notice of the Chamber that a Message from London, despatched from Bombay on the 9th instant, reached us only yesterday evening, taking nine days for transmission; while the copy of the above Message came to hand yesterday morning by the usual Bombay Mail.

On several occasions we had to complain of the general management of the Telegraph Office for irregularities; we have always been told by the officials that we have to make our complaint either to Galle or Bombay, as the fault was never with them, threatening to stop all our Messages if we did not pay for those that either we were over-charged for or they came in an unintelligible language.

We have not tried the Electric Telegraph much of late, because of the unsatisfactoriness of the working of it. Above is a note of our latest Messages and their result.

We have had frequent cause of complaint regarding our Messages from Saugor and Galle, those from the latter Station being frequently twenty-four hours and more behind the last of the public news. We have also had to complain that the rule which provides for private Messages being sent off in the order in which they are tendered is apparently little regarded in the Galle Office, and our experience of correspondence with the Department for redress of grievances (even when made in the most specific form) is most unsatisfactory. The compulsory insertion in a telegram of the date and hour at which it was despatched would, we think, be a practical benefit, and be generally acceptable even if adding slightly to the cost of the same.

We receive Messages from Bombay on arrival of every Mail, which occupy three or four days in reaching us, besides receiving and sending Messages from and to Bombay and other places very often. With one or two exceptions they never have reached their destination at the time they should have done so, and sometimes Messages that have been sent have never reached at all. We complained at first, but never got any satisfaction, and of late have kept no record.

WITH reference to my letter of the 7th August, I have now the honor to annex a Return of Telegraphic Messages received and despatched during the month of August, as furnished to me by three Establishments---two of them Houses of Business, the third a Joint Stock Bank.

From LIEUTENANT-COLONEL C. DOUGLAS, Officiating Director General of Telegraphs in India, to W. GREY, Esq., Secretary to the Government of India, Home Department, —(dated the 9th November 1861.)

REPLYING to your No. 1800 of the 28th September last, forwarding copies of communications from the Chambers of Commerce at Calcutta, Madras, and Bombay, and requesting my opinion on the propositions contained in them for the general improvement of the Department, and whether I consider there is any line which could, as an experimental measure, be conveniently entrusted to a private Company.

2. In the letter from the Calcutta Chamber there is no definite proposition made. The allusion to the indifferent working, which the Chamber anticipate will continue so long as a single wire is the only means of communication, points to the desirability of employing a greater number. I have already alluded to the advantages to be derived from a second line to Bombay in my No. 1526 of 12th September 1861, and the earliest opportunity will be taken on the arrival of the new insulators, which it is understood are on their way from England, to report upon their efficiency or otherwise for insulating a double set of wires in the same supports in view to the sanction of Government being obtained to the employment of an additional wire on the Bombay Line.

3. The Calcutta Chamber attribute the "gross errors which so frequently occur in the Messages" to the employment of Natives and Eurasians. From the evidence of the Complaint Office, I do not consider that gross errors are frequent when compared with the number of Messages transmitted, which during the past official year were 2,40,451 exclusive of those on Departmental service. The complaints regarding errors only, during the same period, were 139, and this, although any obstacles that may have been supposed by the Public to exist to redress in such matters, may fairly be considered to have been removed since the establishment of the General Complaint Office in 1860, and which was in efficient operation during the entire period alluded to by the Chamber. In justice to the Signallers I must remark that, in consequence of the absence of insulation, and the difficulties resulting from the great distances between contiguous Offices, communication is sometimes only possible with Signallers skilled to recognize a word from two or three of its letters, and in this way correspondence has frequently to be carried on during the rains. Of course, this is only possible with the best Signallers.

4. Among the complaints in the extract from the opinions of the leading Merchants of Calcutta, brought prominently forward as examples, I notice that four refer to the changing of figures, and are as follows: —

| | | |
|---|---|---|
| Thirtieth | for | Thirteenth. |
| Hundreds | „ | Thousands. |
| Five | „ | Four. |
| One thousand | „ | Two thousand. |

The liability of the Telegraph to mistakes of this nature is pointed out in Clause XVI. of the Rules

of the Department, and the means suggested to lessen the risk of errors in this particular are laid down for the guidance of senders of Messages, and where the recommendations there given have been acted upon, I have never known a single instance of error. The European public, although well aware that repetition is desirable for the correct transmission of numbers, persistently neglect the inexpensive insurance obtained by this method, or by giving the doubles or the halves, and I can only ascribe this to some such reason as that lately given to me by the Manager of a local Bank in conversation with reference to an error in numbers which had caused loss and inconvenience. It was to this effect: That so few errors occurred in their unrepeated Messages that they did not think it worth their while to pay for repetition. The only remedy for this state of things is for the Department, in justice to itself, to do what its customers decline doing, and to make it a rule that in all cases of proper names, numbers or words used in the abstract and without connection, and where no aid is consequently afforded by the context to the detection of error, that repetition of such words be given by the Department without charge. Some such rule is indispensable if the Department is to be held responsible for the refund of all Messages in which errors are made. The Chamber allude with reference to errors to the "mistaken policy" of employing Natives and Eurasians. Without importing lads from England, Natives and Eurasians must be employed. The mass of our Signallers are Eurasians, the sons of persons in humble circumstances, and doubtless many errors may be attributed to the limited education of these classes from which alone, as a rule, the Signalling Branch of the Department has hitherto been recruited. Assuming that there is no intention of importing lads from England, I believe that a larger introduction of Native Signallers would be an advantage. The recent experience of the Barrackpore Training School has shown that the Natives, who have presented themselves for admittance into the Department, possess, as a rule, a better knowledge of English than the class of Eurasians who usually seek employment in the Telegraph. Although the pay of the former on the scale lately introduced is only half that of the latter class, it has been found sufficient to obtain for the Barrackpore School all the Native Probationers that were required.

4. I consider the chief cause of error to be the youth of the mass of the Signalling portion of the Department, a consequence of the rapid extension of the lines, and perhaps to carelessness resulting from dissatisfaction on the part of those employed, and consequent frequent resignations. I attribute this feeling to the late short-handed condition of the Department which led to excessive work, and also to the knowledge of the Signallers that, under such circumstances, their services could not be dispensed with. This knowledge led to insubordination, and its natural result, dismissal. Another cause of error is doubtless that to which I have before alluded, *viz.*, the defective education of the classes from which the Signalling ranks are filled.

5. The number of lads that have been trained during the past season, by increasing the strength of the Offices, has rendered it possible to dismiss insubordinate Signallers, and as every Signaller now dismissed is debarred by Departmental orders from re-entering the Department, there is now more hesitation in leaving than was formerly the case.

6. Something may, however, be attributed to the method of receiving Messages by sound. Under circumstances otherwise similar, I am inclined to the opinion that receiving by sound admits of at least equal accuracy to that of receiving by sight, but in the former, if a Signaller mistakes a word or hesitates as to its meaning while thinking what word should be put down, several others immediately following, as well as the word on which the doubt arose, will escape his attention, and will be put down inaccurately rather than let the course of the Message be interrupted, and this is especially the case when a junior and comparatively unskilled Signaller is receiving from an impatient and smart senior. In receiving by sound it also frequently happens that the Signaller, after receiving the first three or four letters, assumes the idea present in his mind as to what the word will be as correct, and neglects to notice any change in its termination. This is particularly the case with words ending in the plural number, and with such words as "battery," "repeated," "currency," which are liable to be changed into "battalion," "repealed," and "currently," and to any others with similar terminations. There was this great disadvantage in receiving by sight from the original Morse instrument, *viz.* that the signs were not colored as in ordinary writing, but were merely embossed impressions on plain white paper which were at no time very legible, and were frequently almost illegible either from the light being bad, or from its not falling in the required direction, or from the difficulties which the adjustment of the apparatus necessary for the production of clear indentations offered to Signallers: nevertheless, even under these disadvantages, the system of reading from the embossed tape does appear to have secured greater accuracy than receiving by ear, a result ascribable to the circumstance that under the former plan the receiver need not have the capacity of receiving as smartly as the transmitter that of sending, as the Message, on being written down, could be read at leisure. The re-introduction of the system of reading by eye would, I consider, with the present instruments, be impracticable, as I feel convinced that the loud click of the apparatus would have the same effect on the Signaller accustomed to receive by ear who attempted to copy from the tape, as that of a person speaking in the hearing of another writing. The introduction, however, of the new French instruments, the click of the armature of which is nearly inaudible, and by which the Message is written down on paper in a black pigment will, I have reason to hope, lead to greater accuracy than hitherto, and this the more so as our Establishment is so very largely composed of recently admitted and half-trained lads with whom correct receiving by ear is still a matter of difficulty. It must not, however, be supposed that by any system not purely and entirely mechanical error can be entirely avoided. At each Station at which the Messages has of necessity to be repeated, whether it be received by eye or ear, it must be written down in ordinary characters on paper, and errors arise both in this writing down and in the reading of what is written by the Signaller who has the duty of sending it on. A double line would materially contribute to reduce this class of

error by permitting the exclusive use of one line for through Messages only, thereby diminishing the number of repeating Stations, and reducing the proportion of error from the causes just referred to.

7. The Madras Chamber make two propositions:—

1*st*.—"That the date and hour of despatch of a Telegraphic Message be included, if required, free of expense to the sender."

2*nd*.—"That in the case of Messages delivered in an unintelligible shape, a refund be allowed even though the repeating charge may not have been paid."

8. The first proposition is already in force with regard to Service Messages, and I have for some time had a proposal in view to extend the arrangement to private Messages by charging for every word in the address instead of only for certain words as at present, and giving the date free in every instance.

9. Regarding to the second proposal, I consider that the present repetition charge is heavy, and that both it and the night charge might be reduced, the former to 50 per cent, and the latter to 25 per cent upon the ordinary Message instead 100 per cent as they both are at present. If the Government desire, I will offer no objection to the proposal to give refunds for errors on unrepeated Messages being experimentally introduced, limiting the refund to that portion of the Message rendered unintelligible, and to cases in which it is clear that the portion has been rendered worthless by the error. This principle of partial refund on repetition Messages has lately been introduced in consequence of its having been found that persons have not scrupled to claim refund for the whole value of a Message in which a single word only had been erroneously transmitted If the concession in the charge for repetition and night charge above suggested be approved, I think that the proposal to give refunds on other than repeated Messages might, for the present, be held in abeyance.

10. The proposal of the Bombay Chamber has reference to the late frauds in that Presidency. As the recent cases are the first which are known to have occurred since the establishment of the Telegraph in 1855, it does not appear to me desirable to appoint "a secret Committee, under the guidance of an experienced Officer trained in England," in view to bringing the real authors of these frauds to justice, more specially as they appear to be well known, and a want of evidence alone prevented their being brought to trial at the time of Pietall and Allen's conviction.

11. With reference to the concluding paragraph of your letter, the Bengal Chamber are of opinion that "telegraphic communication in India would be worked more satisfactorily and profitably to the Government and the Public if it was entrusted to private enterprize." In no part of the world, with the exception of England and America, are the lines of Telegraph in private hands; and I do not consider that a mixed ownership of the system of lines on the Continent of India would be at all satisfactory either to the proprietors or the public. There are already several lines of Telegraph in private hands, I allude to those of the several Railway Companies which have power to transmit private Messages in all cases where the Government have no co-ordinate lines. Should, however, other private Companies desire to undertake Telegraph management, there is no line which could be so conveniently made over to them as that connecting Calcutta with Rangoon and the local lines in that Province. These lines connecting three very important places of commerce, Calcutta, Akyab, and Rangoon, with the advantages of possible extension to the Port of Moulmein appear to hold out every prospect of being remunerative, and the fact of the Telegraph Lines in Pegu being very largely used in official correspondence, owing to the tardiness of Postal communication, offers additional prospect of profit. Should the Government decide on such a transfer, I think it as well to mention that the Offices are being weeded of unfit Signallers, and provided with the best Instruments, and I have little doubt but that by the end of the year both Establishments, Instruments, and Lines will be in good order, and the business of the Lines ready for immediate transfer to a private Company. I may add that a Line on which I have been requested by the Bengal Government to report, *viz*., an extension of the Calcutta and South-Eastern Railway Telegraph from the Port of the Mutlah to the mouth of that River, might also, if decided on, be advantageously transferred to a private Company.

Of the Lines and Offices in India generally some (I may instance those hence to Bombay) are much more than self-supporting. There are others, however, which can expect no business except that derived from the Government. These are Lines established for political objects only, such as that from Lahore to Peshawur. The value of the political services rendered by these Lines may be considered by the Government as an equivalent for their cost, but no returns they are likely to yield at any early date would offer any encouragement to a private Company to be connected with them.

I assume that the reasons which might incline the Government to make over a portion of the Lines to a private Company are, that such an arrangement would secure a more honest and economical administration than it is in the power of the Government to command. I do not believe there are any grounds for expecting either result. The English Telegraphs are not free from the imputation of dishonest trafficking with the news committed to them for transmission, and the history of English Railways and other Joint Stock Associations, both in England and other Countries, I think, proves that while business, if within the compass of a single individual, is as a rule much more economically conducted than it ever could be by Government, there is no reason for believing that where the extent of the business requires the resources of a Company for its management, its administration would, in any respect, be more efficient or more economical than if under the management of the Government.

---

From W. Grey, Esq., Secretary to the Government of India, Home Department, to H. W. I. Wood, Esq., Secretary to Bengal Chamber of Commerce,—(dated the 15th January 1862.)

Sir,—I am directed to acknowledge the receipt of your letter dated the 14th of August last, replying to my communication No. 1168, dated the 12th of June.

2. The Chamber was requested in my letter of June to favor the Government with their general opinion as to the efficiency of the Electric Telegraph for commercial purposes, and to furnish a

Statement of the total number of Messages sent or received during a given period by any Firm or Establishment connected with the Chamber, showing what proportion of them were delivered with reasonable punctuality and correctness, and in what proportion any delay or error occurred so material as to detract from the commercial value of this means of communication. It was intimated also that the Government would be glad to receive any suggestions the Chamber might have to offer for the improvement of the Telegraph.

3. The Chamber, it is presumed, has been unable to furnish the Statement of Messages which the Government asked for, as no such Statement accompanied your letter, or has been received since.

4. The Committee of the Chamber, in reply to the request for their general opinion as to the efficiency of the Telegraph Department, state that they consider the Department deficient in despatch and accuracy, though, they add, they can only speak practically as regards the latter. In support of their view on that point, extracts from the opinions of several leading Merchants of Calcutta are submitted with your letter.

5. The Committee observe that they believe the unsatisfactory working of the Department to be owing to "defective construction and bad organization," and they express an opinion that if the construction had been entrusted to persons conversant with the European system, and not to mere theorists, "the chief defects now evident would have been avoided." The defects of construction here alluded to are not specified in your letter. It is urged, however, and perhaps this is meant as an instance of defective construction, that neither correctness nor despatch can be expected when the means of transmission are limited to a single wire.

6. With regard to the organization of the Department, the Committee comment on "the mistaken policy on the part of the Authorities who, for economical reasons, have thought proper to employ on low salaries as Signallers and Copyists persons chiefly Natives and Eurasians, whose want of education and proper training renders them unfit for the appointments which they hold." The Committee add that they have also been informed that the Inspectors are not sufficiently numerous to keep up an efficient supervision of the lines.

7. Lastly, the Committee state their opinion that "Telegraphic communication in India would be worked more satisfactorily and profitably to the Government and the Public, if it were entrusted to private enterprise, for which capital could readily be found in England."

8. Your letter and its enclosure, as well as the replies received from the Madras and Bombay Chambers of Commerce to a similar communication addressed to them by Government on the same date as that abovementioned to the Bengal Chamber of Commerce, have been communicated to the Director General of Telegraphs, and that Officer has furnished a Report on the subject, a copy of which and of the replies received from the Chambers of Commerce at Madras and Bombay I am directed to transmit for the information of the Chamber, and at the same time to communicate the conclusions of the Governor General in Council on the several points discussed in the correspondence.

9. It has for some time been in contemplation to put up a second wire on the line between Calcutta and Bombay, but the Governor General in Council is quite prepared to sanction the construction of an independent Telegraph on that line (which of all others presents the most likely prospect of a remunerative business) by a private Company if any persons are willing to undertake it. Six months, it is presumed, is sufficient time to allow for the formation of such a Company, and if within that time measures are seriously taken for effecting the object in view by private enterprise, the Government will abstain from putting up a second wire, and will promise not to compete with any private line in that direction by reducing below the present rates,—or below the rates adopted by the Company if they should be lower than the present rates,—the charge made on Messages between Calcutta and Bombay, or between any two places at which Offices connected with the private line may be established.

10. It must be understood, however, that the license to be granted for the erection of a private line of Telegraph between Calcutta and Bombay would include a condition enabling the Government, whenever necessary, to claim priority of transmission for all public Messages at the same rate of payment as that charged to the public generally. Subject to this condition, there would be no objection made by the Government to the construction of private lines of Telegraph in any direction from one part of India to another.

11. The Governor General in Council is not prepared to make over to any private Company or individual any Government line of Telegraph already existing or projected, because he thinks it of the greatest importance that at least one medium of Telegraphic communication between all the most important places in India should be in the hands of the Government, and entirely under the control of its own Officers. His Excellency in Council thinks too, adverting to the suggestion made by Colonel Douglas in the 11th paragraph of his letter, that it would be inconvenient to make over either the Hooghly or the Mutlah River lines to a private Company, as these lines are chiefly occupied with Messages relating to the business of the Port. Should it be thought, however, that, exclusive of this business, there is sufficient correspondence to occupy a second line, there will of course be no objection to the construction of such a line by a private Company.

12. With regard to the employment of a different class of Signallers on the Government lines, and especially with regard to the substitution of European for Eurasian and Native agency, I am directed to call the attention of the Chamber to the remarks made by the Director General in paragraphs 5 to 6 of his letter, and to observe that, while it is impossible without reckless extravagance, and an entire disregard for the fair claims of all classes to public employment for which they are qualified, to substitute Europeans for Eurasians and Natives as Signallers in all parts of the country, it is also certain that, for the mere business of signalling, Natives of India are as apt as any other class, and that under proper supervision they perform the duty as well as Europeans. For the higher situations in the Department, it has been and will continue to be the

object of the Government to avail itself of European agency as far as possible, and the Director General will be authorized to employ trained European Signallers in the principal Offices, where the extent and nature of the business require the presence of men of higher education, and possessing other qualities in which, generally speaking, the Natives of India are found to be deficient. Natives are largely employed as Signallers on the Railway Telegraphs, and it is certain that no private Company could hope to make a line of Electric Telegraph in India profitable as a commercial enterprise if it were to employ European Signallers exclusively, or even to any great extent.

13. The training of Signallers in India, so as to secure a constant supply of qualified persons, is an object which has engaged the careful attention both of Colonel Douglas and his predecessor, and it is one of which the importance, I am instructed to state, will not at any time be lost sight of. It may be confidently expected that as the supply of qualified Native probationers becomes fully equal to the great and increasing demand for their services, a result which the present rates of pay and prospects of promotion seem likely soon to accomplish, instances of inaccuracy and want of despatch, so far as they are attributable to defective agency, though impossible under any circumstances entirely to prevent, will be reduced to a minimum.

14. The Chamber will observe from the 3rd paragraph of Colonel Douglas's report that the absence of insulation of the wires is referred to as one of the difficulties to be contended with in India in the correct transmission of Messages. The question of insulation, I am directed to state, will be brought to a practical test, as soon as the new insulators now expected from England arrive.

15. The Governor General in Council is desirous that it should be brought prominently to the notice of the Chamber that it is almost exclusively in the case of unrepeated Messages that any cause of complaint arises, and that where repetition is resorted to mistakes do not occur. His Excellency in Council has now resolved, in accordance with the suggestion made by the Madras Chamber of Commerce, to allow refunds on unrepeated Messages on the same conditions as those on which refunds are given in the case of repeated Messages, with the further proviso that no refund will be given for any error in an unrepeated Message arising from wrong figures being given, unless the precaution advised in the 16th No.* of the Telegraph Rules shall have been adopted.

* The errors which chiefly occur are in the numerals, such as *sixteen sixty*, *thirteen thirty*, owing to the sound and first three or four letters being similar. To obviate this, it is recommended that in all financial or money messages the sum be given in two forms halving or doubling the amount, thus, "Pay to my order Rs. 500 or half 1,000." When this is done, an error is of very rare occurrence

16. With reference to the suggestion contained in the 9th paragraph of the Director-General's letter, that the repetition charge should be reduced from 100 per cent to 50 per cent. extra, I am to observe that this reduction has been already carried out, repetition being now charged for at half price only, or 50 per cent. extra The Governor General in Council sees no sufficient reason for reducing the night charge, which is also suggested by Colonel Douglas in paragraph 9 of his report, this charge being made on a wholly different principle from that on which the repetition charge rests.

17. In modification of the proposal made by the Madras Chamber of Commerce, the date and hour of despatch *from the Telegraph Office* will in future be inserted on every Message, free of expense to the sender, without any alteration in the present mode of charging for the address. The senders may still continue to date their Messages if they please, but the sender's date, if inserted, will be charged for as at present.

18. On the whole, the Governor General in Council thinks it must be admitted by the Chamber, that, considering the disadvantages under which the Indian Telegraph labors, especially the difficulty of obtaining a sufficient and constant supply of properly trained and qualified Signallers, and the system of non-insulation* which has been bequeathed to it under a belief that insulation in India was practically unattainable, its general efficiency, as the Madras Chamber of Commerce observes, is favorable. Out of 2,40,451 Messages conveyed in 1860-61, only one hundred and thirty-nine (139) were complained of as erroneous, a proportion which is ·0575 per cent., or little more than ½ per thousand; while of the Commercial Messages delivered in Bombay during April and May last 92 per cent. were received with reasonable punctuality and correctness, 5½ per cent. with important errors or delays, and only 2½ per cent. so delayed or mutilated as to be useless. And the statement furnished from Madras of Commercial Messages received at and despatched from that place during August last is, it will be seen, even more favorable. The Governor General in Council by no means concludes that 139 represents the real number of Messages in which mistakes occurred in 1860-61; but seeing that the Rules of the Department allow of refunds for repeated Messages delivered in an unintelligible state, and for all Messages in case of non-delivery or unjustifiable delay it can hardly be denied that the proportion of complaints to the number of messages despatched does afford some criterion of the general efficiency of the Department. The statements regarding the commercial Messages delivered in Bombay during April and May, and those received at and despatched from Madras during August, I am to observe, are derived from the Returns which the Bombay and Madras Chambers of Commerce have been good enough to furnish in compliance with the request contained in my Circular letter of the 12th of June last, and the testimony which they afford therefore to the fair efficiency of the Department cannot be doubted.

19. It is, however, freely and fully admitted by His Excellency in Council that there is great room for improvement, and that instances of Messages delayed, mis-delivered, and inaccurately or unintelligibly rendered, are of much more frequent occurrence than they ought to be. The Establishment has been recently re-organized and placed on a better footing as regards pay and promotion,* and the Government relies upon Colonel Douglas and the higher Officers of the Department to use

the utmost care and vigilance in preventing mistakes, to investigate thoroughly every complaint, to visit every instance of proved neglect with suitable punishment, and to endeavour unremittingly to make the Telegraph thoroughly efficient by promptly remedying such defects as can be corrected with the means at their disposal, and by suggesting to Government all other practicable measures required for the purpose.

Extract from a letter from LIEUTENANT-COLONEL C. DOUGLAS, Officiating Director General of Telegraphs in India, dated 3rd December 1861.

I WOULD wish to say a word here on the subject of imperfect communication and its causes. By imperfect communication is meant that owing either to the absence of insulation, or defective insulation, or to unfavourable weather, or, in the case of lines well insulated, to deposits of moisture on the insulating surfaces resulting from an excessively damp state of the atmosphere, a loss of the electric current occurs, and it is found impossible to send to the distant station a current of strength sufficient to affect the receiving instruments there with that certainty necessary for uninterrupted correspondence. In such cases, some of the dots and bars composing our letters, as it were, drop out, and the word of which they form a part is rendered unintelligible, or it may occur that from the same cause a letter becomes split up into two, producing similar confusion.

From the above it will be seen that imperfect communication is not limited to uninsulated lines; it may occur under certain circumstances of weather with those lines that are provided with even the best known means of insulation. In densely populated countries where the distances between Telegraph Offices are short, this difficulty is overcome by employing large battery power, but over the enormous spans of the lines in India it is practically and theoretically demonstrable that no amount of battery power would be sufficient, under the circumstances I have mentioned, to force a current sufficiently strong for effectively working any instruments hitherto practically employed for Telegraph purpose.

The following Extracts from "Prescott's Theory and Practice of the Electric Telegraph," published in America in 1860, will illustrate the facts I have just stated :—

*Extract No.* 1.—"Upon a long telegraphic circuit there is a constant tendency for the current upon the line to pass off into the earth, this passage of the current into the earth we call "Escape." There are no lines in the world, probably, certainly none in the United States, whose insulation is so perfect as not to be more or less affected by this Escape. It is much greater during wet weather; but all lines are more or less affected at all times."

*Extract No.* 2.—"During very wet weather, however, unless the line be very well insulated, a great portion of the current escapes; and it sometimes happens that a battery of fifty cups of Grove can scarcely affect the armature of a sensitive electro-magnet at a distance of even one hundred miles, the remainder of the current escaping, a little at each pole, during this entire length of line."

*Extract No.* 3.—"It does not matter how perfect our apparatus is in other respects; if the insulation is defective, it is a constant source of annoyance, and causes, oftentimes, great loss of business. Much can be done by increasing the power of the the batteries, and by distributing them along the line; still the disagreeable fact ought not to be withheld, that in rainy or foggy weather not one of our telegraph lines in this country is reliable, or, if they work at all, it is only from one short Station to another, and that with much difficulty. But this is also the case in England, France, Germany, in a word, in every country where the Electric Telegraph has been introduced."

"*Extract No.* 4.—"Our principal lines work very well during dry weather, when in fact scarcely any insulation beyond the dry poles is needed; but let a shower even come up, and all the wires are seriously affected by escape."

"It is not an unfrequent occurrence during the rainy season, for all communication between the important cities of New York and Boston by the wires to be suspended, notwithstanding there are no less then eight direct lines extending between the two places."

The above Extracts will, I doubt not, be considered as authorizing the expectation that imperfect communication during severe rainy weather is a sufficient explanation of the bad working of our uninsulated Indian lines which has been so frequently a cause of complaint during the past rainy season.

*Notification.*—The Reverend Arthur Irwin, Assistant Chaplain of Muttra, reported his departure from India on the 17th instant, on the leave granted to him by the Government of the North Western Provinces under date the 4th ultimo.

### Contracts for repairs of Government Buildings and all ordinary Public Works.

From LIEUTENANT-COLONEL J. P. BEADLE, Officiating Chief Engineer, Bengal, to the Superintending Engineers, —(Fort William, the 22nd January 1862.)

SIR,—UNDER instructions from Government, I have the honor to request that arrangements may be made for introducing a system of Contracts for executing the repairs of all Government Buildings and all ordinary Public Works at and near to the principal Stations of your Circle.

In order to promote this scheme, I request that you will select the Stations at which you think Contractors would be likely to come forward, and where afterwards, if not at first, there would be a competition sufficient to secure the system working well.

It will be expedient to frame the Contracts on the basis of Schedule rates, and the Agreements might be made for one year certain; leaving it optional with the Contractors to continue the Contracts at the same Schedule rates for an additional period of one or two years.

The Contracts to be first made should take effect from the 1st May 1862.

2. After determining the Stations, the first steps will be for the Executive Engineer to prepare a correct list of all the several descriptions of work that may possibly be required in the repairs of buildings and in the construction of ordinary works, affixing to the items the fair local rate for each description of work.

A corresponding Specification of each description of work should be prepared.

A Statement should also be prepared, shewing, as near as can be estimated, the quantity of work of each description annually required. This Statement would be for information only, and not as binding the Government in any way.

3. Tenders should then be invited in the most public manner possible, advantage being taken of the Presidency and local papers, notices being also affixed in the most public places of the several Stations; copies of the Schedule of works and of the Specifications should be open to inspection at the Offices of the Chief Engineer, of the Superintending Engineer, and of the Executive Engineers, for at least one month before the date for receiving Tenders, which should not be later than the 1st of April next.

4. Tenders should state the rate per cent. at which Contractors may be willing to undertake the work either above or below the Executive Engineer's Schedule, taken as a whole; separate rates per cent. will not be allowed for separate items of work.

It will be discretional for Superintending Engineers to separate the items of the Schedule, and to call for two or more separate Tenders for any one Station and the vicinity, say within a circle of nine miles. Superintending Engineers are requested, at as early a date as practicable, to report to the Chief Engineer the maximum rate at which they recommend that Tenders should be accepted. Upon this report orders will be communicated, and within the amount so fixed, the lowest Tender might be accepted by the Superintending Engineer without further reference.

5. As one of the conditions, adequate security should be required for faithful performance of Contracts, payments for work done might be made on half-monthly Bills, to be paid within one week. Certain limits might be fixed, ruling the maximum quantity of work of each kind which the Contractor can be called upon to execute within a

given time, and also the minimum rate of progress to be made. The Superintending Engineer's decision on all points should be final.

6. The satisfactory introduction of this system will depend mostly upon Departmental Officers being fully up to their work, so as to be able to specify it with accuracy, and to give proper working drawings when required.

Much also will depend on the Departmental Officers laying out the works accurately, and measuring the works in progress with regularity.

The goodness of the materials, and of the work, will depend entirely upon their practical knowledge and vigilance—their responsibilities will not be lessened, but, in the matter of Accounts, the work and troubles of the Department should be very much diminished.

7. The introduction of the Contract system will stimulate industry and steady enterprise, and afford an opening to experienced practical men. The Government desires very much to see the plan, herein sketched out, well on foot, and its progress and development will be watched with interest.

## Establishment Charges.

From LIEUTENANT-COLONEL H. YULE, Secretary to the Government of India, Public Works Department, to MAJOR CURRETY, Officiating Inspector General of Accounts and Member of the Civil Finance Commission,—(dated Fort William, the 14th January 1862.)

SIR,—UNDER arrangements made in this Department with the sanction of His Excellency the Governor General in Council, you are about to proceed to visit and inspect the Account Offices of Nagpoor and Oudh.

2. But it appears to the Governor General in Council that your official visit should extend to the Punjab and to the North-Western Provinces, and that the scope of it should go beyond that of a mere inspection of the Offices of Account, and should embrace the discussion with the Local Officers of certain subjects of moment, which have lately, as you are aware, been much before the Government of India in this Department, chiefly relating to the heavy charges for Establishment in several of the Provinces.

3. You were selected as a Member of the Civil Finance Commission during the occupation of that body in the special investigation of this matter; and it is understood that the Report of the Commission on the subject will soon be submitted to Government. Such additional orders as may be necessary on that Report will follow you; but as your journey should not be longer delayed, I am now directed by the Governor General in Council to communicate to you the following remarks and instructions, of which a copy will be sent to the various Governments concerned.

4. In Public Works Department letter to the Punjab, No. 2301 of the 29th June 1861, on the subject of the heavy Establishment charges in that Province, it was pointed out that it had cost nearly 5¼ annas to spend a Rupee during 1859-60, and that according to the Estimates it would cost 4¾ annas to spend a Rupee during 1860-61.

5. This way of putting the matter was adopted as apt and impressive for the purpose, and having a great amount of general truth. But it is admitted that the question is not a simple one, and that the percentage of our Establishments to our expenditure is not by any means closely analogous, as is often assumed, to the percentage of the cost of collecting a tax on the proceeds of the tax.

6. As long as the *Executive* Establishment alone is in question, it is difficult to draw a very sharp line between the man who does work and the man who supervises it. The mason and the digger there is no question about; they handle the trowel and the spade. The cost of their labour is the cost of *work*. But the man who handles the level and theodolite, who lays out a road or a bridge, and sees that its execution is accurate, comes under the head of *Establishment*.

7. Again, our Establishment charges embrace a good many items of expenditure which have little in common except their consisting in a monthly issue of pay. Parties employed on surveys or the projection of works come under the head of *Establishment*, but the cost of such operations has only a very remote relation, if any, to the whole cost of work done in the Province. And even where the whole duty of an Establishment is not of this character, a part of its duty may be so, as almost every Executive Officer will to some extent be employed in the survey and projection of new works, and so far the apparent percentage charge upon the *work* done will be unduly enhanced.

8. So also, Establishments maintained at ferries and boat bridges, in watching canals, locks and embankments, and even the Revenue Establishments of our Irrigation Canals in Upper India, though the latter have been distinguished in a sub-heading, have been lumped in the Budge item of *Establishments*.

9. Not long since, in consequence of certain circumstances which were brought to the notice of Government by the Secretary in this Department, the Government of Bengal was strongly urged to maintain a responsible and intelligent subordinate at each of the unbridged rivers on the Grand Trunk Road, to whom all travellers and carriers could look and apply as answerable for the convenient maintenance of the arrangements for crossing. The charge for these Subordinates will probably swell the percentage of Establishments in Bengal. But it has no relation to the amount of money spent on works in Bengal. It is a charge debitable to the comfort of travellers and the convenience and despatch of traffic. And a proportion of the pay of the Engineers over those Subordinates is doubtless justly due to the same.

10. There is a great deficiency of data for comparison of our Establishments with those of any similar body. There appear to be no English data that will have apt application, because the universal existence of contract and of professed Builders and Contractors affects the whole basis of comparison.

11. Further, in this country manual labour which makes the cost of *works*, is cheap; intelligent labour, which makes the cost of much of the Establishment, is dear. This tends to heighten

12. These remarks are made in order that it may not be thought that the real difficulties of the subject are overlooked. The Governor General in Council is aware that a hasty judgment, disregarding facts of this kind, would not tend to promote a durable reform.

13. And in this complex state of things it is difficult to lay down a rigid standard to which the percentage charge of Establishments should be brought, though obviously the comparatively low standard at which the charge has been kept in some Provinces marks a level to which the Government would aim to bring down all.

14. But to take up the matter effectively the whole of the facts must be brought forward. This is not so at present. There is known to be in some Provinces a considerable amount of Establishment charged directly to the works, and which does not appear in the Departmental Budgets and Progress Reports, not being paid on separate Establishment Bills. Rules to remedy this were proposed some time ago in this Department, and have lately been received back from the Financial Department (whose approval was necessary) and issued, these will enable the matter to be dealt with in its real dimensions. But the first result will be to swell the magnitude of the apparent charges.

15. The natural tendency of Establishments to grow beyond just bounds must be met by a minute and critical review of the details of charge in each Province periodically repeated. But there are two prominent and definable causes of the heavy amount of these charges to which the Governor General in Council desires most earnestly to draw the attention of the Local Governments.

16. One is the diffused character of the expenditure.

Where a number of petty works and repairs, spread over a wide extent of country, form so considerable a part of the work of the Department, the proportionate cost of Establishments must be large. In the Resolution of Government in this Department on the Budgets of the current year (paragraph 22), it was pointed out specially for the consideration of the Local Governments whether a much larger amount of work of various kinds not requiring engineering skill might not with advantage be left in the hands of Local Officers. This had already been done with complete success and considerable saving in the case of the Frontier posts of the Punjab. But the general suggestion has borne very little fruit, and it appears necessary to press it by personal conference, discussion of the localities where such remedies are applicable, and indication of specific tracts and places for their application.

17. But this diffusion of small jobs is not that to which the Governor General in Council more particularly alludes in the present remarks. He refers to the larger operations, the making of roads and bridges, and larger public buildings.

18. In railway making, the more rapid progress of which is frequently quoted to the disparagement of this Department, the system followed in the assignment of funds is, briefly stated, this:—that there is a certain work to be done, and that all that can be properly spent in getting it done may be spent upon it at once. There is no other limit to the money to be supplied than the limit of work that can be done in the year. The result is, of course, that there is great and palpable progress, and that it is possible to keep Establishment charges at a comparatively low percentage.

19. In the departmental assignments to the different Provinces there is, on the other hand, an absolute limit to the money, and one soon reached. The whole amount for the Lower Provinces of Bengal to be spent on hundreds of works and innumerable repairs is not a fourth of that to be spent during the same year on the Railways in those Provinces alone.

20. Still the same principle should be followed as far as possible. Fewer works should be taken up at a time, and all spent on them that can be properly spent, until they are got out of hand and added permanently to the available resources of the country. Contrary to this, it seems to the Governor General in Council that the Local Governments are too prone to assign a lakh here, and a half or a quarter lakh there, with an Executive Officer to each assignment. Of course, then, there is little progress and a heavy charge for Establishments. In fact the Establishments, to a certain extent, grow in inverse ratio to the amount of finished and available work resulting.

21. In the earlier years of the Ganges Canal, when the heavier works of that project were going on, funds were supplied much in the same way as has been stated above to be the practice with regard to Railways. And the result of this concentration of expenditure was as good progress as on any Railway, with Establishment charges kept very low.

22. Some diffusion of work cannot be altogether avoided over so vast a country, in which so many things have to be done at the charge of the Imperial Treasury; and the temptations to the various Governments to give way to local calls are very strong, and sometimes cannot be resisted. Yet the Governor General in Council is satisfied from all that he sees of the work of the Department that this principle of the concentration of resources, often as it has been impressed of late years, is very far indeed from being sufficiently attended to; and he feels that he cannot enforce it too earnestly or too persistently.

23. Deficient attention to this is one of the causes which leads to another mischief. The limit of the Budget assignment is often not worked up to, even by Governments which have remonstrated strongly against that limit as too narrow. This is a two-fold evil. Not only is some other Province, which would have gladly and beneficially availed itself of this margin of credit, deprived of this advantage, but whilst less work is done than was proposed and expected, the Establishments scarcely ever fail to be maintained to the full pitch, and the percentage of Establishment charges thus swells beyond even the liberal bounds of the Budget programme. There would be much less liability to such miscalculations were the work and expenditure more concentrated.

24. The other point referred to by the Governor General in Council, as tending to maintain costly Establishments, is the comparative rarity of work by contract.

The general Establishment of the execution of work by contract would have advantages beyond the reduction of Establishments which it should facilitate.

given time, and also the minimum rate of progress to be made. The Superintending Engineer's decision on all points should be final.

6. The satisfactory introduction of this system will depend mostly upon Departmental Officers being fully up to their work, so as to be able to specify it with accuracy, and to give proper working drawings when required.

Much also will depend on the Departmental Officers laying out the works accurately, and measuring the works in progress with regularity.

There would be much less liability to such miscalculations were the work and expenditure more concentrated.

24. The other point referred to by the Governor General in Council, as tending to maintain costly Establishments, is the comparative rarity of work by contract.

The general Establishment of the execution of work by contract would have advantages beyond the reduction of Establishments which it should facilitate.

25. The old system of working in this Presidency had some considerable advantages to Government. An estimate was sanctioned at such and such rates. The Executive Engineer carried out the work and sent in his bill for so much work done at such and such rates. If he exceeded the estimate, he had great difficulty in getting his bills passed and in some instances the theory that he was liable for the excess was enforced in practice. Thus he was a Contractor whether he would or no, and without profit. This made it a simple matter to deal with charges in general, but it was an unjust and demoralizing system.

26. Our present system of accounts is in theory as good as we are likely to get and is improving in practice. But it is cumbrous, and would become unmanageably so with any *great* extension of the work of the Department beyond its present development. The more general and extensive use of contract appears to be essential to any such great extension. Contract would also render it more easy to restrict the scope for that peculation among subordinates which is undoubtedly very prevalent.

27. A system of contract cannot be forced into existence, but something can be done towards its introduction by promoting the invitation of tenders on certain specified works of considerable extent, such as lines of road or large bridges. Undoubtedly the prices will be high, probably at first *much* higher than the work of the Department itself would cost; and this may induce reluctance in Officers who take a just pride in keeping down the rates of their work from heartily promoting it. But these high prices must be encountered, if necessary, for an object so important. As Contractors multiply and competition arises, the rates will sink to a proper level.

It may also be possible in certain localities to obtain Tenders for annual contracts for the execution of repairs of every kinds Indeed, this is already done at some Stations. Means should be taken to extend the practice.

28. The remarks made in the preceding paragraphs bear directly on the instructions which I am to convey to you.

In your visit to each Province you will, after reporting your arrival for the information of the Lieutenant-Governor or Chief Commissioner, and soliciting any special instructions that he may desire to give you, go thoroughly into the matter of Establishments in conference with the Chief Engineer and the Local Head of the Accounts Department, classifying and analyzing the Establishment Lists, and the duties of each individual, with reference both to the amount of expenditure and to other pertinent circumstances. You will also discuss personally and with reference to specific localities how far Establishments may be reduced by entrusting minor scattered works to the Civil Officers, or by similar remedies. You will ascertain how far, on what system, and with what success use is made of contract at present, and consider with the Chief Engineer on what specific works of magnitude it would be most advisable to seek for Tenders. And you will with the Local Officers review the expenditure in each Province in relation to that principle of more concentrated effort to which the Governor General in Council attaches so much importance.

29. During all your inquiries you will act in association and conference with the Local Officers, and you will endeavour to make such proposals as secure their assent. But your report to the Government of India will be your own and not a joint report. The Governor General in Council is aware that the attention of several of the Local Governments has been directed to the objects of this inquiry; he believes that your visit with these instructions from the Government of India will strengthen their hands in carrying them out; and he knows that after this distinct expression of the views and objects of the Governor General in Council, you will find hearty co-operation from the Officers of every Local Government.

30. You will draw up and submit your report in regard to each Province as soon as possible after your visit to it is completed.

Fort William, Foreign Department.

GENERAL.

## RESOLUTION.

THE 31ST JANUARY 1862.

THE Governor General in Council has long felt the necessity for establishing, in the Burmese Provinces of British India, a central Administration, vested with ample power, subject to the general authority of the Government of India, to direct the affairs of those Provinces on a generally uniform system; to control the public expenditure in all Departments; to exercise a close and watchful supervision over the proceedings of the Local Officers of every class, and to devise such measures as may be best calculated to promote the material welfare and moral advancement of the people.

Hitherto these Provinces have been administered separately by three Commissioners independent of each other and subject to no local head. Two of them (Pegu and Tenasserim) are now in direct subordination to the Government of India, while the third (Arracan) formed, till recently, a portion of the Lieutenant-Governorship of Bengal.

They are all Non-Regulation Provinces. Their revenue system is in principle essentially the same. It is founded on the system which prevailed under the Burmese Government, and the modifications adopted in each Province, from time to time since it came under British Rule, are due less to any variety in the conditions of the three Provinces than to the differing views of the Authorities by whom they have been successively administered, subject to no general and comprehensive review by one common authority. Almost the whole population, except at the principal Seaport Towns, either are Burmese, or belong to some other branch of the Indo-Chinese family, having no affinity with the inhabitants of Bengal. They have many characteristics in common, are accustomed to intercourse with each other, and together form a group of races sufficiently homogeneous to mark the propriety of combining them under one rule.

### LEGISLATIVE.

THE following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 29th January 1862, and was referred to a Select Committee, who will make a report thereon after the 1st of May next:—

*A Bill for securing certain grants of immoveable property made by the State.*

Preamble.

WHEREAS it is expedient and proper that grants of immoveable property made for services rendered to the State, or for the support of any Title, Office, or Dignity conferred by the State, should be applied to the purpose for which the grant shall have been made, and that the property so granted should not be liable to be diverted from such purpose; It is enacted as follows:—

Governor-General in Council may declare State Grants to be held on certain conditions.

I. Whenever any grant of immoveable property shall be made as above to any person as a reward for services rendered to the State, or to accompany or support any Title, Office, or Dignity conferred by the State, it shall be lawful for the Governor-General of India in Council to declare, *first*, that no assignment, agreement, sale, security, or alienation of any kind of or in respect of such property or of any future interest therein shall be made by the grantee or by any person to whom such property shall descend under the limitations of such grant (save and except leases for any period not exceeding seven years or for any further period terminable with the life of the lessor), and that all such assignments, agreements, sales, securities, and alienations, save and except such leases as aforesaid, shall be null and void; *secondly*, that the property so granted shall be exempt from seizure, attachment, or sequestration by process of any Court of Civil Judicature, and from sale under any process in execution of any decree or order of any such Court; and, *thirdly*, in what manner and subject to what limitations the property so granted shall, after the death of the grantee, descend in his family, namely, whether according to the ordinary law of inheritance applicable to the grantee or to the rule of primogeniture or otherwise; or to make any one or more of such declarations. Any such declaration shall be valid and effectual, and the property in respect of which it is made shall thereupon be held and enjoyed, subject to such declaration and in accordance with the terms thereof.

Provision for a similar declaration respecting grants already made.

II. It shall be lawful for the Governor-General of India in Council, with the consent of the proprietor or proprietors at the time of any immoveable property which shall have been granted to any person before the passing of this Act for service rendered to the State, or to support any Title, Office, or Dignity conferred by the State, and which shall continue the property of the grantee or of any descendant of the grantee, to whom the property shall have descended under the limitations of the grant, to make any one or more of such declarations as aforesaid in respect of such property, and the reupon such declaration shall, from the date thereof, have the same force and effect in respect of the property to which it applies as a declaration made under the last preceding Section.

Declaration not to affect previous rights of creditors.

III. No such declaration as is provided for in the last preceding Section of this Act shall apply to, or affect any assignment, agreement, order, sale, security, or lien, or any right, title, or interest made, created, or acquired, in respect of any property to which such declaration relates, or any process of any Court of Civil Judicature issued in respect thereto, before the making of such declaration, or the claim of any creditor in respect of any debt personally incurred by the grantee subsequently to the acquisition of the grant, or by any descendant of the grantee to whom the property shall have descended under the limitations of the grant if such debt shall have been incurred before the passing of this Act.

IV. Whenever any creditor or other person shall require execution in respect of any claim or right not barred by declaration under this Act, by the sale of any property in respect of which any such declaration as aforesaid shall have been made, if it shall appear that satisfaction of the claim can be made within a reasonable period otherwise than by a sale of the property, the Court from which such execution is required shall make provision for the satisfaction of the claim in such manner as shall best, instead of proceeding to the sale of the propery.

Mode of satisfaction instead of sale.

V. Any declaration made under this Act shall be registered in the Office of the Collector and in the Office of the Principal Register of Deeds of the District in which the property is situate in books to be kept for the purpose by such Collector and principal Register of Deeds, and shall be published in the Official Gazette.

Declarations to be registered.

THE following Bill was introduced into the Council of the Governor General of India, for the purpose of making Laws and Regulations, on the 29th January 1862, and was referred to a Select Committee, who will make a report thereon after the 1st of May next:—

*A Bill to revive and continue in force for a further period Act XXXIII of* 1857 *(to make further provision relating to Foreigners.)*

WHEREAS it was enacted by Act XXVIII of 1859 that Act XXXIII of 1857 *(to make further provision relating to Foreigners)* should continue in force for two years from the 5th day of December 1859; and whereas it is expedient to revive and continue the said Act for a further period; it is enacted as follows:—

Preamble.

The said Act XXXIII of 1857 shall continue in force for the period of two years from the 5th day of December 1861, and shall be deemed and taken to have had effect as if this Act had actually passed and received the assent of the Governor-General before the expiration of the said Act XXXIII of 1857, as continued in force by the said Act XXVIII of 1859.

Act XXXIII of 1857 revived and continued in force till the 5th December 1863.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill, as its title imports, is to continue in force for a further period the Act of 1857, which was passed to enable the Government to prevent the subjects of Foreign States from residing or sojourning in India, or from passing through or travelling in the same, without the consent of the Government.

The original Act expired on the 5th December 1859, and was renewed for two years by the Act No. XXVIII. of that year. It expired again on the 5th December 1861, and it is now thought by the Governor-General in Council expedient to renew it for a like period of two years, that is, to the 5th December 1863.

In addition to the general reasons which led to the passing of the Act of 1857, and which still to some extent prevail, a special reason for continuing it in force is afforded by the recent Concordat between the Pope and Portugal, under which it is probable that the subjects of Foreign European nations may resort to India in greater numbers, and in positions of greater influence, than heretofore.

No objection has been made to the Act of 1857 as it stands, and it is therefore not proposed to alter any of its provisions, but simply to prolong the time of its operation to the end of next year.

THE following Bill was introduced into the Council of the Governor General of India, for the purpose of making Laws and Regulations, on the 29th January 1862, and was referred to a Select Committee, who will make a report thereon after the 1st of May next:—

*A Bill to provide for a new Silver and a new Copper Coinage.*

WHEREAS it is expedient to provide for a new Silver and a new Copper Coinage; it is enacted as follows:—

Preamble.

I. From the day of so much of the 1st and 2nd Sections of the Act XVII of 1835 *(relating to Gold and Silver Coinage)* as provides that the Silver Coins therein mentioned only shall be coined at the Mints within the territories of the East India Company, and that such Coins shall bear on the reverse the words "The East India Company": and the Acts XXXI of 1837 *(relating to Coinage)* and XXI of 1838 *(relating to the Silver Coinage)*; and Acts XXI of 1835, XXII of 1844, and XI of 1854 *(relating to the Copper Coin,)* shall be repealed, except as to any act already done or Coin already coined or issued under the same.

Repeal of Acts.

II. From the day of 1862 the undermentioned Silver and Copper Coins only shall be coined at the Mints in British India.

Description of Coins.

*Silver Coin.*

A Rupee.
A Half Rupee.
A Quarter Rupee or Four Anna Piece.
An Eighth of a Rupee or Two Anna Piece.

*Copper Coin.*

A Double Pice or Half Anna.
A Pice or Quarter Anna.
A Half Pice or one-eighth of an Anna.
A Pie, being one-third of a Pice, or one-twelfth of an Anna.

III. The Rupee so coined shall be of the same weight and standard as those provided for the Company's Rupee by the said Act XVII of 1835, that is to say, the weight shall be 180 grains Troy, and the standard as follows:— $\frac{11}{12}$th or 165 grains of pure Silver; $\frac{1}{12}$th or 15 grains of Alloy. The other Silver Coins shall be of proportionate weight and of the same standard.

Weight and Standard of Silver Coins.

IV. The Copper Coins so coined shall be of the weight prescribed for Coins of the same denominations respectively by Acts XXI of 1835 and XI of 1854, that is to say:

Weight of Copper Coins.

| | | |
|---|---|---|
| The Double Pice shall weigh | 200 | grains Troy. |
| The Pice ... ... | 100 | " |
| The Half Pice .. ... | 50 | " |
| The Pie ... ... | 33⅓ | " |

V. Until the Governor-General in Council shall otherwise order under the power hereinafter reserved, the Silver and Copper Coins so coined shall bear on the obverse the likeness and the name of Her Majesty Queen Victoria, and the inscription "Victoria Queen," and on the reverse the designation of the Coins in English filled by the word "India," with such date and embellishments on each Coin as the Governor-General in Council from time to time may direct.

Inscriptions on Coins

VI. It shall be lawful for the Governor-General in Council, from time to time, to direct the coining and issuing of all Coins authorized by this Act, and to prescribe, in lieu of the likeness and inscription as heretofore prescribed, such other devices and inscriptions and embellishments for all or any of the Coins hereby authorized, as he may, by order in Council to be published in the Government Gazette, direct.

Governor-General in Council may order other devices, &c.

VII. The said Rupee and Half Rupee shall be a legal tender in payment or on account of all engagements whatever, provided the Coin shall not have lost more than two per cent. in weight, and provided it shall not have have been clipped or filed, or have been defaced or diminished, otherwise than by use.

Rupee and half Rupee to be legal tender.

VIII. The Quarter Rupee and Eighth of a Rupee shall be legal tender only for the fractions of a Rupee, subject to the same provisions as in the last preceding Section mentioned.

Quarter and Eighth of a Rupee how to be legal tender.

IX. The Double Pice shall be a legal tender for one-thirty-second part of a Rupee or for half an Anna.

Copper Coin how to be legal tender

The Pice for one-sixty-fourth part of a Rupee, or for one-fourth of an Anna.

The Half Pice for one-hundred-and-twenty-eighth part of a Rupee, or for one-eighth of an Anna; and the Pie, one-third of a pice, for the one-hundred-and-ninety-second part of a Rupee, or the twelfth of an Anna.

Provided that none of the said Copper Coins shall be a legal tender, except for the fractions of a Rupee, and except in the Settlement of Prince of Wales' Island, Singapore, and Malacca for the fractions of a Dollar.

X. All Silver Coin of the weight and standard specified in the said Acts XVII of 1835, and XXI of 1838, issued since the passing of those Acts respectively and before the day of and declared by those Acts respectively to be a legal tender, and all Copper Coins of the weight specified in the said Acts XXI of 1835, XXII of 1844, and XVII of 1855 issued since the passing of those Acts respectively and before the day of and declared by those Acts respectively to be a legal tender, shall continue to be a legal tender for the amounts thereof respectively, subject to the same conditions and provisions as under those Acts respectively, anything in this Act contained notwithstanding.

Coin coined under former Acts still to be legal tender.

XI. All Acts and Laws in force in British India at the time of the passing of this Act respecting the Queen's Coin, or the Silver or Copper Coin current in British India, and not repugnant to the provisions of this Act, shall be, and continue in full force and effect, and shall be applied to the Silver and Copper Coin to be coined in pursuance of this Act.

Existing Acts to continue in force.

XII. The words "British India" in this Act denote the territories which are or may become vested in Her Majesty by the Statute 21 and 22 Vic., c. 106, "entitled An Act for the better Government of India."

Definition of British India.

### Statement of Objects and Reasons.

The object of this Bill is to legalize the Coinage at and issue from the Mints of the new Silver and Copper Coins which the Government proposes to issue, and the dies of which have been prepared in England.

These Coins are of the same denomination, standard, and weight as those of the Coin already in use. The only change proposed to be made in the Coin which requires for its sanction an alteration in the law, consists in the omission of the words "East India Company," and of the designation of the Coin in Persian, which, under the present law, must be impressed on the reverse of the Coin. In lieu thereof the new Coin will bear on its obverse the name and title as well as the likeness of the Queen, and on the reverse the designation of the Coin in English. There are other changes in the devices and ornaments on the Coin, but this is the only one calling for alteration of the law, as the Governor General in Council in his executive capacity is empowered by the Act above referred to, to prescribe such other embellishments for the Silver Coinage as he may think fit.

Act XVII of 1835.

The present Bill provides that the Coin shall bear the likeness of Her Majesty, and the inscription "Victoria Queen," until the Governor General in Council shall otherwise direct, and empowers the Governor General in Council from time to time to vary the devices and inscriptions.

The proposed change in the Copper Coinage, which also mainly consists in the substitution of the name of the Queen for that of the East India Company, does not of itself require any change in the law. For power is given by Act XVII of 1835, Section X, Act XXI of 1835, and Act XXII of 1841 to the Governor General in Council by Order in Council to prescribe the devices and inscriptions for the Copper Coin.

But as the provisions for the Copper Coinage are scattered through several Acts* it has seemed desirable (except as to such of them as apply to the Copper Coin in the Straits Settlement, which stand on a different footing from the rest of India in that respect†) to repeal these Acts, and consolidate their provisions in the present Bill.

**Abstract of the Proceedings of the Council of the Governor General of India, assembled for the purpose of making Laws and Regulations under the Provisions of the Act of Parliament 24 and 25 Vic., C. 67.**

THE Council met at Government House on Wednesday, the 29th January 1862.

PRESENT:

His Excellency the Viceroy and Governor General of India, presiding.
His Honor the Lieutenant-Governor of Bengal.
His Highness the Maharajah of Puttiala, K. S. I.
The Hon'ble Sir H. B. E. Frere, K. C. B.
The Hon'ble Cecil Beadon.
Major-General the Hon'ble Sir R. Napier, K. C. B.
The Hon'ble W. Ritchie.
The Hon'ble H. B. Harington.
The Hon'ble H. Forbes.
The Hon'ble C. J. Erskine.
The Hon'ble W. S. Fitzwilliam.
The Hon'ble D. Cowie.
The Hon'ble Rajah Deo Narain Singh Bahadoor.
The Hon'ble Rajah Dinkar Rao Rugonauth Bahadoor.

The Hon'ble SIR BARTLE FRERE introduced the Bill for securing certain grants of immovable property made by the State, and moved that it be referred to a Select Committee consisting of the Hon'ble Mr. Harington, the Hon'ble Mr. Forbes, the Hon'ble Mr. Erskine, and the Hon'ble the Rajah Deo Narain Singh.

The Hon'ble the RAJAH DINKAR RAO said that the Government had power to make stipulations when it made grants, but this Bill was not necessary for the advantage of Government, and it was not necessary for the benefit of the subject. It was contrary to the usages of the people, and would only be acceptable to such as had contracted debts. Immovable property would not be valuable to a man if he could not dispose of it either by mortgage or sale. The Bill exempted such property from process of the Civil Court, but it might be seized to liquidate a fine from a Criminal Court. If it were alienable for such a purpose, it should be also in payment of just debts. Persons applied self-acquired property in charity or works of public utility or to reward dependents, and in times of difficulty would mortgage their property, but seldom would sell it. Under this Bill, however, they would have no power at all over immovable property which had been granted to them.

The Hon'ble MR. ERSKINE said he had no objection to the principle of the Bill, and would only therefore observe, with reference to the arguments just urged, that the Rajah Dinkar Rao had not apparently given their full weight to two considerations: first, that the State, although it might, in making new grants, impose its own conditions on the grantees, could not, without the sanction of the Legislature, exempt any grant from the action of the Civil Courts; and, secondly, that the Bill as now drawn could not be injurious to the creditors of old grantees, as it was provided that in such cases the State should interpose only with the consent of all concerned.

The Hon'ble MR. COWIE supported the principle of the Bill.

The Hon'ble MR. RITCHIE said that the Bill was considerably improved since it had been first drawn. Even now some amendments appeared to be necessary. The principle, however, was sound and just, namely, that such grants as were made to reward eminent public services should stand on a different footing from other grants. The object was to perpetuate a benefit to a

family, and by perpetuating the memory of a loyal action to encourage posterity to emulate the example. But some relaxation might be required in the case of incumbents who have been sore warded, but who were in embarrassed circumstances. The Bill at present prevented all assignments except leases for seven years. He would suggest that incumbents might also alienate for the period of their own lives, and that execution might issue for the seizure of the life interest of an incumbent. This would be analogous to the provision in English Acts granting Annuities as rewards for services. In the Debate in the Legislative Council it had been pointed out that the Bill perpetuated the entail though there should be a failure of the heirs specified in the grant It appeared to be reasonable that, if such heirs failed and the property devolved on collateral descendants, it should be held unfettered by restrictions.

The Hon'ble SIR R. NAPIER agreed with Mr. Ritchie both as to the principle and the necessary modifications.

The Hon'ble MR. BEADON thought that there were formidable objections even to the principle of the Bill. He agreed with the Rajah Dinkar Rao that the object was not so much to perpetuate the memory of services as to reward them in the manner most acceptable to the recipients. In most cases a recipient would prefer to receive a grant unencumbered by restrictions, and it would be unseemly if the Government stepped in when the recipient was an embarrassed man, and declared his property exempt from seizure. He referred to the case in the North-Western Provinces, which had led the Lieutenant-Governor to apply for an Act of this nature. The circumstances of that case, he thought, pointed to a different conclusion. They rather shewed that a mistake had been made in the nature of the reward granted to the Ressaldar in question, or that there should be a general law to save all land, except such as was not mortgaged, from seizure under process of the Courts. But the principle of this Bill, which went to exempt lands granted for services, and to treat the exemption as part of the reward, was open to doubt. Lands granted to support titles stood upon a different footing, and should be dealt with separately, as Sir Jamsetjee Jeejeebhoy's estate Bill had been. He also noticed that the Bill made no provision for ultimately barring the entail if the incumbent and the Government united in wishing to do so.

The Hon'ble the RAJAH DEO NARAIN SINGH said that the grants contemplated by this Bill would not be generally acceptable, because they would not be in accordance with the customs of the country, and if so, they would not be valuable as rewards. If all power of alienation were taken away, the grant would assume the character of a trust. Men had naturally a preference for liberty over every kind of restraint, and would not approve of restrictions in their property. If this Bill were passed, it should be provided that the conditions should be imposed with the assent of the grantees.

His Highness the MAHARAJAH OF PUTTIALA greatly approved of the object and principle of the Bill, because the honors conferred by the State would be firmly secured to the grantees and their families, and because the power derived from such grants would enable grantees to render good service to the State, and because their inalienability and security would render others more anxious to obtain such rewards for good service, and so a powerful bond of affection would be created between the Government and the subjects. He approved of the power of granting leases, though he thought it might lead to disputes in times of calamity, but the Collector might be authorized to adjust them. With reference to the power of the Governor General to prescribe in the grant the course of descent, he thought that the rules introduced into the Cis-Sutlej States should be adopted for grants already made, and that in future grants the rule of primogeniture should prevail. He suggested an amendment in the 4th Section, which provided for the mode of enforcing payment of any claims not barred by the Act.

His Excellency the PRESIDENT said that it appeared to be the general opinion that the Bill should be referred to a Select Committee, and he was himself in favor of that course. At the same time he felt that some new objections had been raised to the Bill, and that others had been stated in a manner more pointed than he had previously heard. On the part of the Government he must demur to the principle of the Rajah Dinkar Rao, that the only object of the Government in such grants was the benefit of the grantee. A great object was, as Mr. Ritchie had stated, the establishment, if possible, for all time, of an example of eminent service rendered to the State, and of a conspicuous reward granted. The record in every such case should be made as enduring as possible. In England that course had been followed for at least a century and a half, as in the cases of the Marlborough and Wellington dignities and estates. Mr. Beadon had noticed the difference between grants with hereditary peerages and the ordinary rewards in this country. Exceptional as grants were at home, they could be dealt with specially. But here a general Bill authorizing the Government to impose conditions appeared to be necessary. The Rajah Deo Narian had said that such rewards would be of little value. But the Maharajah of Puttiala had justly considered that the contemplated stipulations would render the grants more honorable and acceptable. He thought that the Bill should be referred to a Committee, and further considered with their report, and that full time should be given for consideration.

The Hon'ble the LIEUTENANT-GOVERNOR said that he had no objection to the Bill being referred to a Select Committee, though he had some doubts in the principle of the Bill, and considerable doubts as to the details. He doubted if any grant should be entailed without an entail of some honor or title. If that were provided, he should not object. But this Bill would apply to all grants whether there were titles or not. The Maharajah of Puttiala had said that future grants secured by this Act should descend under the rule of primogeniture. This, he had no doubt, would be very acceptable in the case of large grants, and he saw no objection to it in principle.

The Hon'ble SIR BARTLE FRERE said that this Bill might be considered from two points of view, that of the grantor and of the grantee. The grantor (the State) parted with property for a certain purpose and had no object but to secure that purpose, which was the perpetuation of

rewards for good service. But the effect of the Bill might be to encourage improvidence. The cases of large grants intended as monuments of a nation's gratitude were distinct, and might be dealt with separately from ordinary grants for good service. Looking at the Bill from the grantee's point of view, very little could be said for it. It would be inoperative, like all attempts to protect persons from the effects of their own improvidence, and the Rajahs Dinkar Rao and Deo Narain had pointed out that conditional grants would not be acceptable. Looking back to our own history, it would be seen how inconvenient such an entailing measure would have been in the reign of Elizabeth or Cromwell, when grants of lands were numerous. His impression was that great grants should be dealt with separately, and that it was unnecessary to interfere with smaller ones. The Bill had been brought in at the instance of the Lieutenant-Governor of the North-Western Provinces. Were it his own Bill, he (Sir Bartle Frere) would withdraw it. But acting in behalf of His Honor, he would wish to refer it to him before proceeding further, and in the meantime would move for leave to withdraw his motion, leaving it open to proceed with the Bill or not as the opinion of the Lieutenant-Governor might show to be desirable.

His Excellency the PRESIDENT stated that the Rules did not provide for an amendment of this kind at the present stage.

After a brief discussion on the point of order, the motion to refer the Bill to the Select Committee was put and agreed to.

The Hon'ble Mr. BEADON introduced the Bill to make further provision relating to foreigners, and moved that it be referred to a Select Committee consisting of the Hon'ble Mr. Ritchie, the Hon'ble Rajah Deo Narain Singh, and the Mover. He stated that the Bill only revived for a period of two years an Act which had expired, and as the interval between its expiration and renewal ought to be as short as possible, he proposed that the Committee should be instructed to submit their Report at the next Meeting.

The motion was put and agreed to.

The Hon'ble Mr. RITCHIE introduced the Bill to provide for a new Silver and a new Copper coinage, and moved that it be referred to a Select Committee consisting of the Hon'ble Mr. Harington, the Hon'ble Mr. Fitzwilliam, the Rajah Deo Narain Singh, and the Mover.

The motion was put and agreed to

The Hon'ble Mr. FORBES postponed till the next Meeting the introduction of the following Bills:—

*1st.*—A Bill to enlarge the jurisdiction of the Courts of Requests in the Settlement of Prince of Wales' Island, Singapore, and Malacca.

*2nd.*—A Bill to extend certain provisions of Acts XIV. and XXV. of 1856 to the Town and Suburbs of Rangoon, and to the Towns of Moulmein, Tavoy, and Mergui, and for appointing Municipal Commissioners, and for levying rates and taxes in the said Towns.

*3rd.*—A Bill relating to Emigration to the British Colonial Dependency of Seychelles.

The Hon'ble Mr. RITCHIE moved for leave to bring in a Bill to amend Chapter XII. of the Indian Penal Code, and to provide for certain offences against the coin. He stated that since the last Meeting, when he obtained leave to bring in a Bill for the protection of the Public against bad coin, it had been found more convenient to separate the Penal Clauses, and embody them in a separate Bill as an amendment of the Penal Code. This was the Bill which he wished to introduce.

The motion was put and agreed to.

The Hon'ble Mr. RITCHIE moved for leave to introduce a Bill relating to breaches of contract committed in bad faith. He said that the object of the Bill was to provide proceedings of greater strictness in regard to the amount of damages and the nature of the execution to be awarded against defendants in Civil suits, who broke their contracts in bad faith, without reasonable excuse, after having received consideration for the same. A Bill had been brought in to the Legislative Council last year by the Hon'ble Mr. Beadon for the punishment of breaches of contract of a particular class. It was framed on the Act of 1859, relating to laborers and artificers, which Act had been based on special legislation at home relative to workmen and laborers. That Bill had been referred to a Select Committee; but soon after a Despatch was received from the Secretary of State, objecting to the Bill, mainly on the ground that it dealt with breaches of Civil contract in a Criminal way. The Chairman of that Committee (Sir Barnes Peacock) had prepared a Report, in which he had stated that it was not desirable that the Bill should be passed in a shape to which the Secretary of State, to whom the power of disallowance had been granted by Parliament, objected; but that there was no reason why the Council should not give some relief, and he proposed that, in all such cases as were included in the Bill, when a Civil Court awarded damages, it might commit the defendant to the Civil Jail where he should maintain himself, or, if he were maintained by the Government, be kept to hard labor. Since that period the Government of India had come to the conclusion that the principle of that recommendation should be adopted, but extended to all contracts in which a defendant had committed a breach after having received consideration This would be less objectionable than a Bill confined to agricultural contracts, and a law dividing broadly between honest and dishonest debtors would be more consonant with just and sound legislation than a law confined to a special class of persons. The Bill would provide that, when a defendant had received consideration for a contract and broken it, the Court, if it found that the contract had been broken in bad faith and without reasonable excuse, and if the damages were not paid, might commit the defendant for the period specified under the Civil Code to Jail, where he should maintain himself or be kept to hard labor, and should not be entitled to discharge either under the discharge Clauses of the Civil Code or an order of the Insolvent Court. The Bill was limited to cases of dishonest and wilful breaches of contract, and was not open to the objections which had been urged to the former Bill, inasmuch as it was not confined to any particular class of persons or of contracts; it did not submit contracts in which equities might have to be considered by tribunals unaccustomed to deal with Civil suits; and its machinery could not be perverted to the purposes of oppression. It would include all the cases embraced in Mr. Beadon's Bill and many others as important.

His Honor the LIEUTENANT-GOVERNOR stated that the Bill, as explained by Mr. Ritchie, appeared to be quite unobjectionable, and he should not have made any remark on it if he had not been strongly opposed to the Bill introduced last year. The two measures were so fundamentally different, that, while retaining his objection to the former Bill, he had no objection to the introduction of this.

The Hon'ble MR. BEADON said he had no hesitation in admitting that the present was a great improvement in the former Bill. It was more comprehensive and not open to the objections to which the former was liable. It would be applicable to those contracts only in which a consideration had been given and received. He considered that the advance was the element that brought the case within the Criminal Law. But the Chief Justice had considered that that point was immaterial, and that the law should apply to all breaches of contract in bad faith. He (Mr. Beadon) considered that the receipt of an advance gave the aspect of a Criminal breach of trust to a breach of contract, and that in many such cases Section 405 of the Penal Code and the punishment in Section 406 would apply. By those Clauses and Mr. Ritchie's Bill he considered that every legitimate object was secured.

The Hon'ble MR. HARINGTON said that, in assenting to the present motion, he did not consider that he was assenting to the principle of the Bill, which he considered to be that in certain cases defendants in Civil suits should be kept in Jail at the expense of the State, and not at the expense of the plaintiffs. He quoted the 16th Rule, and stated that he apprehended that the discussion on the principle would be taken at another stage.

The Hon'ble MR. RITCHIE in explanation said that it was not proposed to extend the Bill to contracts in which no consideration in money, goods, or the like had been given, and where the plaintiff's part rested in promise only. On the other hand the consideration need not be confined to money, but the Act would apply in the case of goods supplied by tradesmen, land let by landlords, as well as contracts made on advances by Planters or Capitalists. The breaches of trust referred to in the Penal Code were those in which a man having received money or property under any contract or obligation to apply it specifically to a particular purpose, misapplied it. The breaches of contract which the Bill dealt with, were those in which a a man received money or property, not necessarily for the purpose of applying the particular money or property to a specific purpose, but as a consideration for a promise on his part to perform some act as an equivalent.

His Excellency the PRESIDENT agreed with the Hon'ble Mr. Harington in his interpretation of the Rules. The question put was whether there was a *primâ facie* case for a Bill. As to the principle of the Bill proposed, that would be affirmed or rejected when the Bill was introduced. Any Member who objected to the principle of the Bill could object to its going into Committee.

After a short discussion on the point of order, the motion was put and agreed to.

The Hon'ble MR. RITCHIE moved for leave to bring in a Bill to provide for the administration of Civil and Criminal Justice at Aden. He stated that the object of the Bill was to place the administration of Justice at Aden on a stable footing. The Penal Code supplied the Criminal Law, but it was necessary to declare the nature of the Civil Law that should be in force, to remove doubt as to the jurisdiction of the Resident sitting as a Court, and to provide for an appeal to the Sudder Court at Bombay,

The motion was put and agreed to.

The Hon'ble MR. RITCHIE moved for leave to bring in a Bill to remove the District of Humeerpore in the North-Western Provinces from the operation of the General Regulations. He stated that this Bill was introduced at the instance of the Hon'ble the Lieutenant-Governor. Humeerpore was one of four Districts in the Division of Jhansi. Three of them were Non-Regulation Districts, and it was necessary to place Humeerpore on the same footing.

The motion was put and agreed to.

The Hon'ble MR. RITCHIE moved for leave to bring in a Bill for the amendment of Act XXV. of 1838 (relating to Wills of persons whose personal property cannot by the law of England pass to their representatives without Probate or letters of Administrations). He stated that the Wills Act passed in the 1st year of Her Majesty applied here, and that all the formalities therein prescribed must be followed by British Subjects. But a subsequent Amending Act of Lord St. Leonards had relaxed some of the strict technicalities, and it was intended to extend those amendments to this country. It would be open for consideration whether those relaxations might not be extended so far that it should no longer be necessary for the two witnesses to a Will to sign in the presence of each other.

The motion was put and agreed to.

The Hon'ble MR. RITCHIE moved for leave to bring in a Bill to amend and consolidate the law relating to the conveyance and transfer of property in India vested in Trustees or Mortgagees, in cases governed by English Law. He stated that its object was to extend to India the recent amendments in the Law relating to Trustees and Mortgagees which had been enacted in England, especially the Trustee Act of two years ago.

The motion was put and agreed to.

The Hon'ble MR. RITCHIE moved for leave to bring in a Bill to give Trustees, Mortgagees, and others in cases governed by English Law certain powers now commonly invested in Settlements, Wills, and Mortgages. He stated that the object was to extend to this country the provisions of the Act 23 and 24 Vic., c. 145, which greatly simplified the Law as to the powers of Trustees and Mortgagees.

The motion was put and agreed to.

The Hon'ble MR. RITCHIE moved for leave to bring in a Bill to further amend the Law of Property, and to relieve Trustees in cases governed by the English Law. He stated that the object was to extend to India the provisions of the Act 22 and 23 Vic., c. 35, so far as they were applicable.

The motion was put and agreed to.

The Hon'ble MR. HARINGTON moved for leave to bring in a Bill to consolidate and amend the law relating to the partition of estates paying Revenue to Government in the North-Western Provinces of the Presidency of Fort William in Bengal. He stated that the object was to amend the law relative to the partition of estates paying Revenue to Government. The present law was defective in respect of a numerous class of Estates in the North-Western Provinces of Bengal, the property of two or more persons, the lands comprised in which were held partly in severalty and

partly in common. The wording of the present law precluded the application of its provisions to that description of estates, and even the lands in such estates as were held in common tenancy were not divisible under it. A more serious objection to the present law was to be found in the extremely dilatory character of the procedure which it prescribed. The present Bill had been approved by the Sudder Board of the North-Western Provinces, and legislation on the subject had been undertaken at the instance of the Lieutenant-Governor of those Provinces. As Bengal was to have a separate Council, he had confined provisions of the Bill to the North-Western Provinces.

The motion was put and agreed to.

The Council adjourned till Wednesday, the 5th of February at 11 A. M.

## The Fair held at the Burman Ghaut on the Nerbudda.

From MAJOR R. T. SNOW, Officiating Secretary to the Chief Commissioner, Central Provinces, to COLONEL H. M. DURAND, C. B., Officiating Secretary to the Government of India, Foreign Department, Fort William,—(dated Nagpore, the 13th January 1862.)

SIR,—I HAVE the honor, under instructions from the Chief Commissioner of the Central Provinces, to forward, for submission to His Excellency the Governor General in Council, a copy of a Report by the Deputy Commissioner of Nursingpore, on the Mela or Fair held at the Burman Ghaut on the Nerbudda River near Nursingpore annually at the full moon of Kartick.

2. There are several of these gatherings at the same season of the year held at the different spots on the Nerbudda, the principal ones being those at Burman Ghaut in Nursingpore, at Behra Ghaut in Jubbulpore, and near the Station Hoshungabad which is on the river; but that held at Burman Ghaut, from which it takes its name, is by far the largest and the one most frequented. In 1857 and 1858 there was no attendance owing to the disturbed state of the country, and in the present year, though the gathering is said to have reached about 80,000, the numbers attending it are far below what they have reached in former years, when they were known to approach from 120 to 1,30,000.

3. In so large an assemblage it might be expected that crime would be rife, and the trifling amount reported by Captain Gordon to have been committed on this occasion speaks remarkably well for his management, and entitles him to the praise bestowed on him by the Commissioner of his Division, Mr. A. H. Cocks, C. B.

4. As these periodical Fairs betoken to a certain extent the state of prosperity and increasing traffic of the neighbouring Districts, the Chief Commissioner has thought the submission of these papers now forwarded may prove interesting to His Excellency in Council.

Copy of a Report No. 471, dated 12th December 1861, from the Deputy Commissioner, Nursingpore, to the Commissioner, Jubbulpore Division.

I HAVE the honor to submit, for your information, the following Report regarding the annual Fair lately held at Burman.

2. The available Military Police of this District, with the addition of 100 men and twenty Sowars from the Jubbulpore Military Police Battalion, all under the Command of Lieutenant Sutherland, and a Company (sixty Privates) of the Detachment of the 1st Regiment, Madras Native Infantry, under the Command of Lieutenant Newdick, were employed, during the whole period of the Fair, for the protection of the people and the large amount of valuable property collected there. The Cavalry branch of the Military Police also furnished several outlying guards on the various roads leading towards the Fair.

3. From the 12th of November (the date of my arrival) the Merchants and Shop-keepers commenced to arrive, and they continued to do so in large numbers until the 17th, when the Fair was at its height. The 17th was chiefly devoted to their religious ceremonies, but from the 18th the whole of the shops were opened, and business was carried on uninterruptedly up to the 6th December, when the Fair was broken up after lasting for about three weeks.

4. On the 17th and 18th of November there must have been from 70 to 80,000 people assembled. The numbers then diminished owing to the departure of those who came solely for religious purposes, but the traffic continued steadily and briskly up to the end.

5. The great bulk of the shops, including all the wealthy and important ones, were erected in the sandy beds of the Nerbudda on the left or southern bank. There were a pretty good number of petty shops on the right bank also. The Fair on the left bank occupied a continuous space of nearly two miles, and there must have been at least 2,000 shops of all kinds, besides an immense number of stalls held in the open air, at which cloths and fabrics of local manufacture, vegetables, cheap ornaments, &c., were sold. The number of shops must have been, in my opinion, about double those of last year

6. The shops, besides those of the District, came chiefly from Saugor, Jubbulpore, Hoshungabad, Bhopal, and a few even from Mirzapore. The most numerous were those of the cloth merchants or "Buggay," of which there were upwards of 400; next, dealers in brass, copper, iron, and other metal utensils; third, sellers of spices, drugs, &c., commonly called "Kirana"; after them general dealers, bissattees, sweetmeat-sellers, &c., &c.

7. The sales of all descriptions of wares were very extensive, especially those of cloth, of which about two-thirds were English fabrics, and one-third country fabrics procured from Berhampore, Cawnpore, Furruckabad, Delhi, Benares, and other large Marts. A great deal of business was also done in Hoondies, or Bills of Exchange.

8. The conduct of the people was most peaceable and orderly throughout. There were only five cases of petty thefts or "ootharee geeree" during the whole time of the Fair, and in all these cases the property was recovered, and in four of them the offenders punished. There was one rather heavy case of theft of property, value Rupees 201-14-0, but this took place outside the limits of the Fair when the owner was on his way home.

9. There were no complaints against the Police, Civil or Military, nor against the Detachment of Madras Native Infantry, and I have every reason to express myself grateful to Lieutenant Newdick, Commanding the latter, and Lieutenant Sutherland, Commanding the former, for their excellent management and the discipline kept up in their Detachments, whose behaviour was most exemplary throughout.

10. The Merchants, Shop-keepers, &c., all expressed themselves most highly pleased with the success of the Fair. The general sense of security exhibited by them was most satisfactory, and there is every prospect that next year's Fair will be a still larger and more important one.

### GENERAL.

FORT WILLIAM, THE 3RD FEBRUARY 1866.

WHEREAS it has been represented to the Government that Small-pox has for some time prevailed, and is now raging, in the Town and neighbourhood of Deogurh, in the Sonthal Pergunnahs, and that the disease is spreading daily:—

And whereas it is expected that, on or about the 13th instant, many thousands of pilgrims from all parts of India will assemble at Deogurh for the annual Mela or religious festival of Pyjnath, and that the collection of such vast numbers in a place infected with Small-pox is eminently dangerous to the public health, and likely not only to imperil the lives of the pilgrims, but to aggravate the local intensity of the disease, and eventually to carry the contagion to other parts of India:—

It is hereby declared that all intercourse between the Town and neighbourhood of Deogurh, within such limits as may be fixed by the Commissioner of the Sonthal Pergunnahs, and other places is prohibited until further orders, except under such conditions as may be determined and notified on the spot by the said Com-

missioner. Any person disobeying this rule will be liable to punishmen
Section 271 of the Indian Penal Code.

All Magistrates are desired to make this Notification as widely kn
possible without any delay.

No. 664.

Under the authority vested in him by Section 3, Act IV. (B. C.) of
the Lieutenant-Governor is pleased hereby to extend the provisions of the sa
to the Town of Deogurh, in the Sonthal Pergunnahs.

### LEGISLATIVE.

THE following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 29th January 1862, and was referred to a Select Committee, who will make a report thereon after the 1st of May next:—

*A Bill for securing certain grants of immoveable property made by the State.*

Preamble.

WHEREAS it is expedient and proper that grants of immoveable property made for services rendered to the State, or for the support of any Title, Office, or Dignity conferred by the State, should be applied to the purpose for which the grant shall have been made, and that the property so granted should not be liable to be diverted from such purpose; It is enacted as follows:—

Governor-General in Council may declare State Grants to be held on certain conditions.

I. Whenever any grant of immoveable property shall be made as above to any person as a reward for services rendered to the State, or to accompany or support any Title, Office, or Dignity conferred by the State, it shall be lawful for the Governor-General of India in Council to declare, *first*, that no assignment, agreement, sale, security, or alienation of any kind of or in respect of such property or of any future interest therein shall be made by the grantee or by any person to whom such property shall descend under the limitations of such grant (save and except leases for any period not exceeding seven years or for any further period terminable with the life of the lessor), and that all such assignments, agreements, sales, securities, and alienations, save and except such leases as aforesaid, shall be null and void; *secondly*, that the property so granted shall be exempt from seizure, attachment, or sequestration by process of any Court of Civil Judicature, and from sale under any process in execution of any decree or order of any such Court; and, *thirdly*, in what manner and subject to what limitations the property so granted shall, after the death of the grantee, descend in his family, namely, whether according to the ordinary law of inheritance applicable to the grantee or to the rule of primogeniture or otherwise; or to make any one or more of such declarations. Any such declaration shall be valid and effectual, and the property in respect of which it is made shall thereupon be held and enjoyed, subject to such declaration and in accordance with the terms thereof.

Provision for a similar declaration respecting grants already made.

II. It shall be lawful for the Governor-General of India in Council, with the consent of the proprietor or proprietors at the time of any immoveable property which shall have been granted to any person before the passing of this Act for service rendered to the State, or to support any Title, Office, or Dignity conferred by the State, and which shall continue the property of the grantee or of any descendant of the grantee, to whom the property shall have descended under the limitations of the grant, to make any one or more of such declarations as aforesaid in respect of such property, and the rights upon such declaration shall, from the date thereof, have the same force and effect in respect of the property to which it applies as a declaration made under the last preceding Section.

Declaration not to affect previous rights of creditors.

III. No such declaration as is provided for in the last preceding Section of this Act shall apply to, or affect any assignment, agreement, order, sale, security, or lien, or any right, title, or interest made, created, or acquired, in respect of any property to which such declaration relates, or any process of any Court of Civil Judicature issued in respect thereto, before the making of such declaration, or the claim of any creditor in respect of any debt personally incurred by the grantee subsequently to the acquisition of the grant, or by any descendant of the grantee to whom the property shall have descended under the limitations of the grant if such debt shall have been incurred before the passing of this Act.

IV. Whenever any creditor or other person shall require execution in respect of any claim or right not barred by declaration under this Act, by the sale of any property in respect of which any such declaration as aforesaid shall have been made, if it shall appear that satisfaction of the claim can be made within a reasonable period otherwise than by a sale of the property, the Court from which such execution is required shall make provision for the satisfaction of the claim in such manner as shall best, instead of proceeding to the sale of the propery.

Mode of satisfaction instead of sale.

V. Any declaration made under this Act shall be registered in the Office of the Collector and in the Office of the Principal Register of Deeds of the District in which the property is situate in books to be kept for the purpose by such Collector and principal Register of Deeds, and shall be published in the Official Gazette.

Declarations to be registered.

THE following Bill was introduced into the Council of the Governor General of India, for the purpose of making Laws and Regulations, on the 29th January 1862, and was referred to a Select Committee, who will make a report thereon after the 1st of May next:—

*A Bill to revive and continue in force for a further period Act XXXIII of* 1857 *(to make further provision relating to Foreigners.)*

WHEREAS it was enacted by Act XXVIII of 1859 that Act XXXIII of 1857 *(to make further provision relating to Foreigners)* should continue in force for two years from the 5th day of December 1859; and whereas it is expedient to revive and continue the said Act for a further period; it is enacted as follows:—

Preamble.

The said Act XXXIII of 1857 shall continue in force for the period of two years from the 5th day of December 1861, and shall be deemed and taken to have had effect as if this Act had actually passed and received the assent of the Governor-General before the expiration of the said Act XXXIII of 1857, as continued in force by the said Act XXVIII of 1859.

Act XXXIII of 1857 revived and continued in force till the 5th December 1863.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill, as its title imports, is to continue in force for a further period the Act of 1857, which was passed to enable the Government to prevent the subjects of Foreign States from residing or sojourning in India, or from passing through or travelling in the same, without the consent of the Government.

The original Act expired on the 5th December 1859, and was renewed for two years by the Act No. XXVIII of that year. It expired again on the 5th December 1861, and it is now thought by the Governor-General in Council expedient to renew it for a like period of two years, that is, to the 5th December 1863.

In addition to the general reasons which led to the passing of the Act of 1857, and which still to some extent prevail, a special reason for continuing it in force is afforded by the recent Concordat between the Pope and Portugal, under which it is probable that the subjects of Foreign European nations may resort to India in greater numbers, and in positions of greater influence, than heretofore.

No objection has been made to the Act of 1857 as it stands, and it is therefore not proposed to alter any of its provisions, but simply to prolong the time of its operation to the end of next year.

THE following Bill was introduced into the Council of the Governor General of India, for the purpose of making Laws and Regulations, on the 29th January 1862, and was referred to a Select Committee, who will make a report thereon after the 1st of May next:—

*A Bill to provide for a new Silver and a new Copper Coinage.*

WHEREAS it is expedient to provide for a new Silver and a new Copper Coinage; it is enacted as follows:—

Preamble.

I. From the day of so much of the 1st and 2nd Sections of the Act XVII of 1835 *(relating to Gold and Silver Coinage)* as provides that the Silver Coins therein mentioned only shall be coined at the Mints within the territories of the East India Company, and that such Coins shall bear on the reverse the words "The East India Company": and the Acts XXXI of 1837 *(relating to Coinage)* and XXI of 1838 *(relating to the Silver Coinage)*; and Acts XXI of 1835, XXII of 1844, and XI of 1854 *(relating to the Copper Coin,)* shall be repealed, except as to any act already done or Coin already coined or issued under the same.

Repeal of Acts.

II. From the day of 1862 the undermentioned Silver and Copper Coins only shall be coined at the Mints in British India.

Description of Coins.

*Silver Coin.*

A Rupee.
A Half Rupee.

| The Double Pice shall weigh | 200 | grains Troy. |
| The Pice ... ... | 100 | " |
| The Half Pice ... ... | 50 | " |
| The Pie ... ... | 33⅓ | " |

V. Until the Governor-General in Council shall otherwise order under the power hereinafter reserved, the Silver and Copper Coins so coined shall bear on the obverse the likeness and the name of Her Majesty Queen Victoria, and the inscription "Victoria Queen," and on the reverse the designation of the Coins in English filled by the word "India," with such date and embellishments on each Coin as the Governor-General in Council from time to time may direct.

Inscriptions on Coins.

VI. It shall be lawful for the Governor-General in Council, from time to time, to direct the coining and issuing of all Coins authorized by this Act, and to prescribe, in lieu of the likeness and inscription as heretofore prescribed, such other devices and inscriptions and embellishments for all or any of the Coins hereby authorized, as he may, by order in Council to be published in the Government Gazette, direct.

Governor-General in Council may order other devices, &c.

VII. The said Rupee and Half Rupee shall be a legal tender in payment or on account of all engagements whatever, provided the Coin shall not have lost more than two per cent. in weight, and provided it shall not have have been clipped or filed, or have been defaced or diminished, otherwise than by use.

Rupee and half Rupee to be legal tender.

VIII. The Quarter Rupee and Eighth of a Rupee shall be legal tender only for the fractions of a Rupee, subject to the same provisions as in the last preceding Section mentioned.

Quarter and Eighth of a Rupee how to be legal tender.

IX. The Double Pice shall be a legal tender for one-thirty-second part of a Rupee or for half an Anna.

Copper Coin how to be legal tender.

The Pice for one-sixty-fourth part of a Rupee, or for one-fourth of an Anna.

The Half Pice for one-hundred-and-twenty-eighth part of a Rupee, or for one-eighth of an Anna; and the Pie, one-third of a pice, for the one-hundred-and-ninety-second part of a Rupee, or the twelfth of an Anna.

Provided that none of the said Copper Coins shall be a legal tender, except for the fractions of a Rupee, and except in the Settlement of Prince of Wales' Island, Singapore, and Malacca for the fractions of a Dollar.

X. All Silver Coin of the weight and standard specified in the said Acts XVII of 1835, and XXI of 1838, issued since the passing of those Acts respectively and before the day of and declared by those Acts respectively to be a legal tender, and all Copper Coins of the weight specified in the said Acts XXI of 1835, XXII of 1844, and XVII of 1855 issued since the passing of those Acts respectively and before the day of and declared by those Acts respectively to be a legal tender for the amounts thereof respectively, subject to the same conditions and provisions as under those Acts respectively, anything in this Act contained notwithstanding.

Coin coined under former Acts still to be legal tender.

XI. All Acts and Laws in force in British India at the time of the passing of this Act respecting the Queen's Coin, or the Silver or Copper Coin current in British India, and not repugnant to the provisions of this Act, shall be, and continue in full force and effect, and shall be applied to the Silver and Copper Coin to be coined in pursuance of this Act.

Existing Acts to continue in force.

XII. The words "British India" in this Act denote the territories which are or may become vested in Her Majesty by the Statute 21 and 22 Vic., c. 106, "entitled An Act for the better Government of India."

Definition of British India.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to legalize the Coinage at and issue from the Mints of the new Silver and Copper Coins which the Government proposes to issue, and the dies of which have been prepared in England.

These Coins are of the same denomination, standard, and weight as those of the Coin already in use. The only change proposed to be made in the Coin which requires for its sanction an alteration in the law, consists in the omission of the words "East India Company." and of the designation of the Coin in Persian, which, under the present law, must be impressed on the reverse of the Coin. In lieu thereof the new Coin will bear on its obverse the name and title as well as the likeness of the Queen, and on the reverse the designation of the Coin in English. There are other changes in the devices and ornaments on the Coin, but this is the only one calling for alteration of the law, as the Governor General in Council in his executive capacity is empowered by the Act above referred to, to prescribe such other embellishments for the Silver Coinage as he may think fit.

Act XVII of 1835.

The present Bill provides that the Coin shall bear the likeness of Her Majesty, and the inscription "Victoria Queen," until the Governor General in Council shall otherwise direct, and empowers the Governor General in Council from time to time to vary the devices and inscriptions.

The proposed change in the Copper Coinage, which also mainly consists in the substitution of the name of the Queen for that of the East India Company, does not of itself require any change in the law. For power is given by Act XVII of 1835, Section X, Act XXI of 1835, and Act XXII of 1844 to the Governor General in Council by Order in Council to prescribe the devices and inscriptions for the Copper Coin.

But as the provisions for the Copper Coinage are scattered through several Acts* it has seemed desirable (except as to such of them as apply to the Copper Coin in the Straits Settlement, which stand on a different footing from the rest of India in that respect†) to repeal these Acts, and consolidate their provisions in the present Bill

## FOREIGN DEPARTMENT.

No. 212.

GENERAL.

*Fort William, the 31st January* 1862.

RESOLUTION.—The Governor General in Council has long felt the necessity for establishing, in the Burmese Provinces of British India, a central Administration, vested with ample power, subject to the general authority of the Government of India, to direct the affairs of those Provinces on a generally uniform system; to control the public expenditure in all Departments; to exercise a close and watchful supervision over the proceedings of the Local Officers of every class, and to devise such measures as may be best calculated to promote the material welfare and moral advancement of the people.

Hitherto these Provinces have been administered separately by three Commissioners independent of each other and subject to no local head. Two of them (Pegu and Tenasserim) are now in direct subordination to the Government of India, while the third (Arracan) formed, till recently, a portion of the Lieutenant-Governorship of Bengal.

They are all Non-Regulation Provinces. Their revenue system is in principle essentially the same. It is founded on the system which prevailed under the Burmese Government, and the modifications adopted in each Province, from time to time since it came under British Rule, are due less to any variety in the conditions of the three Provinces than to the differing views of the Authorities by whom they have been successively administered, subject to no general and comprehensive review by one common authority. Almost the whole population, except at the principal Seaport Towns, either are Burmese, or belong to some other branch of the Indo-Chinese family, having no affinity with the inhabitants of Bengal. They have many characteristics in common, are accustomed to intercourse with each other, and together form a group of races sufficiently homogeneous to mark the propriety of combining them under one rule.

The principal Sea-ports are already connected by an established periodical steam communication. All parts of the Coast, from one to another, are easily accessible in decked Vessels at all seasons of the year, and in open Boats and Canoes during a great part of it. Akyab, Prome, and Rangoon are joined by the Electric Telegraph wire, which will shortly be extended to Moulmein, and although the roads from one Province to another, especially that between Arracan and Pegu,

are at present difficult and tedious, yet communication by land is at all times practicable, and may be improved at a moderate cost. From all other parts of the British Indian Empire these Provinces are, from their geographical position, quite distinct, and, practically, can only be approached by Sea, the attempt to connect Akyab with Chittagong by a road having been made, and after great expense abandoned.

The authority vested in the Commissioners of the three Provinces has been too limited to enable them to deal freely with any measure of importance, and indeed with many details, without reference to the Government either of India or of Bengal, and the control exercised by those Governments over such distant possessions has been at times neither prompt nor effective; while projected measures of improvement have been sometimes delayed or rejected, and sometimes too hastily adopted, for want of the intervention of a Local Officer of high position and authority capable of weighing conflicting statements and opinions, and of presenting such measures, after full discussion with the Local Officers in each Province, in a form in which their merits might be thoroughly comprehended and a confident opinion formed on them by the Government. From the same cause many such measures, though adopted and found successful in one Province, have not been extended to the others.

Some months ago Lieutenant-Colonel Bruce and Mr. Temple, who were deputed to enquire into the condition of Pegu and the adjoining Provinces, and, in consultation with the Commissioners, to devise the means of introducing a better and more economical system of administration, submitted their views on the subject in the Reports which are now before the Governor General in Council. Their chief recommendations were that a Chief Commissioner should be set over the three Provinces, aided by a Secretary and a suitable Establishment; that there should be three Commissioners as at present, one in Pegu, another in the Tenasserim and Martaban Provinces, and a third in Arracan; that a Judicial Commissioner (a Barrister) should be appointed not only to hear appeals from the Divisional Commissioners and to superintend the Judicial Administration of Justice, but to preside as Judge in Local Civil Courts at the Sea-port Towns for the trial of commercial and other cases in which Europeans are concerned, and that the salaries of the Deputy and Assistant Commissioners should be re-arranged, so as to provide more effectually for the promotion of those classes of Officers and to assimilate their position to that of Officers of the same class in other parts of India.

With these recommendations were joined others for the re-organization of the Police, the appointment of an Inspector of Jails, and the reduction of Civil, Military, and Marine Establishments. These are subjects for separate consideration, and some of them have been already disposed of. The savings effected in Marine and Civil Establishments alone amount to more than seven lakhs of Rupees a year, and the reduction in Military charges is much greater.

The Governor General in Council, on a full consideration of the Reports submitted by Lieutenant-Colonel Bruce and Mr. Temple, and of the correspondence which has passed with the Secretary of State for India and with the Local Authorities regarding the establishment, at Moulmein and Rangoon, of Courts for the better trial of suits in which the Mercantile community are interested, and having in view the formation of a system of administration best adapted to the circumstances and wants of Her Majesty's possessions in Burmah, is pleased to resolve as follows:—

That the three Provinces now known as the Arracan Division, the Province of Pegu, and the Tenasserim and Martaban Provinces, shall be united under one Chief Civil Officer to be styled the Chief Commissioner of British Burmah. This Officer, whose Head-Quarters will be ordinarily at Rangoon, will exercise powers similar to those now vested in the Chief Commissioner of Oudh, and will be in charge, as the Agent of the Governor-General, of the foreign relations of the British Government with the Court of Ava and other neighbouring States on the Eastern Frontier. He will also exercise the powers of Judicial Commissioner for the general superintendence of the administration of justice and for hearing appeals from the Divisional Commissioners. His salary will be Rupees 50,000 a year, including all travelling expenses; and he will have a Secretary on a salary of Rupees 9,600 a year, with an allowance for travelling expenses* and with an Establishment not exceeding in

* *i. e.* 5 Rupees a day when absent on duty from the Head-Quarters of the Chief Commissioner of Rangoon. If absent at Sea with the Chief Commissioner on duty, the Secretary will submit a Contingent Bill for actual expenses and will draw no fixed travelling allowances while on board-ship.

respect to cost, that now entertained for the Commissioner of Pegu. The Chief Commissioner will submit an early report on the strength and expense of the Establishment actually required.

That the Province of British Burmah shall comprise three Divisions, each under a separate Commissioner, to be styled the Pegu, Tenasserim, and Arracan Divisions. The limits of these Divisions will at first correspond with those of the existing Commissionerships, but may be altered hereafter. Each Commissioner will receive a salary of Rupees 30,000 a year, including all travelling expenses. The Establishments of the Commissioners of the Tenasserim and Arracan Divisions will be the same as those now attached to the Commissioners of the Tenasserim and Martaban Provinces and of Arracan respectively. The Commissioner of Pegu will be authorized to entertain an Office Establishment at a cost not exceeding Rupees 1,000 a month, the exact strength and cost thereof to be fixed by the Chief Commissioner, subject to the sanction of the Government of India.

That, in place of the present Deputy and Assistant Commissioners, there shall be appointed for the whole Province of British Burmah—

| | Rs. |
|---|---|
| 2 Deputy Commissioners of the 1st Class, at 1,500 ... | 36,000 |
| 3 Deputy Commissioners of the 2nd Class, at 1,200 ... | 43,200 |
| 5 Deputy Commissioners of the 3rd Class, at 1,000 ... | 60,000 |
| *5 Deputy Commissioners of the 4th Class, at 800 ... | 48,000 |
| 5 Assistant Commissioners of the 1st Class, at 700 ... | 42,000 |
| 3 Assistant Commissioners of the 2nd Class, at 600 ... | 21,600 |
| 6 Assistant Commissioners of the 3rd Class, at 500 ... | 36,000 |

costing altogether Rupees 2,86,800 a year.

That, instead of a Judicial Commissioner for the whole Province, as proposed in the Reports, whose ordinary business can well be undertaken by the Chief Commissioner, and who, as Judge of a Special Court sitting at the Head-Quarters of each Division, could not possibly dispose of the causes arising at each place in a manner that would satisfy the Suitors or be consistent with the prompt and regular administration of justice, there shall be established at Rangoon and Moulmein a Court to be presided over by a Barrister or Advocate of not less than five years' standing, with full powers of Civil and Criminal Jurisdiction analogous to those now exercised by the Recorders of Prince of Wales' Island and Singapore, with the exception of the power to try cases in which European British Subjects are charged with capital offence. This part of the scheme must be delayed until a Law can be passed to constitute these Courts, and in the meanwhile the Additional Deputy Commissioner employed at Rangoon for the disposal of Civil Judicial business will be retained.

With the abovenamed exception, the new system will take effect from the date on which this Resolution is published at Rangoon.

*Notification.*—The following Rules for the admission of Pleaders in the Courts of the Province of Oudh are published for general information:—

*Rules for the admission of Pleaders and Agents to practise in the Courts of Oudh.*

No person will be allowed to practise in the Courts of Oudh, or in any way to interfere in any suit (unless a party or a recognized Agent under No. 2 of the published Rules of 6th August 1861), till he has received a Certificate under the following Rules, and any person interfering contrary to this provision will be treated as guilty of a contempt. Barristers or other persons who may by Law be entitled to plead can alone be exempt from these Rules.

2. Candidates for a Certificate enabling them to plead in the Courts must lodge with the Committee of Examination on or before a fixed date, a reasonable time before the day appointed for examining Candidates, trustworthy testimony showing the sufficiency of their education and respectability of their character, from which it may be judged whether they are fit persons to be admitted as Candidates. Applications will be submitted in the Form annexed A. The Committee will, after such enquiry as may be deemed necessary, admit or reject the Candidate, and shall not be bound to specify reasons for rejection. But a rejected Candidate may appeal to the Judicial Commissioner, who may call for a report of reasons, and whose order on the subject will be final. A list of persons admitted as Candidates will be submitted to the Judicial Commissioner who will have a veto thereupon.

3. Periodical Examinations will be held at Lucknow and at other Divisional Stations where they may be required by a Committee of which the Civil Judge or Commissioner of the Division will be President, and the other Members will be nominated by the Judicial Commissioner, and at these Examinations all persons admitted as Candidates may present themselves.

4. The following will be the subjects of Examination:—

The Hindoostanee language as spoken and written.

The Codes of Procedure and Penal Law (Civil Procedure Acts VIII. of 1859, and XXIII. of 1861, Criminal Procedure Act XXV. of 1861, Penal Code Act XLV. of 1860) as in force in Oudh, and other Laws of the British Government actually in force in Oudh.

The Mahomedan and Hindoo Laws affecting persons and property as administered in the British Courts.

The principal local Laws and Customs of Oudh

The printed Circulars of the Judicial Commissioner.

The Principles of English Law regarding Contracts and Torts, or The French Civil Code. } Optional with Candidates, but a good knowledge of either will be weighed against comparative want of perfect knowledge of Native Laws.

5. A set of questions and papers will be transmitted in manuscript under seal by the Judicial Commissioner to the Committee, who will open them at the time of Examination, read out question by question, and, with due precaution against communication, require each Candidate to answer each question in writing and file the answer. The Committee will further examine each Candidate *vivâ voce* in the language, and in the conduct of a case, and will record its opinion of his performance in each branch. They may also put

Will be filled up subsequently.

such further questions to him as they think fit. They will then examine and value the written papers, and, after classifying the Candidates in Order of Merit, will record their opinion which are qualified to receive a Certificate, and making a list of the same in the form annexed B., and will submit it (with the papers in case required for reference) to the Judicial Commissioner for his approval. On being approved by the Judicial Commissioner the Candidate will receive a Certificate in the form annexed C.

6. All holders of Certificates will be free to practice in the Courts of Oudh without respect to the number of persons so practising in any Court.

7. Certificates of holders guilty of any misconduct in any Court will be liable to be cancelled with the sanction of the Judicial Commissioner

SUMMARIES OF CONSTRUCTIONS OF INCOME TAX ACTS, NOS. XXXII AND XXXIX OF 1860.

No. 174.

**Landowner**

**Chargeable in current year on rents receivable by him for previous year whether realized or not.**

Act XXXII of 1860.
Section XCVII.
Rules 4 and 6.

A LANDOWNER should be assessed to the Income Tax for the year 1861-62 upon the amount of rents receivable by him for the previous year (1860-61) notwithstanding that such rents may not have been realized by reason of the insolvency or absconding of the tenants.

**Abatement**

**In respect of such rents when allowable.**

Section XCVII.
Rule 23.

Act XXXII of 1860.

If the rents for the year 1861-62 be not realized by the landowner he may obtain an abatement and discharge of the Duty on that account under Rule 23, Section XCVII,

**Landowner**

**When and when not chargeable on rents of newly acquired land.**

Section XCVII.
Rule 4.

By Rule 4 of Section XCVII a landowner is chargeable only upon the amount of the rents and profits received and receivable by him on account of any land for the previous year. If he acquire the land after the end of the preceding

year, and if the rents of that year never were receivable by him, he cannot be assessed until after the expiration of the current year. In some cases the acquisition of land during the current year might carry with it the right to arrears of rent for the previous year. When such is the case, the person acquiring the land is assessable upon the amount so receivable by him for the previous year.—*(Financial Department Order No.* 14062, *dated 26th November* 1861.*)*

No. 175.

**The Collector,**

**Not the Civil Pay-Master, is the authority to assess money refunded to certain Jagheerdars on the restoration of their Estate to them.**

Act XXXII of 1860.
Section XVIII.

The Civil Pay-Master in the Punjab declared not competent to assess to the Income Tax any portion of a sum of money refunded to certain Jagheerdars whose Estates, withheld from them from a date prior to the passing of Act XXXII of 1860, were restored to them after that Act came into operation. The case falling whithin Schedule 1 of Act XXXII of 1860, it was held that, under Section XVIII, the Collector was the proper authority to deal with it.—*(Financial Department Order No.* 14558, *dated* 10*th December* 1861.*)*

No. 176.

**Reward**

**For killing wild beasts, Income Tax not to be deducted.**

Act XXXII of 1860.
Schedule 2.

Rewards for the destruction of wild beasts are to be paid without deduction of Income Tax.

(*N. B.*—This modifies that part of Construction No. 140 which declared rewards for the destruction of wild beasts liable to Income Tax.)

*(Financial Department Order No.* 14636, *dated* 23*rd December* 1861.*)*

*No.* 125 *of* 1862.—In continuation of Government General Order No. 1120 of the 6th December 1861, His Excellency the Governor General in Council is pleased to publish, for general information, the following observations by the Right Hon'ble the Secretary of State for India on answers given by the Government of India to questions connected with the late changes in the Indian Army, and published in Government General Orders Nos. 801 and 833 of the 10th and 17th September 1861 :—

| Questions. | Answers by Government in India. | Remarks. |
|---|---|---|
| 96. An Officer is at home on two years' Furlough in 1856, and ordered out in consequence of the Mutiny in 1857, having ten months of his leave unexpired ; can he, if he joins the Staff Corps, take this balance of Furlough without losing his appointment ? | 96. Yes, he would be allowed the balance of his Furlough, retaining his appointment. | 96. Approved ; but add the words—" to the Staff Corps." |
| 97. An Officer proceeds on fifteen months' leave, retaining his appointment ; he obtains twelve months additional leave, and thereby forfeits his appointment. Is his absence of fifteen months to be reckoned as Staff service ? | 97. Yes. | 97. See Despatch to India, No. 315 of the 9th August, published in General Order No. 824 of 1861. |
| 99. Can an Officer having entered the Staff Corps retire from the Service and claim the extra 50*l.* as pension offered in Governor General's Order, dated 8th March last, No. 79, provided he applies to retire before the 1st October next ? | 99. Yes ; but, as shown in the Despatch, No. 302, dated 2nd August 1861, published in General Order No. 784 of the 5th September 1861, it is not the intention of Her Majesty's Government that Officers should enter the Staff Corps for the purpose of immediately retiring. | 99. See remark on question and answer No. 49, published in Government General Order No. 960 of 1861. |
| 102. Whether a Lieutenant in a British Regiment of Foot, of eight years' service, who was appointed Officiating Assistant Commissioner, Tenasserim and Martaban, on the 20th October 1860, and confirmed in the appointment of Second Class Extra Assistant Commissioner, Tenasserim Province, in June 1861, is eligible for the Staff Corps in India, and whether the service abovementioned will count as service on the Staff ? | 102. This Officer is eligible, at the discretion of Government, to join the Staff Corps on probation under paragraph 75 of the General Order. Having been confirmed in permanent employ, his previous temporary employment will count as Staff service. See Questions and Answers 26 and 40. But as this Officer held only temporary employment on the 18th of February last, he cannot be admitted into the Staff Corps previously to the 22nd October 1861, after that date his claims will be considered. | 102. An Officer entering the Staff Corps subsequent to the 22nd October 1861, has not the privilege of counting previous Staff service towards promotion. |

| Question. | Answers by Government in India. | Remarks. |
|---|---|---|
| 107. If an Artillery Officer elects to serve out of India, will his pay and allowances, while serving in India, undergo any alteration from the existing rates? Paragraph 30. | 107. His pay and allowances will not be altered. | 107. Approved; but add—"while serving in India." |
| 108. It is presumed that Officers of Artillery now holding appointments either on the General Staff with Batteries of Native Artillery, in the Ordnance Department, or as Superintendents of Ordnance Manufacturing Establishments in India, are not required to vacate their appointments should they declare themselves willing to serve out of India, and that Officers now doing Regimental duty, and who are willing to serve out of India, will be eligible for appointment hereafter to Artillery and Ordnance Staff situations? Paragraphs 30 and 45. | 108. Artillery Officers who volunteer will retain their appointments, and those who have no appointments will be eligible to Staff employ. | 108. Substitute "Artillery Officers who volunteer will retain their appointments unless their services should be required elsewhere, and those who," &c., &c. |
| 110. A Staff Officer having been directed temporarily to re-join his Regiment on field service or for garrison duty, when circumstances have required for a time the presence of additional Officers, will the period he may thus have been temporarily serving with his Regiment count as Staff service for promotion in the Staff Corps? Paragraph 84. | 110. The period during which a Staff Officer may temporarily serve with his Regiment will not reckon as Staff service unless he has joined his Regiment in the field. | 110. The privilege of counting as Staff service the period during which a Staff Officer may temporarily serve with his Regiment, if ordered to do so on public grounds, shall be granted to Officers joining their Regiments for garrison duty, as well as to those joining for field service. |

### LEGISLATIVE.

The following Report of a Select Committee was presented to the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 5th February 1862 :—

We the undersigned the Members of the Select Committee of the Council of the Governor-General of India for the purpose of making Laws and Regulations, to whom the Bill "to revive and continue in force for a further period Act XXXIII of 1857 (to make further provision relating to Foreigners)," was referred, have the honor to report that we have considered the Bill, and that we have no amendment to propose.

---

The following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 5th February 1862, and was referred to a Select Committee, with instructions to make a report thereon within one month :—

*A Bill to amend Act XLVI of* 1860 *(to authorize and regulate the Emigration of Native Laborers to the French Colonies.)*

Preamble. WHEREAS since the passing of Act XLVI of 1860 *(to authorize and regulate the Emigration of Native Laborers to the French Colonies)* the Convention therein recited between Her Majesty the Queen of Great Britain and Ireland and His Majesty the Emperor of the French has been varied in the following particulars: that is to say, by substituting for Article XXVI in the said Convention as so recited in the said Act, the following Article :

"ARTICLE XXVI.

The present Convention shall begin to take effect on the 1st of July 1862; its duration is fixed at three years and a half. It shall remain in full force if notice for its termination be not given in the course of the month of July of the third year, and then notice can be given only in the course of the month of July of each succeeding year.

In case of such notice being given it shall cease eighteen months afterwards.

Nevertheless the Governor-General of British India in Council shall, in conformity with the Act of the 19th of September 1856, relative to emigration to British Colonies, have the power to suspend at any time emigration to any one or more of the French Colonies, in the event of his having reason to believe that in any such Colony proper measures have not been taken for the protection of the Emigrants immediately upon their arrival or during their residence therein or for their safe return to India, or to provide a return passage to India for any such Emigrants at or about the time at which they are entitled to such return passage.

In case, however, the power thus reserved to the Governor-General of British India should at any time be exercised, the French Government shall have the right immediately to terminate the whole Convention if they should think proper to do so.

But in the event of the determination of the present Convention, from whatever cause, the stipulations relative to Indian subjects of Her Britannic Majesty introduced into the French Colonies shall be maintained in force in favor of the said Indian subjects until they shall either have been sent back to their own country, or have renounced their right to a return passage to India."

And also by the addition of the two following Articles which were not comprised in the Convention or recited in the said Act, that is to say—

"ARTICLE XXVII.

The present Convention shall be ratified, and the ratifications shall be exchanged at Paris in four weeks, or sooner if possible.

ADDITIONAL ARTICLE.

His Majesty the Emperor of the French having stated that, in consequence of the order which he gave long ago that no more African Emigrants should be introduced into the Island of Re-union, that Colony has, since last year, had to obtain laborers from India and China; and Her Britannic Majesty having, by Convention signed on the 25th of July 1860, between Her Majesty and His Majesty the Emperor of the French, authorized the Colony of Re-union to recruit six thousand laborers in Her Indian possessions, it is agreed that the Convention of this date shall take effect forthwith with regard to the said Colony of Re-union.

The present Additional Article shall have the same force and validity as if it were inserted word for word in the Convention signed this day. It shall be ratified, and the ratifications shall be exchanged at the same time as those of the Convention"

And whereas the said Convention with such alterations and additions as aforesaid together with such additional Article has been duly signed, ratified, and confirmed:

It is declared and enacted as follows:—

Act XLVI of 1860 to be applicable to the Convention as signed and ratified.

All the provisions of Act XLVI of 1860 *(to authorize and regulate the Emigration of Native Laborers to the French Colonies)* shall be and remain in full force notwithstanding that the Convention therein recited had been so altered and added to before the same was signed or ratified as aforesaid: and all such provisions, in so far as the same relate to the Convention recited in the said Act, shall be deemed to apply and shall apply to the said Convention as signed and ratified as aforesaid together with the additional Article thereof.

## STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to adapt the provisions of Act No XLVI of 1860 *(to authorize and regulate the Emigration of Native Laborers to the French Colonies)* to the Convention actually signed on the 1st July 1861 and ratified by Her Majesty and the Emperor of the French, for authorizing and regulating the emigration of Native Laborers to the French Colonies with an additional Article signed on the same date and similarly ratified.

The Convention thus signed varied in one important particular contained in the 26th Article from that originally negotiated and agreed upon, to which the Act XLVI of 1860, which was passed on the 6th October 1860, referred. The 26th Article as signed and ratified prescribes that the Convention shall begin to take effect on the 1st July 1862 (instead of September 1861), and it adds as a new provision that the Governor General of India in Council shall, in conformity with Act XIX of 1856 *(to enable the Governor General of India in Council to suspend the operation of certain Acts relating to the Emigration of Native Laborers)* relative to emigration to British Colonies, have the power to suspend at any time emigration to any of the French Colonies, in the event of his having reason to believe that in any such Colony proper means have not been taken for the protection of the emigrants immediately upon their arrival, or during their residence therein, or for their safe return to India, or to provide a return passage to India for any such emigrants at or about the time at which they are entitled to such passage. But that in case the powers thus reserved should at any time be exercised, the French Government should have the right immediately to terminate the whole Convention if they should think right so to do.

By the additional Article it was agreed that the Convention should take effect forthwith with regard to the Colony of Re-union.

These alterations in the Convention being material, it has become necessary to provide by legislation for the carrying it into effect in its altered shape. The present Bill therefore provides that all the provisions of Act XLVI of 1860 shall remain in full force, notwithstanding the change in the Convention, and shall be taken to apply to the Convention as altered together with the additional Article thereof.

---

THE following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 5th February 1862, and was referred to a Select Committee with instructions to make their report thereon within a fortnight:—

*A Bill to amend the Law relating to the use of a Government Seal.*

Preamble.

WHEREAS it is expedient to adapt the Law relating to the use of a Government Seal to the present form of the Government in India, it is enacted as follows:

What seal to be used intead of the seal of the East India Company.

Whenever it is required by any Regulation of a local Government, or by any Act of the Governor-General of India in Council, that the seal of the East India Company shall be affixed on behalf of the Government to any instrument or document, it shall be lawful, if the seal is to be affixed on behalf of a local Government, to affix in lieu of the seal of the East India Company a seal bearing the designation of such local Government, or, if the seal is to be affixed on behalf of the Government of India, a seal bearing the inscription "Government of India;" and such instrument or document so sealed shall, to all intents and purposes, be as valid and effectual as if the seal so used had been that of the East India Company.

STATEMENT OF OBJECTS AND REASONS.

LEGISLATION on this subject was originally suggested in order to meet a difficulty respecting the seal to be used under Act XIX of 1838 *(for the registration of Coasting Vessels in the Bombay Presidency)*. Section VIII of that Act requires that Certificates of Registry "shall be sealed with the seal of the East India Company," and the Government of Bombay were advised by their Law Officers that no other seal could properly be used for such Certificates until some Act should be passed "prescribing the seal to be used in lieu of the seal of the East India Company."

Before the present Bill was drafted, a further reference was made on the general question by the Government of India to the Advocate-General of Bengal. That Officer (Mr Ritchie) expressed his concurrence in the opinion given in Bombay. He did not doubt that Certificates of Registry, for instance, would be valid, though sealed with the East India Company's seal subsequently to the transfer of the Government to the Crown. But it would, he observed, at all events be more seemly to substitute some other seal for the future This could not, he added, be properly done without the authority of the Legislature; and he suggested that any enactment which might be drafted for the purpose should be so drawn as to have a general application, and should not be limited to the Government of Bombay alone.

The present Bill has, therefore, been made applicable to all cases in which the use of the seal of the East India Company is prescribed by any Indian Regulation or Act. But it does not affect the use of that seal or of the seal of the Secretary of State, or of the Members of his Council under any English Statute.
